HOME MATTERS.

True Bill.—A true bill against Samual Lewis, for the murder of Washington Marlatt, was found by the Grand Jury, yesterday. He has not been arrested yet.

The Grand Jury will probably adjourn on Saturday. There has been very little business for them this term, compared to the amount transacted by the Grand Jury of the last term. A great number of cases will be tried this term that were crowded in from the last term.

Gas in Allegheny.—We understand that the gas will be let into the gas pipes on Federal street, Allegheny city, in a short time. The cause of the delay has been the difficulty of obtaining suitable burners.

In police news there has been nothing doing for a week past. The same can be said of local items.

Reform.—Another of the ever revolving years of time has brought us together to celebrate the 30th anniversary of the Female Bible Society of Pittsburgh. The Society remains, though most of the individuals composing it are different.—Many of its founders and early friends have rested from their labors. But others have arisen to sustain the noble enterprise of disseminating the word of God. "The entrance of his word giveth light," and a work of noble beneficence it is to send its illuminations through our darkened world.

We are not of the number of those who would have the direction of our race beyond those paths of usefulness in which holy ones of old have walked. Here there is ample scope for efforts in well doing, and abundant need for those efforts. The Bible cause lies fairly within the sphere of our co-operation. There is a beautiful appropriateness in the efforts of our sex to spread abroad the sacred Scriptures, whose influence has been everywhere so auspicious to us. Gratitude, as well as benevolence, should prompt us to liberality and exertion in this enterprise. And though the financial result of our labors may not be great, yet we trust it will appear in the day when the mysterious story of human life is read before an assembled universe, that even such a feeble instrumentality, has not been employed in vain.

By the Union of the Young Ladies' Bible Society with the original one, which occurred within the past year, our monthly meetings have been increased, and the objects of the Society have been prosecuted with mutual satisfaction, and we trust with increased benefit. Though in age, denomination, and in other respects different, we have been one in action, and one in supplication at the throne, for a blessing upon every one who gives or receives, through this channel of beneficence.

The principal part of the funds raised by us have been paid to the Pennsylvania Bible Society, as the report of the Treasurer will show. There has been a number of Bibles and Testaments given to destitute S. Schools and individuals, and the Librarian, Mrs. Young, has on hand 56 Testamends and 13 Bibles. Though a vast number of the lost and ruined of our race, have been supplied with this lamp to light them through the wilderness; by the efforts of this, and kindred societies, yet the work is only commenced. Many a spot of earth, that is desert now, must be made to blossom as the rose, under the showers of the Spirit, and the shining of the Sun of Righteousness. And every sincere christian who clasps his Bible to his heart and drinks in of its spirit," will do all in his power to place this precious boon in the hands of his fellow travellers to eternity.

MRS. B. M. McCLARRS, Sec.

Admitted.—On motion of Hon. Chas. Shaler, William Bowman, Esq., after taking the usual oath, was admitted yesterday to practice law at the bar, of the District Court.

Admitted.—Wm. D. Ewing, Esq., was yesterday admitted to practice law at the bar of the District Court, on motion of Hon. A. W. Loomis.

The Last Night of Mr. Brooke.—This extraordinary artiste leaves to-morrow for Cincinnati. But we are to have him in his great character of Sir Giles Overreach, to-night. This announcement, is we feel sure, sufficient, the very great reputation Mr. Brooke has, and which he so justly merits, especially in this part—will be sure to warrant him a bumper. We have long desired to see Mr. Brooke in this character—which from all circles is acknowledged to be an extraordinary performance. We repeat, that this is the last opportunity of seeing Mr. G. V. Brooke and earnestly recommend all who can to go to-night.

Court of Quarter Sessions.—The jury in the case of Antonio Cella, indicted for burglary, being unable to agree, were discharged, and the prisoner remanded.

Commonwealth vs. Charles Ramuelsberg, indictment, keeping a tippling house. The prosecutor mistook defendant, the bar keeper of the house, for the proprietor, and so brought suit against him. The jury found the defendant not guilty, but sentenced him to pay the costs.

Commonwealth vs. Jonas Cornelius and Thos. Ellis, indictment, burglary. The prisoners were charged with burglariously entering the residence of a Mrs. Moore. The evidence being totally insufficient to connect the prisoners with the burglary, the jury returned a verdict of not guilty, without leaving the box.

Commonwealth vs. Nathaniel Reed, indictment assault and battery with intent to kill, on oath of George Smith. The prisoner, it is alleged, assaulted the prosecutor with a poker, with which he beat him severely, on the 30th of November, in the shop of the prisoner, on Chestnut street, Allegheny City. The prosecutor had gone there for the purpose of collecting some money. The prisoner told him that he was not prepared to settle, then, and that he had better go. As the prosecutor was going out, the prisoner struck him with an iron poker, on the head, knocking him down, and injuring him severely. The jury returned a verdict of guilty of assault and battery. The Court sentenced the prisoner to pay a fine of $5, the costs of the prosecution, and to undergo an imprisonment of two months in the County Jail.

Commonwealth vs. Thomas Smith, indictment larceny, on oath of Orlando Loomis. On the 10th of November, the dwelling house of A. W. Loomis caught fire, and the furniture and other articles were carried into the yard, and among them a gun. The prisoner was seen picking up the gun, and walking off with it. Chase was given, and he was arrested. The case was continued until to-day.

District Court.—In the case of the Brighams vs. John Lindsay, the jury found for plaintiff $100.

In the case of W. & M. Faber vs. King, et al, the jury found a verdict of $601 68 for plaintiff.

The defendants' counsel filed a motion for a new trial.

In the two causes of Schneider vs. Ebbert, defendants moved for a new trial. Reasons filed.

The case of the McFarlands vs. Wm. F. Smiley, et al, was still being argued before Judge Williams, when the Court adjourned.

A true bill has been found against Caspar Walhour, for the murder of Kitchen, in M'Keesport. His trial will be the order of the day for next Wednesday.

Mayor Fleming, of Allegheny city, committed two persons, yesterday, for drunkenness and disorderly conduct.

At the ticket station in East Liberty, three hundred and forty excursion tickets were sold during the week ending January 1st. This was owing to the reduction of the fare during the holidays.

Found.—The pocket book lost by Alderman McCune, of the Ninth Ward, on Monday, was restored to him by a lad, who found it on the railroad track on Liberty street. The contents of the pocket book were quite valuable, there being over one hundred dollars and a number of due bills in it.

Prisoners in Jail.—Jailor Fagaines informs us that there are now the unusually small number of ninety-seven prisoners in the county jail. They are all in good health.

Vagrancy.—There were only three commitments to the county jail on yesterday, and they were for vagrancy.

A train of freight cars crossed the Canal bridge on Liberty street, yesterday, for the first time. The work on the depot on Eighth street, is progressing rapidly.

Duff's Mercantile College.—The proprietor of this institution is known among our business men as one of the most experienced and accomplished practical accountants in the country; having been so frequently employed by them in the settlement of some of the most intricate and complicated business transactions that have ever occurred in this city, and it is now found that but few teachers have been so successful in imparting their own skill and experience to others,—many of his students being known among our business men, as "model book-keepers." By his last circular we perceive that in New York, Philadelphia, New Orleans, and indeed almost every State and city in the Union, not even excepting Cincinnati, numbers of them are successfully and profitably employed. In a word, the almost universal success of the numerous students of this institution, their willing testimony in its favor, the recent rapid increase of its classes, mark it out as the first institution of the kind in the country. Upwards of thirty ladies assemble daily, in a spacious and elegantly furnished private parlor, for the study of book-keeping and penmanship. If young ladies make good teachers, salesmen, &c., why not equally good book-keepers? We have only to add that our young and talented friend Williams is at the head of the writing classes, and we may add, at the head of his profession, as a performer and as a successful teacher. Mr. Hayden is equally so in the mathematical and classical department. We advise our friends and readers to call at the institution, or send for its circular and examine for themselves. dli&wl8*

Scrofula.

☞IT is due to Kier's Petroleum to say that it has been known to completely eradicate every word a of this dreadful disease in less time than any othe remedy, and at less cost or inconvenience to the pati

☞Thousands of certificates in the hands of the proprietor, many of which are from well known citizens of the city of Pittsburgh and its immediate vicinity, are to show clearly and beyond all doubt, that KIER'S PETROLEUM is a medicine of no common value, not only as a local remedy in Paralysis, Rheumatism, Deafness, loss of Sight, but as a valuable internal remedy, inviting the investigating physician, as well as the suffering patient, to become acquainted with its merits.

☞Be having a dread of mixtures we assured that this medicine is purely natural, and is bottled as it flows from the bosom of the earth.

The following certificate is copied from a paper published at Syracuse, New York, and bears date August 2, 1852, to which is also appended the certificate of the celebrated D. D. T. Foot, M. D., of Syracuse:

This may in truth certify, that I have been so badly afflicted with Scrofula for the last seven years, that most of the time I have been unable to attend to any kind of business, and much of the time unable to walk, and confined to my bed, and have been treated nearly all the time by the best physicians our country affords; I occasionally got some relief, but no cure, and continued to grow worse, until Dr. Foot recommended me to try the Petroleum, or Rock Oil, as every thing else had failed. I did so with little faith at first, but the effect was astonishing; it threw the poison to the surface at once, and I at once began to grow better, and by using seven bottles, I have got a cure worth thousands of dollars.

MRS. NANCY M. BARKER.

This may certify that I have been acquainted with Kier's Petroleum, or Rock Oil, for more than a year, and have repeatedly witnessed its beneficial effects in the cure of indolent ulcers, and other diseases for which it is recommended, and can with confidence recommend it to be a medicine worthy of attention, and can safely say that success has attended its use, where other medicine had failed.

BY TELEGRAPH.

CONGRESSIONAL.

WASHINGTON, Jan. 6.

House.—Mr. King from the Committee reported a bill to prevent frauds on the Treasury which was debated and laid over.

The House went into Committee nominally on the Deficiency Bill. Mr. Marshall, of California, made a speech. He said he had intended to offer a resolution that the Committee of Ways and Means report a bill for settling apart, and putting at the disposal of the President elect, $5,000,000 or $10,000,000, to be used at his discretion to meet any emergencies in foreign affairs, particularly, and in the general condition of the country, which, it is admitted on all hands, are likely to arise. He said he wanted to introduce such a proposition because it would elicit an expression from the democratic members of the House, which the times called for. He said as matters now stood, America was degraded in the eyes of its own citizens and of the world, and avowed his intention to introduce such a resolution, and he called upon his friends of the House to announce to the incoming administration their conditions, such as that given by the people at the ballot-box. He spoke of the conduct of this administration in relation to Hayti and Nicaragua and censured the government strongly. He spoke of the acquisition of Cuba as a question of time, and said that the opposition of Mr. Venable to the measure, in his speech the other day, was because that gentleman feared it would not be slave territory. He said the matter was settled that there never could be any more slave territory annexed to the Union.

Senate.—Yesterday the President transmitted the correspondence touching the tripartite treaty, proposed to the United States by France and England in regard to Cuba, embracing the letters of Mr Crampton and Lord Malmesbury, Mr Webster's letter to Count de Sartiges, the draft of the convention, and Mr. Everett's reply, declining, on behalf of the President.

The report makes three columns of fine type in the Philadelphia Ledger. It was ordered to be printed.

The debate on the question of referring the matter to the Committee on Foreign Relation, is yet to take place.

After some unimportant business the Senate adjourned.

In the Senate to-day, Wednesday next was fixed upon as the day for debating Mr. Case's resolution affirming the Monroe doctrine.

Mr. Mason also gave notice, that on Wednesday next he would move to refer the President's message touching the tri-partite treaty, and the proposition of England and France.

The bill to increase the efficiency of the Army by a retired list, was taken up and all of it relative to the Navy and Marine corps was stricken out.

The bill for the payment of the Texas debt was postponed until Monday.

Mr. Cass and other Senators explained that they would not have voted for the Clayton and Bulwer treaty, touching Central America, if it had been understood at the time that the construction placed upon the provisions by the parties drawing it, did not exclude England from any part of Central America. Mr. Clayton was denounced in severe terms.

The Senate adjourned until Monday.

PENNSYLVANIA LEGISLATURE.

THE ROD TRADE.

OFFICE OF CINCINNATI PRICE CURRENT, January, 4th, 1853.

Received during the week:—

By river	628
By Canals and Railways	1,420
Through Toll Gates	8,500
From Kentucky	.....
Shipped at Covington	.....
Total for the week	11,548
Previously reported	332,340
Grand total	344,188
To same date last year	311,592
To same date in 1850	258,261

The above trade has been killed at Plainville and Madisonville during the week, but did not amount to anything extra.

In Providence, the transactions of the week have been on an extremely limited scale. There is generally a disposition on the part of both buyers and sellers, to hold off, but still there are some few offering, which, if taken at full rates, show a decline has to be committed to. There is evidently great uneasiness in the market on the part of the hog crop in the West, and until something definite can be ascertained on that point, they may not expect much activity. In all the Eastern markets it is the same, as has been so for some time past.

The reports by Telegraph to the latest hour, indicate no material change, but if anything, a heavier feeling is shown to exist. The Cincinnati market is now drawing to a close in Ohio, Indiana and Kentucky, and we expect in a few days to be able to state to the public the result of the season's operations. In this market there are only four, or five thousand hogs coming in, but will continue to arrive in small numbers, however, for two or three weeks to come; prices have ranged from $4,25 to $4,50 per 100 lbs. The highest point of the season was $4,75 per 100 lbs. Sales yesterday at $4,50 to $4,60 per 100 lbs net.

The Louisville Courier, of Monday says: The hog killing season "around the Falls" is about over and the total number killed at the several points will be about as follows:

Messrs. Jackson, Cowley & Co. may possibly kill 2,000 more hogs, and Messrs. Bacon & Co. of Jeffersonville, expect some 5,000 that were contracted for, but are delayed on account of roads. Clifton, Atkins & Co. have yet to receive from the country about 1,000 hogs, and Hook & Co. 500 from Gosport. If these contracting lots come in, the season's killing will amount to 234,317 hogs, which is an increase of upwards of 100 000 over last year's estimate.

The Terre Haute Express of the 29th ult. says that nearly 100,000 hogs will be packed in Vigo county as far as the slaughtering has progressed, and in this county, Cheney Cox & Co. have packed 30,000 hogs, and Messrs. Hulman & Co. 20,000. Prices continued at $2,75@$3,00. In Saint Louis the packing is over. The Chicago Democrat of Wednesday, quotes it at $3,62 @$3,75, and in Baltimore it is quoted at $4,00 to $4,25.—The N. Y. Tribune notes two large shipments of this article to Europe.

LOUISVILLE PACKET LINE.

BROWNSVILLE, 8 A. M. and 5 P. M.
WEST NEWTON, 8 A. M., and 4 P. M.

THE "JULIA DEAN"—arrived from Zanesville on Wednesday night, being the first boat through for 24 hours since the high water. The "Helen Mar" which we reported on Tuesday last as through from that place, was not able to get to Zanesville on her upward trip, on account of the high water, which overflowed the locks and dam so as to back. The "Dan Convers," which left a few days since, went through, and all the boats in that trade will now make regular trips. The "Julia Dean" will lie over till Tuesday next.

Capt. McVay is to be transferred from the Julia Dean to the "Dan Convers," and Capt. Banning will take his place on the Julia.
