PITTSBURGH GAZETTE.

WEDNESDAY MORNING, FEB. 16, 1853.

EDITORIAL LIFE AND PHILOSOPHY.—J. L. Locke Esq., one of the ablest and most accomplished editors of the South, in taking leave of the Savannah Republican, which he has edited for the last thirteen years, thus speaks of editorial life: "The incessant mental and physical labor demanded to reproduce every morning a sheet that pleases the light, can never be appreciated by those who view the circle of varied topics from without. It is symbolized in classic story by the stone of Sysiphus, and the wheel of Ixion, while I fear the fable of Tantalus might be superadded, to illustrate the fortunes of many of my brethren of the quill in the United States, for too often the promised cup of enjoyment never comes near enough to be tasted. This picture has its reverse, however. With all its drawbacks, there is much that is cheering in an editor's life, and he is a poor philosopher, as well as editor, who cannot return every morning to his labors, with renewed energy and determination."

A physician of Washington City is recommending, in one of the medical journals, a resort to a freezing mixture, as a preliminary to the removal of the nails of the toes and fingers, when such operations are necessary. The process is this: Envelope the part in cloths, and keep them wet in a mixture of salt and ice, for five or six minutes, at which time, it is said, they will be found entirely insensible to the cutting through the nail with bistoury, and the sensibility of the nail with the forceps. We do not doubt it at all. We have always supposed that the human flesh thrust into a freezing mixture for five or six minutes, would be quite insensible to pain, for a considerable season thereafter. The operation, in itself, is a barbarous one, which ought to be restrained by bonal sentiments. Snatching out a man's toe nail with a pair of forceps, for the cure of an inconvenience, never has struck us as particularly agreeable. But freezing the toe beforehand, to prevent the appreciation of the pain is the height of philosophy. Operative surgery ought to afford to repose on its laurels for a little while and take breath.

MEDICAL.

A PHENOMENON IN MEDICINE.

PROFESSOR MORSE'S INVIGORATING ELIXIR, OR CORDIAL.
THE EIGHTH WONDER OF THE BOTANIC WORLD.

The Invigorating Elixir and Cordial introduced into medical practice by the great chemist, physician and traveller, Dr. M. Morse, has for its basis an Oriental Herb, first brought from the stony deserts of Arabia Petrea, by that eminent philosopher. The natives of that region are remarkable for their longevity, exemption from sickness, and power of sustaining fatigue, all of which they attribute in a great degree to the use of the herb or plant referred to, which they universally chew, and sometimes smoke. On his return to Europe, after a long residence in the East, Professor Morse commenced experimenting with this wonderful natural production, and the result of his labors is the Invigorating Elixir, which has been endorsed by the medical colleges of all the great cities of Europe, as the best preparation extant for the

CURE OF NERVOUS DISEASES.

No language can convey an adequate idea of the immediate and almost miraculous changes which it occasions in the diseased, debilitated and shattered nervous system:—Whether broken down by excess, wear, by nature, or impaired by sickness, or any other cause, the Elixir will in a few days restore it once to sound, re-vivified, and built up. The mental and physical symptoms of nervous disease vanish together under its influence. The stooping, trembling gait, the look of depression and debility, become a firm and manly bearing. He stands erect, he moves with a firm step his mind, which was previously sunk in gloom, or an almost idiotic torpor, becomes bright, buoyant, active, and he soars forth refreshed, regenerated, and conscious of new vigor, to his accustomed occupations. Nor is the effect temporary. On the contrary, the relief is permanent, for the cordial properties of the medicine remain in the system itself, and restore it to its normal condition. Well may the preparation be called the

MEDICINAL WONDER

of the nineteenth century, when the first scientific men of the old world have admitted, that miracle of medicine heretofore supposed to have no existence.

A HINT TO INVALIDS AND CONSUMPTIVES.

Its force is never expended, as is the case with opium, alcoholic preparations, and all other stimulants. The effect of these is brief, and it may well be said of him who takes them, that he sleeps on a volcano, and will awake in the midst of its flames. But the Elixir is an exhilarant without a single drawback. Cause to its operation, perpetual in its happy influence upon the nerves, the liver, the blood, and the entire organization in cases of, neuralgia, headache, loss of memory, hypochondriasis, dyspepsia, general debility, nervous debility, nervousness, inability to sleep, liver complaint, jaundice, fits, nervous chills, and all diseases of the nerves, of the propagating functions, hysteria, monomania, vapors, tremors, and all affections of the kidneys and urinary organs, female obstructions, &c., from whatever cause arising (it is, if there is any relation to be placed on human testimony, a never failing remedy.

It is the only infallible remedy yet discovered for nervous head and stomach complaints, and the only safe preventive of health and vitality in the form of wine or liquor sought for, and never before found, the only natural restorative that can be relied on in all cases of nervous neuralgia, headache, vertigo, pain in the nerves of the face, and the various train of nervous affections. It will produce a cure in an astonishing short time by its magical power, and restore confidence, excitement, a tendency to health, restlessness, sleeplessness, &c., to the most complete purity for study or business, loss of memory, confusion, dizziness, loss of to the head, melancholy, and all hysteria, indecision, wretchedness, thoughts of self-destruction, fear of evil, dread of society, bashfulness, and restore the appetite, strengthen. After emaciation, renew health of those who have destroyed it, induce continual sleep, and restore the sexual system to its original vigor.

Persons of pale complexion, or consumptive habits, are rendered by its use healthy and robust. It will in a few days change the skin from a pale yellow sickly color, to a beautiful clear complexion.

Many the misery that never fails to punish the violation of nature's laws—unchain what function gives way under the dreadful influence of self-pollution—the cold sweat, cold and shivery state of the frame, frequent fits of nervousness, loss of muscular power, pains in the head, monomania, fears and flushes of the face on the slightest occasion, a desire to shun society, wakefulness, dull eyes, stomach is put out of order, the appetite becomes capricious, a train of youthful dyspepsia set in, such as flatulency, constipation, wind in the stomach, nausea, and torpor after eating, acid breath, furred tongue, &c.

THE COMMON EXPRESSION

Of those who have used this Extract is: "I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits—having tried various medicines sold for the same purpose, (different therapeutical) without deriving any benefit, I was led to believe that your Cordial, I had no faith in it, but was induced to purchase, and forpor after eating, acid breath, furred tongue, &c.

THE COMMON EXPRESSION

Of those who have used this Extract is: "I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits—having tried various medicines sold for the same purpose, (different therapeutical) without deriving any benefit, I was led to believe that your Cordial, I had no faith in it, but was induced to purchase, and forcertain of its virtues, and I am satisfied it is the best Cordial ever offered to the public."

Another says: "I had consulted several distinguished physicians, some said I could not be cured—others prescribed this thing and that, but I found no relief until I used your Cordial, which I must say, I found it very soon cured me."

Another says: "I was surprised at the effect your Cordial had. Why did I not hear of it before? It would have saved me many a sixpence, besides years of mental and bodily suffering."

MARRIED PERSONS,

or others, conscious of inability from whatever cause, will find this Cordial, after the use a bottle or two, to restore them to perfect health, and the only safe and certain means of effecting it a cause of regret, it is of inestimable value.

The fame of the medicine is not confined to this or any municity such as to leave the publication of certificates of the cures of the grateful, or persons interested, as proof, but a host of the most conclusive testimony, to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon the positive and apparently immediate relief it affords in all diseases for which it is recommended. Therefore it is unnecessary to publish what has been said, in the minds of the most skeptical.

The afflicted are invited to call upon the agent, and procure (gratis) one of the Pamphlets containing certificates, and extracts of reports from every part of the country.

A Conceded Point.

THE following testimony of the efficacy of DR. M'LANE'S Celebrated Vermifuge, from a regular practitioner, cannot fail to convince.

Mrs. Betts' Supporters.

WE have recently accepted the Agency for Mrs. Betts' Abdominal Supporters, the best now in use, for the Eastern States, and have on hand a large assortment on hand, and are prepared to supply all who wish to handle them, at the Eastern prices.
L. WILCOX & CO., No. 64 Market st.
ja14 and 65 Second street.

We publish a certificate from a celebrated physician of Philadelphia.

PHILADELPHIA, Feb. 28, 1852.

Messrs. Abdominal and Pirnial Supporters—Gentlemen: Betts, of this city, I can recommend to the medical profession, and to the public, your Abdominal and Pirnial Supporters. These instruments are adapted to remedy the inconvenience depending on and dragging down of the uterus in the female, and the scrotum in the male, and to relieve many cases of hernia, attended as it is with much pain and other suffering, as to be difficult or impossible.

Mrs. Betts is a lady of intelligence, education, probity and manner—the gentlemen's instrument is under the charge of
SAMUEL JACKSON, M. D.,
Professor of Midwifery and Diseases of Women in the University of Pennsylvania.

IMPORTANT TO THE AFFLICTED.

DR. ROSE'S CELEBRATED REMEDIES

—Dr. Jacob Rose, the discoverer and sole proprietor of these most popular and beneficial medicines, and also the inventor of the celebrated instrument for inhaling the fumes, in effecting a cure of Chronic diseases, was a student of the eminent physician, Doctor Physic, and is a graduate of the University of Pennsylvania, and for thirty years since has been engaged in the investigation of disease, and the application of remedies thereto.

Through the use of his inhaling tube, in connection with his Prophylactic Syrup, and other of his remedies, he has gained unparalled eminence in curing those dreadful and fatal maladies, Consumption, Catarrh, Bronchitis, Rheumatism, Asthma, Fever and Ague, Fevers all kinds, Chronic Erysipelas, and all those obstinate diseases peculiar to females. Indeed, every form of disease is within the range of his remedies, to which human nature is heir—and by the use of one compound only, for that is incompatible with Physiological Law, but by the use of his remedies, adapted to, and prescribed for, each peculiar form of disease.

Dr. Rose's Vegetable Alterative Pills, when used, are invariably acknowledged to be superior to all others, as a purgative or liver pill. Inasmuch as they leave the bowels perfectly free from costiveness, as also the Golden Pills are calculated by the faculty, to possess peculiarities, which adapt and to detain digestion, but being satisfied that a new trial of merits is to establish, what has been said, in the minds of the most skeptical.

The afflicted are invited to call upon the agent, and procure (gratis) one of the Pamphlets containing certificates, and extracts of reports from every part of the country.
