Portable Thrashing Machines and Separators.

WARRANTED to be thoroughly built, and to work well; made and sold by C. W. CARROLL, opposite Rhey, Matthews & Co.'s Rolling Mill, Penn street, Pittsburgh. The Thrashing Machines are best adapted to Farmers and Threshers, combining more of these, and may be used with equal convenience in barn or field. Its cylinder runs lighter, thrashes faster, or makes better work. More than 2,000 of them are now in use in the Western States, and as many East of the Mountains. Many of them have thrashed from 80 to 100,000 bushels each, and, on thorough trial, they have been recommended by those who use them, to be as complete, and to work as well as any in the world.

The Separator is Horn's Patent, and is attached to the Thrasher, and completely separates the straw and chaff from the grain, and has given entire satisfaction wherever tried.
