the cities pay one half, or more, of the county cases, while money for opening roads and boilding tridges is only expended in the townships. There is some force in this ergument, if the law speak upon the Tehnanappe affair. To resole made to apply generally to all incorporated districts in the county; but we cannot see
its application to particular districts. It is certainly not just to make Allegheny and Birmingaccept there, as well as out of it. It will be easy, hampay the dimagne assessed for opening streets then, to revive the discussion, but not so easy to the particular them are the discussion, but not so easy to the particular through th similar privilege. THE COMMELLSVILLE BAILBOAD .- A Telegraphic despatch informs us that the bill pand-concern he cannot be a proper advocate of its leg in the House, at Harrisburgh, authorising claims in the Senate. But the whole thing is the cities of Pittsburgh and Allegheny to sub-little better than a speculator's humburg. the path will then be clear for a speedy progress
in this great and important work. We hear

The Senate will perhaps enter into an elaborate investigation of the treaties with England upon the copy-right question, and the plan for the establishment of a joint commission for the settlement of claims; but it is more probable that they will adjourn without touching those subjects. I do not believe either treaty will be confirmed.

Gardiner's trial commenced in the Criminal Court on Friday last. There is still but a faint prospect of getting at the facts in that great winds. That Gardiner was guilty of all alleged in Europe.
