HOME MATTERS.

RIVER NEWS.—The river was slightly on the rise, yesterday, and had attained the height of eight feet. The weather in the morning was cold and wintry, but moderated during the day.

The upper part of the wharf was thronged with business, but there have been more departures, within a few days past, than arrivals, which has thinned out the crowd of boats, and the number left is small. Freight for below is only tolerably plenty.

The *Exchange* was discharging a load of flour and grain. She has withdrawn, for the present, from the Bridgeport trade, and has her sign out to leave for Louisville this evening. The officers of the Exchange are very kind and accommodating, and we hope they may find the change a profitable one.

The *Norma*, from New Orleans, was delivering a heavy cargo of Sugar, Molasses and Bacon. She towed two barges from New Orleans to Louisville, with 900 tons of Railroad Iron. This accounts satisfactorily for the length of her passage up. She is a large, new and excellent boat, and well officered, and is advertised to leave for St. Louis this evening.

The *York State*, from St. Louis, had a large quantity of hides, bacon, molasses, corn, &c. She discharged about 100 tons at Wheeling and other points below, including three tons of iron ore from the Iron Mountain of Missouri, for a specimen of which we are indebted to the Captain. The York State will reload for St. Louis, and expects to leave on Monday next.

The *Orion*, from Hockingport, was well supplied with hoop-poles, and a variety of country produce.

The *Winchester*, from Wheeling, and the *Pittsburgh*, from Cincinnati, had both large cargoes of for which see our list of imports.

The *Diurnal* is the regular morning packet for Wheeling.

The *Persia*, for New Orleans, has been loading for several days, and will leave to-day.

The *Huron*, Capt. McMillan, expects to get off this morning, for Nashville. She has a large cargo. Those going that way will find Capt. Mc. one of the best of commanders.

The *Washington City* and the *Herald* left for St. Louis, in the evening, well loaded, and with no scarcity of passengers.

The *St. Clair*, which leaves for St. Louis today, takes out with her the late foreman of this office, Mr. JAMES E. SHERIDAN, and family, who goes to settle in the new territory of Nebraska. He takes his "shooting-stick" along,—wherefore we advise the Indians of that wild country to let him alone. We trust his adventure thither may result in thoroughly filling his "quoin-box." We part with him regretfully.

The following paragraphs from the Cincinnati Gazette are worth reading. The closing paragraphs in reference to the Buckeye State will afford general satisfaction:

"The local board of Steamboat Inspectors have, in the discharge of their duty, met with unreasonable opposition to the law under which they act, but the public will sustain them in the fearless discharge of their trust.

"Some licenses have been revoked for improper conduct, and if persons who have been licensed as pilots have become unfit for their station by intemperate habits, the Inspectors have done well to displace them. We have the same action taken at other ports as at this.

"The Board of Steamboat Inspectors at St. Louis have suspended the license of Wm. Mines, pilot of the steamboat R. H. Lee, for sixty days, on the charge that he "did not observe and practice the regulations" established on the western waters.—The Lee and Wheeling steamers collision some weeks ago. Mines is about to bring suit on the ground that his suspension is unjustifiable.

"The board has also suspended Wm. T. Ivester for three months, on the charge of drunkenness. Ivester not confessed.

"We learn from the officers of the boat, that the business and traveling public may depend upon the Buckeye State hereafter taking all freights, and making all landings for freight and passengers that may offer between Cincinnati and Pittsburgh, that can be made with safety, regardless of any opposition boat that may be placed upon her day.

"The Buckeye State has established her reputation for speed, by placing memorials along the river between Cincinnati, Wheeling and Pittsburgh, to which she refers all competitors.

"No foolish fondness of the friends of the boat should cause them to bet upon her making extra time, as she will attempt none further, until her quick trip has been beaten."

DROWNED.—Last Saturday evening a hand on the steamer *Jno. McFeden* fell over board in the Ohio river near Hughes' Landing, and was drowned. We did not learn his name, but it is thought he had lived in Cleveland, Ohio.—*Louisville Courier.*

NEW TRIAL.—A new trial was yesterday granted in the case of H. J. Moore vs. Tallis & Co., which was decided for plaintiff in $200, by Judge Shannon, on the plea that improper evidence had been admitted. The facts of the case are about these:—J. Tallis & Co., a London publishing House, appointed a man named J. B. Ford general agent of the firm in the United States, and Ford appointed H. W. Robinson agent for Western Pennsylvania. Robinson entered into an arrangement with the plaintiff in this case, and others, to canvass this city and county, for a stated salary. The action was to recover the salary.

In several of yesterday's morning papers, it was stated that a car had been burned up at the passenger depot on Federal street. Some matting in the car caught fire from the stove, but the flames were immediately extinguished, without injury to the car.

FELL DEAD.—A man, whose name did not reach us, fell dead yesterday at his residence on High street. His death was caused by hemorrhage of the lungs. No inquest was held.

THE YOUNG LADIES' ASSOCIATION for the relief of the Poor, at their meeting on Friday last, prior to adjournment for the season, unanimously resolved—"That their sincere thanks be tendered to Dr. Irish for his gratuitous attendance upon the sick under their charge during the past winter."

RAN OFF.—A horse, attached to a buggy, ran off yesterday, on Liberty street, and proceeded at full gallop to Irwin street, where, in turning the corner, the vehicle upset, the driver falling s[under]neath, and in that position, was dragged some distance, when the horse was stopped, and the driver released from his perilous situation. The man was a good deal bruised, but he sustained no serious injuries.

ACCIDENT.—A young man named Isaac Harris, employed as a chair maker in Ryan's Building, on Fifth street, lost two fingers yesterday, by his hand coming in contact with the machine for cutting the arms of chairs. Dr. McCook was called in, and dressed the injuries.

DISTRICT COURT.—Before Judge Shannon, President.

In the case of Anspach, Brother & Co. vs. I N. Frazier, garnishee of Dr. F. R. Moore, the jury returned a verdict for defendant. This suit was instituted to recover a debt due by Dr. F. R. Moore, by attaching money alleged to be owing by Mr. Frazier to Dr. Moore. The defendant proved by receipts, that the money had been all paid by him to Dr. Moore, and consequently the above verdict was returned.

A. Wilkins & Co. vs. James Tassey, No. 530, July term, 1852. Geyer and Marshall for plaintiff. No appearance for defendant. Action on promissory notes; verdict of $724,26 for plaintiff.

James Finley vs. Harley Backhouse, Bruce Backhouse and Robert Pagan, No. 417, July term, 1852. Action of ejectment for twenty-five acres of land in Ohio township. Defendant had entered on the land after the death of the person under whom plaintiff claimed, not showing any title. Verdict for defendants. Mellon and Negley for plaintiff; Courtney for defendants.

A. Wilkins & Co. vs. J. Fleury, No. 540, July term, 1852. Action on promissory notes. Defendant confesses judgment for $767,50.

James Murray vs. W. R. Cope, No. 326, April term, 1848. Defendant confesses judgment for $160 and costs.

A MEETING was held at Philo Hall, last evening, to raise contributions for the aid of the Baltimore mechanics, who have been for some time on a strike. We did not ascertain the amount raised.

WESTERN UNIVERSITY.—The Trustees of the Western University held a meeting in the lecture room of the Third Presbyterian Church, yesterday, for the election of officers. The following persons were elected.

President—Rev. Dr. DAVID H. RIDDLE.
Secretary—Rev. Dr. A. W. BLACK.
Treasurer—Dr. WM. H. DENNY.

We have to chronicle to-day, and we do it with sincere sorrow, the departure of our estimable foreman, Mr. James E Sheridan, and family, for the territory of Nebraska, where he intends settling for the remainder of his days. He will locate near the town of Kanzas, on the river of that name. Mr. Sheridan will take with him, on his long journey, the heartiest wishes of a very large circle of friends for his success in his new home in the far West.

THE COUNTY JAIL.—Since the first of January there has been four hundred and sixty-eight persons committed to jail for vagrancy and dis orderly conduct. They have all been discharged, by expiration of sentence, and release of fines, except twenty-three.

About forty prisoners are committed for trial at the next criminal court, which will open on Monday.

The remainder, about ten, now in jail, are serving out the sentence of court.

ACCIDENTAL DEATHS.—Coroner Lowrie informed us yesterday, that since the 1st of December, there have been twenty-eight accidental deaths reported, and acted upon officially by him.

ELECTION.—Mayor Park has issued his proclamation for the election of a councilman of the Second Ward, Allegheny City, which is left vacant by a vote between three candidates. The election will be held on the first Monday of April.

THEATRE.—To-night will be presented decidedly the best bill of the season—the admired comedy, As You Like It, and Massenger's play of The Maid of Honour.

COMMERCIAL

We have no new feature to notice in our trade this morning. The weather was unsettled, but there was about as much activity as usual.

FLOUR.—The offerings yesterday were exceedingly small —not enough to supply the wants of the trade; figures remain unchanged; sales of 50 bbls. s. f. at $4,00, 60 do. s. f. and extra at $3,95@4,05, 75 do. choice extra at $4,25, and 130 s. f. from store at $4,12@4,18.

BACON—are advised of a sale of 45,000 lbs. Bacon shoulders, city smoked, at 6cts. cash, which is under any figures before reported. From store, sales in one and two thousand lb. lots at yesterdays quotations—6¾ for shoulders, 8 for sides, and 9¾ for Hams. Sugar-cured Hams, 11@11¾. Holders are firm, for the present, at these figures, for such small amounts as are wanted to go into present consumption.

The New York Economist of Saturday reports the Wool market as follows:

We note a decidedly activity in the domestic Wool market, owing to the very small quantity, which is now between 200,000 and 400,000 pounds only, and held at such high prices. The sales of the week do not exceed 300,000 pounds at 42@45c. mostly 42@50c. The Eastern manufacturers are still assisting to make contracts with the farmers for the clip of the coming shearing, while yet the fleece is on the sheep. In this they are pursuing a suicidal policy. When the clip is sold previous to the shearing, little care is taken of the condition of the fleece. Prior to the Tariff of 1846, the value of wool was dependent on quantity than good condition. We have heard of some contracts having been made as high as 60c for choice and selected lots.

There is no change of failure in the market for Pulled Wool. Small receipts, readily taken up at full prices, sum up the market.

All the transactions in Foreign Wool this week are included in the auction sale of Wednesday, when Messrs. L. M. Hoffman & Co. offered 142 bales South American Wools, of both Carpet and Clothing descriptions. The prices realized were fines selling at private sale. The manufacturers were the principal purchasers through their agents here.

THE GARDINER CASE.

WASHINGTON CITY, March 24.

In the Gardiner case the examination of Capt. Edward Barry was resumed, this morning. He described, from personal explorings, the whole region of Leguinillas, where Gardiner locates his mine. It is an extremely mountainous and wild country, and the roads leading to it are very bad, being principally mule paths, and utterly impassable for wheel carriages. Steam engines and other machines would have to be carried on the backs of mules, to do which he thought impossible. He could find nothing resembling a mine; none of the scoria of a mine is in the country. He had free access to the records of the prefects and alcaldes, and could find no records of silver mines. He understood that Dr. Gardiner was there in the house of Don Jose Pando. When he and the Commissioners were there, he went to Pando with two Commissioners, to notify Gardiner that the Commissioners had arrived and would be glad to have him show his mine.

The Court ruled all the conversation with Pando out, as Gardiner was not present, though the prosecution said they would follow it up by evidence showing that Gardiner was in an adjoining room, and heard it.

At this stage of the trial the Court adjourned.

TRIAL OF SPRING.

PHILADELPHIA, March 24.

The evidence of the Prosecution is closed on the Spring murder case. The Prosecutor's counsel recommended him to confess his guilt, warning him that his case was hopeless. There is no evidence to rebut the testimony against him.

SECOND DISPATCH.

Spring was convicted of murder in the first degree this evening. The prisoner manifested great indifference, and even took off his hat and cheered as the officers were taking him from Court. As soon as the throng was present, and manifested satisfaction of the verdict by terrific groans as the callous wretch was hurried back to prison.

CINCINNATI, March 23.

Dr. Alexander Duncan, ex-Member of Congress, was so severely injured by a wagon loaded with lumber, that his recovery is almost hopeless.

SECOND DISPATCH.

Dr. Duncan died last evening, it is thought, from a fit of apoplexy, as the injuries received by the wagon were not such as to cause death.

A baggage car on the Columbia Railroad was burnt this morning, with all the baggage. A collision occurred on the same road, by which Charles A. Schoonmaker, engineer, and Newton Gilmore, a fireman, were killed

The Plume Eagle Factory in Columbia, Georgia, was carried away, and a portion of the Canal wall recently rebuilt was thrown down.

The Stowell Ever Green Sweet Corn.

FROM Seed raised by Prof. J. J. Mapes. This is beyond all doubt the best and most prolific kind of Sweet Corn ever grown. No farmer should be without it. One of the advantages claimed for this Corn by Prof. Mapes is, that it may be kept green and fresh all the year round. Prof. Mapes, in the Working Farmer, gives the following directions for preserving the Stowell Evergreen Sweet Corn.

"The ears should be gathered when fully ripe and the husk should be tied at the nose, at the silk end, to prevent drying when the husk will keep each white and plump for more than a year, if in a dry and cool place. At the close of the Managers, after the Fair or the American Institute, last year, we presented them with this Corn of two successive years' growth boiled, and there was no perceptible difference between the two. This year we sent to the Fair one stalk containing eight full and fair ears, and could have sent many hundred stalks of six ears each."

A limited quantity of this celebrated Corn just received and for sale by R. E. SELLERS, 97 Wood street.
