SALARIES OF JUDGES -- A bill is gending in the | immense numbers of his two annual reports Senate of this state, to raise the salaries of law which they have repeatedly ordered to be print-places. On the 14th inst. the following pro-ceedings were had: Mr. Buckslew called up Senate bill No. 282,

Mr. Buckalew called up Senats bill No. 282, to increase the salaries of the Judges of the Saperson Court. [Mr. Ribere in the chair]
Mr. Buckalew moved an amendment, making the increase of salaries to commence on the 1st of March, 1853; which was adopted.
Mr. Buckalew briefly explained the reasons which induced the Committee on Finance to report the bill. The reasons were the great increase of the business of the courts, the inconveniences the judges are subjected to in travelling from point to point, and the onerous duties to which they are subjected. The committee thought their present pay was inade-

Some say he has come; that he is even now lying fredu at his quarters near; the court end. This I discredit; but I feel bound to give you the intest, whether the truest or not, the rumors respecting the Cabinet have undergone another modification. In reference to the charges so freely made against him Mr. Kennedy has asked for a committee of investigation.

The House having listened to several pretty lectures from its own members on its manifest markets. authorising the Coupells of Philadelphia to sub-scribo to the Hempfield Road. Surely Pitts-hurgh is in Pennsylvania as much as is Phila-delphis, and Holidaya's Core is as much in Virginia as is Wheeling. Why then should the Virginia Legislature persist in denying to the Cove the same privilege she has heaped in superabondant measure upon Wheeling? Does the Old Domnion repulsate the noble dectrine of equal rights and exact justice to all her citi-zens? Does she mean to foster and pamper one portion of her tax payers, and at the same time to act the part of a harrhs step parent to another-pertion, who are equally deserving, but not quite so pertinacious and importunts in their appli-cations for legislation. I cannot for a moment

But that legislature will not refuse, except under the continued indicator of Wheeling, and Wheeling opposition will cease the moment the provise is adopted.
