PITTSBURGH GAZETTE.

PUBLISHED BY WHITE & CO.

PITTSBURGH.

TUESDAY MORNING, NOV. 23, 1852.

☞TO ADVERTISERS—Neither the Editorial Rooms nor Printing Establishment of the DAILY GAZETTE, are opened on Sunday. ADVERTISERS who desire their matter to appear in the paper on Monday morning, will please hand them in before 5 o'clock, on Saturday evening.

THE WESTERN PENNSYLVANIA HOSPITAL.—Our readers will be pleased to learn, from the communication of Mr. Bakewell, the President of the Board of Managers of the Institution, that it will be open for the reception of patients on the first of next month. Pittsburgh can then boast of as many facilities for the care and amelioration of suffering humanity, as any city in the Union. Whatever delay there may have been in opening this fine hospital, has been necessary for the perfection of the arrangements, and will result in the greater convenience and benefit of all concerned.

THE LEMMON SLAVES.—The New York Journal of Commerce announces the receipt of $4,280, as an indemnity to Mr. Lemmon for the slaves set free by Judge Paine, in accordance with the laws of New York. The whole $5000, at which the slaves are valued, will be made up. The Tribune announces a subscription for the benefit of the slaves, thus set free, and thrown upon their own resources, without any subsequent preparation.

ARCTIC SCIENTIFIC EXPEDITION.—Our Government is taking a very active and most commendible part in the promotion of the means of arriving at a correct knowledge of certain little known parts of the earth, and of benefitting mankind by encouraging intercourse and civilization. The expeditions just fitted out to Japan, and for the exploration of the seas of that region, are among the most magnificent ever projected by any country, and their results are looked forward to with intense interest by the whole civilized world.

Another exhibition has been set on foot, which, considering our relations with Africa, and the probability that a great civilized community will spring up there, having her own institutions and customs, and, what is more important still, our religion, possesses as much interest as any which has preceded it. The expedition we refer to, has as exploration of the western coast of Africa for its object. Lieut. Lynch, of the Navy, who acted as Superintendent of the late Dead Sea Expedition, has recently embarked at New York for London, whence he will proceed, in the new British line of steamers, for Africa. The object of the mission upon which he has entered under the orders of the Government, is to make certain inquiries and arrangements, preliminary to an intended exploration of the West coast of Africa.

America owes an immense debt to Africa, and one which she can only pay by promoting Christian civilization, and the arts of commerce agriculture, and manufactures; and thus preparing it for the home of the Christianized and civilized black man, she has in former years forcibly abducted from their native shores and has since held in bondage. Everything which promotes African civilization, diminishes the difficulties surrounding the great question of American slavery, and although we have no expectation that so mighty an exodus of so great an army of blacks as now people this country can ever take place, yet hundreds of thousands may, and build an empire there which shall, by its reflective influences, destroy African slavery in this country. We are glad Lieutenant Lynch has been sent on the mission, and we look for it to be followed by beneficial results.

THE LOBOS ISLANDS DIFFICULTY SETTLED.—The Washington papers publish an authoritative statement of the final settlement of the difficulty with Peru in regard to the Guano trade. The President, after a careful examination of the whole subject, has withdrawn unconditionally the claim set up by Mr. Webster, in relation to the jurisdiction of the Lobos Islands; and has acknowledged unreservedly the rights of sovereignty claimed by Peru. The Peruvian Government, in consideration of this just conduct on the part of our Government, has engaged to freight, on its own account, at twenty dollars per ton, all the vessels which left the United States for the Lobos Islands between the 6th of June and the 25th of August; that the Peruvian Government will buy, on fair price the implements and utensils carried out by these vessels to be used in procuring guano; and that vessels in the Pacific, chartered under orders sent before the 25th of August, and which could not be countermanded, shall be included in the Arrangement, on certificates of reporting to the agents of the Peruvian Government in the United States before the 1st of January 1853.

Thus this controversy, which at one time looked dangerous, has been justly and amicably settled, in a manner highly honorable to both Governments.

Every American, of just sentiments, must feel proud of the able and judicious manner in which all our foreign relations have been managed by Mr. Fillmore. Justice, forbearance and dignity have characterized his administration, which will long be remembered with respect and gratitude by the people of this country.

THE PENNSYLVANIA RAILROAD.

We published at the first page of our paper yesterday, an article extracted from the Pittsburgh Gazette, alleging, in substance, that the lessees of the Columbia Railroad have receded from, and thereby justly defeated, an arrangement into which they had lately entered with the Pennsylvania Railroad Company, to "run an express train through from Philadelphia to Cincinnati, making the time from Philadelphia to Pittsburgh in eighteen hours." The statement of the paragraph copied by us, proceeded on what it styled "reliable authority," and we published it, accordingly, in our miscellaneous news columns, with a view to expose and amend what, if true, we regarded as gross public injustice, or to elicit a denial of the assertion, if really unfounded and false.

We are glad to be thus early enabled to contradict the whole allegation quoted from the Gazette of Pittsburgh, upon the joint assurances of the President of the Pennsylvania Railroad and Messrs. Stephens & Dean, the lessees of the Columbia road. They have informed us that no disagreement or disunity of the kind stated has occurred, and that the arrangement for running an express train to Cincinnati, as specified, is now subsisting, and will, with the removal of certain hindrances, that only for a moment occasion delay, be strictly carried out. Some temporary obstacles are the uncompleted state of the Conrad road in its western division, a change of the time of starting the trains from Pittsburgh to Cleveland, involving the necessity of a corresponding alteration here, and the want of sufficient rolling stock for the new express. Messrs. Stephens & Dean, as the joint agents of the State, to make such modifications themselves. The west end of the Pennsylvania road will be in working order by December, and in the meantime its President, Mr. Thompson, is to meet the Canal Commissioners for the purpose of making the required changes, specifying the hour of starting the cars at the terminus of the line. In relation to this matter there is every reason to expect a satisfactory settlement, and, therefore, to advance that, early in the next month, a through express train will be run from this city to Cincinnati, making the trip to Pittsburgh in the time originally contemplated.

Assurances to the contrary will be of immense advantage to the commercial interests of Philadelphia, of Pittsburgh, and the whole State; and we are happy to have such unquestionable authority for believing that it will be speedily and certainly put in operation.—*North American of Friday.*

We are most gratified to find that our "excellent authority," which was no less than that of one of the principal officers of the road, was a mistaken. The chagrin we felt to learn that the contemplated arrangements were about to be thwarted for such a ridiculous reason, caused us to speak pretty sharply, as the occasion required; but the pleasure we feel in making the correction is a full offset to the previous mortification, and we sincerely trust that we may not hereafter be under the necessity of speaking in any language but that of praise of the Pennsylvania route.

C. C. Gray, Esq., member of the Ohio State Senate, died at Knoxville, on Tuesday last, from injuries received by the explosion of the Bonanza Belle.

Second Steamer Burned.—The burning of Mobile Point was rivalled on unusually low water, on the Mississippi, in the day $60,000 were passed.

FROM NEW YORK.

(Correspondence of the Pittsburgh Daily Gazette.)

NEW YORK, Nov. 19, 1852.

The lecture by Mr. Thackeray is anticipated by all who belong to "society," with much interest, and he will make his appearance to night before an audience as fair and intelligent as New York can contribute from her half million of citizens. Every body seems disposed to go off in a paroxysm of delight, and he requires only a moderate amount of success to carry him safely into wide popularity as a lecturer, and pecuniary profit, as not a ticket remains unsold for his lecture.

An auction sale is to be held of the pictures of the American Art Union, which will probably close its existence under the present management. If a new scheme of distribution can be hit upon, a re-organization is contemplated.—Any feasible plan will be as warmly sustained by the present subscribers to the Union, who feel a good deal of sympathy for the managers, who have certainly been well abused and annoyed for their attempt to protect subscribers.

In Wall street, there is more activity and a greater speculative feeling than has been seen for a long period, and stocks of all kinds show signs of a large advance. Erie Railroad, under a combination, has advanced to 94 per cent. cash, the highest point it ever reached, and it is probable will really, if not quite, touch par. A grand operation was made about the Nicaragua Transit Company yesterday, and the consequence has been a regular stampede among holders, who in their panic, sold at any price. To-day they ascertained that the whole explosion was a stock jobbing operation, set on foot by the bears. The Company is under the management of such men as James Depeyster Ogden, and Thomas Tileston, and above any attempt at defalcation, such as Marcoletta, the Nicaraguan Minister, charges upon them. All kinds of Western bonds are firmly held, and considerable sales are daily making.

The Ames Manufacturing Company have on show at their office in Broadway, two services of plate for the St. Charles Hotel, at New Orleans, valued at thirty-six thousand dollars, the most costly affair ever got up for a hotel in this country. Large purchases of costly wares have been made here for this hotel, and it will no doubt in all points excel the Metropolitan of this city.

A Methodist Tract Society has been organized in this city, especially designed to meet the wants of the Methodist Church. One of its special aims will be to supply the demand for Dutch German, and Scandanavian Missions, Domestic and Foreign, with translations. This is an urgent demand, and several German Tract Societies now exist in the Church, having originated in this felt necessity, but they need consolidation and more general help.

Another object will be to scatter tracts where needed. Measures have already been taken to enlarge the catalogue, to revise it thoroughly, and supersede many of the old tracts. Vast amounts of tract stock are piled away in the Book Rooms; an attempt will be made to bring them forth into circulation. Another important but difficult work of the Society will be to provide some system of colportage in the Conferences for the sale of their publications. It will be a chief subject of deliberation with the Board. The plans and resources of the Society will necessarily be of slow development, as were those of the Sunday School Union, but it is hoped they will be sure and permanent. Its officers are: Presidents—The Bishops of the Methodist Episcopal Church. Vice Presidents —Hon. John McLean, of Ohio; Hon. Elisha Harris, of Rhode Island. Corresponding Secretary—Abel Stevens. Treasurer—John B. Edward. Recording Secretary—Stephen B. Wickens.

A purse is about to be made up for the "Lemmons," whose slaves were liberated by our Courts, and all means taken by the Union-saving people to appear to the South that we are sorry Judge Paine was honest and let the poor creatures have the full benefit of a statute made for such cases. It is of no use for the South to lament this case. They assert and exercise the right of refusing to allow the North to come into their courts for the purpose of testing their laws, and can with a poor grace refuse us the right of holding the same "State Right" views upon our side of the question. The Lemmons are Whigs will repeal this statute, and all slaves brought here, come with the understanding that they are free thenceforth and forever.

The new railroad in broadway is soon to be a fact. The proportion of spoils has at last been agreed upon by the contestants, and leaves little more to be done. The road will be an immense advantage, and the sooner it comes, the better. O.

For the Pittsburgh Gazette.

THE WESTERN PENNSYLVANIA HOSPITAL.

The Board of Managers have the pleasure to inform the contributors to the Western Pennsylvania Hospital that the arrangements which were in progress during the last summer for securing an adequate supply of water, and constructing the warming and culinary apparatus, are now nearly completed, and that it is their intention to open the Hospital for the reception of patients, in accordance with the provisions of the charter on the first day of December next.

As some misapprehension appears to exist in relation to the funds of the Hospital, the Board consider it due to themselves to state that only a small portion of the State appropriation has been received, and that the balance of funds in the treasury has at no time exceeded the amount of claims against the Institution and the sum required to put it into operation. By order of the Board. ATHOS. BAKEWELL, Pres't.

PITTSBURGH, Nov. 22, 1852.

From the New York Tribune of Nov. 18.

CUBA—WORTH CONSIDERING.

1. The Spanish rulers of Cuba stand *seeking* from us, every thing we possess, and only ask of us that we let them alone. They have no conceivable motive for insulting our flag or illusing our people, but the most obvious and weighty inducements to avoid every thing of the kind.

2. Many of our people, on the other hand, notoriously do covet the possession of Cuba. They mean to wrest it from Spain by fair means or foul; and, in order to insure the success of the project, they are most anxious to involve our Government in their quarrel. They have every incentive to instigate a broil—every inducement to exaggerate any disrespect which may be shown us or slight put upon us by the Spaniards. They are morally certain to be eager witnesses of any such *offence*, and to be ecstatic to make the most and the worst of it.

3. Nobody believes that Governor Canedo and his fanatic-marine have any other motive for their repugnance to the free coming and going of "Mr. William Smith" than their belief that he is an agent and go-between of the filibusters in and out of Cuba. The Spanish officials mean to hold Cuba for their sovereign and country to the last. Can we blame them for this? And have our filibusters any fair claim to judge authoritatively of the nature and extent of the precautions which those functionaries may justly take against the sleepless exertions made by our adventurers to take the island from under their feet?

4. The calm judgment of the civilized world will brush away any cobwebs behind which we may seek to hide our national cupidity. If we get into a row with Spain in the premises, the main cause will be this: *our people want Cuba, and the Spaniards won't peaceably give it up to us.* There may be over so many pretexts, but this will be the real bone of contention.

Americans! countrymen! there are some things which seem pleasant to do, yea which history must consure and sternly reprobate. Is not this whole filibustering crusade among them?

NORTH CAROLINA.

The official vote of this State stands thus:

Pierce	$9,764	
Scott	9,161	
		603

The Democratic vote is about 9,000 less than that given at the gubernatorial election; the Whig vote about 4,000.

DELAWARE—OFFICIAL.

Counties	*Scott.*	*Pierce.*
New Castle	2,767	4,053
Kent	1,691	1,426
Sussex	1,936	1,857
	6,394	6,819
		6 294

Pierce's maj. in the State 25

In New Castle county 63 votes were polled for the (Hale) Abolition ticket.

GEORGIA.—The aggregate official vote of ninety-seven counties of Georgia is 60,594, being 32,647 less than the vote of last year. The Southern Rights vote in these counties is nearly 6,000 behind that given to McDonald. These facts, the Milledgeville *Recorder* remarks, prove that the numerical strength of parties is not changed in the State, and that the electoral vote was cast for Pierce by the general apathy of the people.

THE CATHEDRAL.—The grand Cathedral at Cologne, Germany, the foundation stone of which was laid six centuries since, is now fast hastening to its completion. It will be one of the grandest structures in Europe. For about four hundred years prior to 1826, nothing was done with the unfinished structure. The cause of its unfinished and pitiful look; had its plans and designs had been preserved, and these are now being fulfilled by the Prussian government. The whole building is five hundred feet long by one hundred and fifty feet wide, with projecting transepts of fifty-four each. Its front two fifty towers, 500 feet high. It is expected that the building will be completed next year.

FROM EUROPE—BY THE ASIA.

Correspondence of the N. Y. Commercial Advertiser.

LONDON, Nov. 6, 1852.

The opening of Parliament took place yesterday, but the Queen's speech will not be delivered till the 11th, and the proceedings were little more than formal. The discussions connected with the funeral of the Duke of Wellington will occupy some time, and meanwhile, by common consent, all party questions will be permitted to lie dormant.

The delay thus accorded to the Government will not, however, be continued a single hour beyond the necessary period. At a great free trade meeting which has just been held at Manchester, and at which Mr. Cobden and all the other prominent members of the league attended, it was plainly intimated that with regard to the question of protection no hesitation or equivocation is to be tolerated. An avowal will be expected either in the queen's speech, or from Lord Derby direct, that it is forever abandoned, and if this should not take place, an amendment will be moved to the address in reply to the Royal speech, in which the demand for some explicit announcement on the point will be plainly set forth.

At the same time no idea is entertained that that there will be any necessity to resort to extremities. The conviction that the Ministry intend a complete recantation is so general, that the only prominent feeling on the part of the public is one of curiosity as to the mode in which the end will be accomplished.

The absence of all Cabinet announcements up to the very day of the opening of Parliament, was steadily maintained, and of late, alas, the indiscreet subordinates of the Ministry have kept silence. During the last month they have consequently neither improved nor damaged their position, and as their have been no political accidents either at home or abroad to bring them under criticism, they have had the most favorable opportunities to mature their plans. On the other hand the liberals have been rather more unhappy, though not to any great extent. The chief demonstration in their favor, in addition to the Manchester meeting, has been an assemblage at Edinburgh to hear an address from Mr. Macaulay, the member for that city. In this the course pursued by Lord Derby's Ministry in promoting protection in the agricultural districts and free trade in the towns, was described in the most cutting and irresistible manner. In consequence of Mr. Macaulay's literary reputation, the report of his speech is sure to be read by every one.

The French Senate met yesterday to prepare for the declaration of the Empire, and their sittings will, it is expected, be concluded to-morrow. It is understood that, from the period at which they make their report, to the date of the actual enthronement, the President is to operate to assume a fresh and more popular character, and have all three sessions within his power. In order that he may sweep away all the existing forms of government and confer upon France the blessing of another new constitution, according to his own fancy. Meanwhile the excitement upon the Bourse, stimulated in every possible manner by the authorities, continues to be daily increased. The rate of interest paid upon shares is still 100 per cent. and upward, and while the most cautious and respectable firms are standing altogether aloof, an unprecedented crowd of worthless speculators, both in the city and from the provinces, are making, nominally, enormous gains. Whether the inevitable crash will happen in the course of a few weeks, or be delayed several months, is the only question to be determined. As no previous instance of such a mania has ever been known, it is impossible to say that which is now paid, without an immediate catastrophe; but there are several circumstances which render it probable that the present furor will continue for a considerable time. It is very many years since Paris experienced one of these excitements, and the government have not yet nearly exhausted all the resources by which they may fan the flame. The balance of trade, moreover, is just now in favor of France, and the stock of specie in the Bank is consequently well maintained. Provided, therefore, that the untoward event arises, it is far from impossible that all may go on brilliantly until after Christmas or even until the Spring.

From Austria and Italy there is no news of importance. The Protestant deputation from London to the Grand Duke of Tuscany, which lately arrived at Florence, headed by Lord Rodea, to solicit the liberation of Madiai and his wife, condemned to the galleys for deserting the Romish Church, have not been allowed an interview. They intimate a belief, however, that their request will not be wholly refused, but that a mitigation of the sentence will shortly be announced. From Belgium it is represented that the prospects of the new liberal Ministry, who merely style themselves a Cabinet of transition, are more favorable than was originally supposed. In Sardinia the Ministerial crisis still remains unsettled. Accounts from Russia mention a report that a new loan was about to be contracted, but is believed to be wholly without foundation.

FIRES IN THE PRAIRIES in Minnesota and Wisconsin have been unusually extensive and disastrous this fall. In some quarters immense quantities of hay have been destroyed, besides barns, fences, stables and standing or gathered crops. On the Wisconsin side of the Mississippi river the conflagration has been wide-spread, and, in some instances, disparing. A correspondent of the Galena Advertiser says that the valley of Kickkisitte, with its flourishing settlement, has been totally swept by the flames. The same fate has been suffered by the settlers on the right side of the river St. Croix, including Lower Apple river.

It is thought that the next winter will, in consequence of the severe and general destruction of property and grain in the districts mentioned, be a very hard one. Supplies of food, &c., are said to be even now scarce and proportionately expensive, while, money, owing to the fact that last year's cuttings of timber have not yet been brought down to market, is not to be had. To relieve necessities so great and distressing as must follow a calamity like that described, it is to be hoped that the people of the adjoining States will make some speedy and efficient provisions.

AMERICAN CARPETINGS.—The magnificent carpet made for the Library of Congress from a pattern executed by Mr. Dodge, of the firm of Clagett & Dodson, of this city, has been received, and is in the hands of the upholsterers for the purpose of laying down. The pattern was composed with reference to the general arrangement and decoration of the room, that it may not, as is often the surface of a turbulent stream, the images of the objects above and around. This noble carpet is of American manufacture, from the carpet works of Mr. Grinwold, of Troy, New York. It has an area of 1,000 yards, and is said to be a choice and beautiful article, and superior to any foreign carpet than can be imported. It is a chef d'œuvre of carpet weaving.—*Nat. Intel.*

OFFICIAL RETURNS OF NEW YORK.—The Albany Argus furnishes the vote in each county of this State, from official returns. Pierce's majority over Scott is 27,845.—*New York Evening Post.*

Complete returns of Louisiana give Pierce 1,454 majority.

GREAT THRIFT.—Some tons of eggs were received at Sandusky, Ohio, on Thursday, from one station on the Mansfield and Newark railroad.

Robert Dale Owen is spoken of as the successor of Senator Whitcomb, in the United States Senate, from Indiana.

FLAX.—It is stated that Mr. J. Knowles, of Trenton, New Jersey, has found out a process for converting flax from its crude state into what is commonly called flax cotton, in a very few hours, and at a trifling expense.

TRADE OF CINCINNATI.—The Cincinnati Gazette states that the export trade of that city has more than doubled in five years, and that there is no commercial phenomenon presented in statistics more extraordinary than that of the increase of Cincinnati commerce in the same time.

Hon. Richard Broadhead, Senator from Pennsylvania, has arrived at Washington. It is understood that Mr. Broadhead is engaged in his duties as a member of one of the committees of investigation appointed by the Senate at its last session. Hon. Thomas G. Pratt, Senator from Maryland, and also a member of the same committee, is in Washington, and similarly engaged.

Mrs. Keenar was lately murdered by one of a party of Indians, in Minnesota, who immediately ran away. Gov. Ramsay being informed of the affair, told the Indians he should not distribute any more annuities until the murderer was given up; whereupon the Indians started in pursuit, and brought the culprit in, bound hand and foot.

Capt. Kennedy has just completed a reconnoissance of a line for extending the Railway from Marietta to Wheeling, thence to connect by the Hempfield line with Philadelphia. He pronounces the route good, with easy grades, and no curves. It is expected the road will be run from Marietta to Wheeling in ninety minutes!

The "swell mob" of London perpetrate robberies with the most singular ingenuity and address, and appear never to be at fault. A lady alighted at the bank, ascended the steps and entered the vestibule, and presenting a check to the paying teller, received a very large amount of bank notes, which she deposited in her purse, and returned to the carriage. Just as she had taken her seat, a gentleman came down the steps of the bank without his hat, wearing spectacles, and having a pen behind his ear, said:—"Madam, you have forgotten to take the number of those notes: will you allow me to take them off?" She handed him the notes, and he ascended the steps of the bank and entered the building. The lady having waited some time, finally returned to the bank, and soon ascertained that no person had been authorized to ask for the notes.

Mr. Marston has produced a new and successful play in five acts, at the Princess's Theatre, London. It is called "Anne Blake," Mrs. Kean sustaining the part of the heroine.

Hon. Garret Davis, formerly Member of Congress from the Lexington District, Ky., was, at the last accounts, lying dangerously ill of typhoid fever.

LARD.

☞R. WATSON is now engaged in slaughtering 4,000 Hogs, and will have constantly on hand a large stock of Bulk Pork of his own curing; also, a No. 1 article of Lard, in bbls and kegs, for sale at his Ware House, corner of Liberty and Wayne Streets.

HANOVER STREET, BOSTON,

BY LEWIS RICE.

REBUILT, Enlarged, and Elegantly Furnished, possessing all the modern improvements and conveniences, for the accommodation of the travelling public.

Dancing School.

Dancing in the gates of Hell,
Without it—without health;
Without wealth, without grace,
Without grace, without charity.

A. BONNAFON respectfully informs his friends and patrons in Pittsburgh and Allegheny that his School will open on Wednesday and Saturday next, and in future on Monday and Thursday at 6 p. m., Grand Assembly Ball every Saturday evening at 8 o'clock. Private lessons given at private residences on Fourth and Wood sts. The Quadrille Band will be in attendance. Terms, &c., can be had at the Academy, Fourth street, between Wood and Market. Circulars can be had at the Bookstores, and at the residence of A. B., No. 72, Market street. nov15-tf
