PITTSBURGH GAZETTE.

FRIDAY MORNING, DEC. 10, 1852.

THE DUTCH JUDGE.—A friend gives us an idea of a 'Dutch Judge' in the following sketch:

He was about to pass sentence on a prisoner and on looking around for him, found him playing checkers with his constable, while the foreman of the jury was fast asleep. Replenishing the ample judicial chair with his broadcast person, he thus addresses the jury: Mineby vorthman and de odder juryman, prisoner, Hans Vicker, is vinished de game mit de Sheriff, and has peat him, but I shall dake care that he don't peat me." Hans hath peen dried for murder pefore you, and you must pring in the verdict, but it must pe according to de law. De man he kills was'nt kill at all, as it was proven he is in der jail at Morristown for hogstealing. But dat ish no madder. Der law ses ven dere ish a tout you gits him to de prisoner; put here dere ish no tout so you see der prisoner is guilty. Besides he ish one pig-loafer; I is knowed him dirty-tree or four years, and he hasn't done a schtich of work in all dot time, and dere ish no one depending on him for der livin, and he ish no use to no body. I dink it would be goot policy to hang him for de example. I dink Mr. Vormant of de jury, dat he peeder pe hanged next Fourt of July, as de military is going do drain in anudder country on dat day, and dere would pe no one going on here! It should be added to the verdict of the jury, that in spite of this learned and impartial charge, they acquitted the prisoner, finding him not guilty, if he would leave the State.

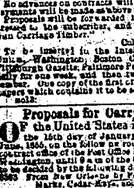
Powerful Patent Iron Capstans,

MANUFACTURED BY
TALCOTT & CANFIELD,



PROPRIETORS of the Sake Iron Foundry, Steam Engine and Machine Works, Oswego, N. Y.

These Capstans are superior to any thing of the kind now in use, on account of the facility with which the power may be applied, their simplicity of construction, their surprising strength and durability, and the great power they are capable of exerting. They are now in operation on the Lakes, and on the Erie Canal, with entire satisfaction to every one using them. Their simple principle is, that with either single or double purchase, are readily planted upon deck, take up but little room, and require but few hands to work them. They may be procured of their utility and popularity, from the following gentlemen, as well as many others of the principal steamers on the Ohio and Mississippi rivers, having them in use: Capt. Wm. Daniels, Pittsburgh; Capt. Wm. Collins, Maria, Lexington, Cadiz; Capt. Samuel Hanselton, Hundred or more of them are now in use on the Lakes and Erie Canal and Vessels on the North River, and a great many manufacturers them monthly with pleasure, in an elegant manner.
