HOME MATTERS.

Our readers will see from the following paragraph, which we extract from the Chronicle of yesterday afternoon, that the Fair for the Orphans has been very successful:

The Fair, for the benefit of the Orphans, closed last evening at 12 o'clock, after a week's unremitting labor on the part of the ladies and managers. The Fair has been sustained beyond expectation, and the friends of the Orphans have every reason to be gratified with the result. The exact amount realized will not be ascertained for several days, yet we are safe in setting it down in the neighborhood of $3,000. This will place the Institution out of present difficulties, and afford certain support for the coming winter.

The jury in the case of the United States vs. Hester Richardson, which was reported at full length in our paper, came into Court three times unable to agree upon a verdict. After explanations of the law by Judge Grier, they were ordered back to form a verdict.

COURT OF QUARTER SESSIONS.—The jury in the case of Wm. Martin, indictment, assault and battery, returned a verdict of guilty. He was remanded for the present.

Com. vs. John Bevlett and Godfrey Kearns: indictment, larceny, on oath of George W. Leonard. These prisoners committed the larceny for which they are indicted, some days ago, in feloniously taking a lot of silk handkerchiefs from the store of Mr. Leonard. He caught them in the act, and had them arrested. The jury returned a verdict of guilty, and the Judge remanded them for sentence.

Com. vs. Charles Pugh, Wm. Sprague, John Woods, jr., and H. Bear: indictment, forcible entry and detainer, on oath of Thomas Wood. The jury, after hearing the facts in the case, returned a verdict of not guilty, and that the prosecutor pay the costs of Court.

Com. vs. Leroy Wilt: indictment burglary, on oath of Barbara Metzger. The charge not being sustained, he was acquitted.

Com. vs. Thomas Crumbly, John Denyton, and Alexander Forsyth: indictment assault and battery. This case was continued until next term; and Forsyth was released on his own recognizance.

Com. vs. John Fredericks, Catharina and Susan Fredericks: indictment, keeping a house of ill-fame. On trial.

DISTRICT COURT.—Judges McClure and Williams are pushing through the trial list of the District Court very rapidly, they having disposed of no less than twenty-eight causes yesterday, the most important of which we give below. Their Honors certainly deserve the thanks of the community, for their promptness.

Thomas Snodgrass vs. Dr. George Flowers: No. 407, November term, 1849. Judgment confirmed.

Robert McCarron for use vs. D. W. Bose and Leonard Forsyth, et al.: No. 254, November term, 1849; Gilmore for plaintiff; A. H. Miller for defendants. Verdict for plaintiff of $166,79.

Augustus Beyle for use vs. John Little: List 182, No. 171, November term, 1850. Verdict of $11,760 for plaintiff.

Michael Kane, jr., surviving partner of Robert Kane, vs. Willis & Coyle: No. 348, January term, 1852. Judgment by default.

Bernard Berns vs. Thomas J. Campbell: List 115, No. 62, November term, 1851. The jury returned a verdict for plaintiff of $1294.

IN THE CIRCUIT COURT OF THE UNITED STATES, the case of the Cabet Bank of Massachusetts vs Patterson and Ewing was on trial. Action to recover the value of two promissory notes, one to the amount of $5,000, and the other $7,000, endorsed by defendants, and negotiated by the Cabet Bank. Loomis & Staunton for plaintiff; Woods & Williams for defendant.

We would remind our readers of the large sale of choice dry goods, &c., at the store of J. A. McKnight this day, commencing at 9 o'clock. A splendid assortment of dress silks, shawls, &c., will be sold at 11 o'clock, by P. M. Davis, Auctioneer.

FIRE.—A fire broke out in the packing room of the cotton mill of Messrs Logan & Kennedy, Allegheny City, known as the Penn Mill, about seven o'clock on yesterday morning. By the efforts of the firemen the flames were extinguished before much damage was done.

INDIANA TOWNSHIP PLOUGHING MATCH.—Pursuant to adjournment, the Board of Managers met at Bell's Hotel, Deer Creek, Monday, the 15th inst. In the absence of the President, on motion, Peter Wise was called to the chair. Dr. Jonathan F. Garrard, chairman of committee, reported that the committee had viewed four fields; that the field offered by Jesse Garrard was their choice, it being the best one offered for the Plowing Match.

On motion, the report was accepted.

Rules for Plowing.—The judges to award premiums to the plowing done the straightest, nearest to the square, and not less than six inches deep.

On motion, resolved, that the ploughmen be on the ground punctually at 9½ o'clock on the 22d inst.

On motion, resolved, that we adjourn to meet on the ground at 9 o'clock on Monday, the 22d inst.

PETER WISE, Chm'n,
JAMES GARRARD, Secretary.

THE NEW EPISCOPAL CHURCH is very nearly completed; the tile floor has been laid, seats finished, &c. The work has been done very rapidly, considering its finness and amount.

CATHOLIC CATHEDRAL.—The beautiful statues of St. Peter and St. Paul, intended to surmount the pillars of the door of the new Catholic Cathedral, on Grant street, have been placed on their pedestals. We have never seen finer specimens of rough statuary work than these, and the execution displayed in them does great credit to the ability of the artist.

FIRE.—About seven o'clock last evening, a fire broke out in a stable at the head of Wylie street. We learn that there was not much damage done.

ACCIDENT.—A horse attached to a cart became entangled in his gearing, on Liberty street, yesterday, and was thrown down. He was released before much damage had been done.

TOO BAD.—The broken side-walks in our frequented streets are productive of numberless accidents, more or less serious. Last night, a gentleman while walking down Fifth street, tripped upon the broken pavement, and fell, injuring himself quite severely. The citizens should see that the pavements in front of their houses are in good condition.

The Panorama of the Wonderful Dream is still attracting crowded houses. We have no doubt this will be a very successful visit to the proprietor.

THE MUSEUM CASES in the Court of Quarter Sessions will be tried in a few days, true bills having been found by the Grand Jury.

THE GERMANIA MUSICAL SOCIETY, we see it stated, will be here positively in the spring — They were announced to appear here this fall, but for some reason they did not fulfil their engagement.

UNWELL.—His honor, Mayor Guthrie, was confined to his house yesterday, through illness. No business was transacted in consequence.

POLICE NEWS.

By processes of Court a colored man named M'Knight was arrested and committed to answer the charges of keeping a tippling house, and a gambling house, and also a charge of assault and battery.

FURTHER HEARING.—Charles Dutteridge and Joseph Qaebee, who were arrested and imprisoned several days ago for larceny, had a hearing yesterday, and were remanded until the twentieth for further hearing.

POLICE NEWS.—There was not a single item of police news at any of the Aldermen's offices, or Mayor's office, yesterday. Whether the fact is owing to the reformation of the rowdies, or on account of the navigable stage of the river, we cannot say.

CONSISTENCY.—During the week ending yesterday, November 16th, there have been sixty-nine commitments to the county jail, for the following offences: twenty for vagrancy; twenty-one for drunkenness; one for bigamy; ten for larceny; fourteen for disorderly conduct; one for refusing to testify; one for contempt of court; one for keeping a tippling house; one for keeping a gambling house; and one for assault and battery; and during the same time there have been twenty-four discharges. This is considerably less than the average amount of weekly commitals; they generally reaching as high as eighty and upward.

ABOUT eleven o'clock last evening we learned that the jury in the case of Hester Richardson acquitted to the Judge that they could not agree. They were again sent back.

THE MAYORALTY.

TO THE WARD AND ANTI-KNOW NOTHING PARTY OF PITTSBURGH.

GENTLEMEN:—By name having been spoken of in public for several weeks past as a candidate for the Mayoralty, I take this means to say that if nominated, by your choice and in the election, and elected by my fellow citizens for the 3d of December all the duties I can command for the faithful discharge of its duties, with a conscientious effort to maintain good order, and to protect the morals of the youth of our city, they treasure of those who by nomination and election may have the honor to fill the municipal offices of the city. I am thankful to your committee, and with some of the members of it personally for their kindness extended to me, and to many others who desired my nomination, and I respectfully request them with them to my name. Respectfully, M. FARRY.

COMMERCIAL.

[Per Mail.—The quotations given in this Review are, we think, below our own cost.]

We have no change to report in the market since last week, all trade has been suspended, and we can only say that we still adhere to the views then expressed, and will be the country trader, buyers must expect to pay from three to five per cent above those quotations. We would further say that it is extremely difficult to quote any further than the above prices. But then we give the current prices now, we think the experienced country dealer will find but little difficulty in distinguishing from the regular store prices, as to what is supposed to be the most market prices (a profession.)

REVIEW OF THE PITTSBURGH MARKET.

For the week ending November 13, 1852.

Since our last weekly issue we have had high waters in our rivers, and as a matter of course, business generally has been very lively, and our merchants have, to some extent at least, been repaid for the long season of dullness through which they have passed. Unfortunately, however, the weather changed several days since, and became bitter cold, dry and windy, with an occasional brush of snow, and the consequence is, that we have from a height of 12 feet and six inches it is now down again to less than four feet, and still on the decline. All the Monongahela packets are laid up, several of our Ohio, Louisville and New Orleans boats went out of the river, but on their return trips, owing to the subsiding of the waters they were enabled to bring but light loads of freight.

The late rise in the Allegheny was but a partial one, in consequence of which, the receipts of pig metal were very small; and from this already light supplies, on the market an extraordinary advance took place in the article; and, as will be seen by the sales which we report to-day Higher prices were obtained, as we believe, than ever before known. It is very plain to be seen, however, that this extraordinary reaction in the prices of pig metal, had its origin alone in the fact of the small supplies here, and the slim prospect of any very heavy receipts, during the remainder of the season. Iron, in Philadelphia, as we learn by the Commercial List of the 13th instant, had undergone no material change, notwithstanding the light-ness of stocks there, the market continued very quiet, with sales at the following rates:—Anthracite forge from $24 ½ ton; anthracite pig at $28 ½ ton; common bars, from store were selling at $60, held refused do at $70 ½ ton, which is about the price of blooms in this market. In consequence of the rise in pig iron, it will be seen by our report to-day that the various descriptions of bar iron, nails &c. have gone up, and will continue firm at the present high rates until a decline shall take place in its raw material.

Flour.—The latter part of the week, while the receipts of grain have been moderate. The market for both continues very firm, with some advance on flour.—The receipts of the various other articles of western produce have been quite heavy, and prices generally are weak and unsettled.

ASHES.—We notice a continued firmness in the market, at the fully quoted prices of our last report. We note sales of pearls on the following terms:—10 tons domestic at 5¼@5¾c, cash and time; 10 casks foreign at 5¾c. In casks domestic at 5¾c; 70 do foreign at 5¾c; 10 do at 5¾c, and 25 casks domestic at 5¾c, on time. Pots: 5 casks pearlash at 5¾c; 5 do. and 5 tons do at 5¾c. APPLES.—Sales of about 400 bbls in lots from store at $1,12@$1,18 ¥ bbl, the latter figures being for russetts and other superior qualities. Prices from first hands are from at about $1,00@$1,10 ¥ bbl.

FLOUR.—Heavy receipts have been coming in during the week, but as most of it was designed for eastern shipment, prices have kept quite firm, with some advance since our last general review. The sales of the week amount to some 3000 bbls in lots, principally from store, at prices ranging from a height of 12 feet and six inches it is now down again to less than four feet, and still on the decline. All the Monongahela packets are laid up, several of our Ohio, Louisville and New Orleans boats went out of the river, but on their return trips, owing to the subsiding of the waters they were enabled to bring but light loads of freight.

The late rise in the Allegheny was but a partial one, in consequence of which, the receipts of pig metal were very small; and from this already light supplies, on the market an extraordinary advance took place in the article; and, as will be seen by the sales which we report to-day Higher prices were obtained, as we believe, than ever before known. It is very plain to be seen, however, that this extraordinary reaction in the prices of pig metal, had its origin alone in the fact of the small supplies here, and the slim prospect of any very heavy receipts, during the remainder of the season. Iron, in Philadelphia, as we learn by the Commercial List of the 13th instant, had undergone no material change, notwithstanding the lightness of stocks there, the market continued very quiet, with sales at the following rates:—Anthracite forge from $24 ¥ ton; anthracite pig at $28 ¥ ton; common bars, from store were selling at $60, held refused do at $70 ¥ ton, which is about the price of blooms in this market. In consequence of the rise in pig iron, it will be seen by our report to-day that the various descriptions of bar iron, nails &c. have gone up, and will continue firm at the present high rates until a decline shall take place in its raw material.

Flour.—The latter part of the week, while the receipts of grain have been moderate. The market for both continues very firm, with some advance on flour.—The receipts of the various other articles of western produce have been quite heavy, and prices generally are weak and unsettled.

ASHES.—We notice a continued firmness in the market, at the fully quoted prices of our last report. We note sales of pearls on the following terms:—10 tons domestic at 5¼@5¾c, cash and time; 10 casks foreign at 5¾c.
