Copenhagen:
Such is a very hasty outline of the history and
character of a country and a people the most
stationary, and for that reason among the most
interesting of civilized nations.

Zanesville, Coshocton, Cambridge, Mount Vernon. Newark, McConnellsville, Mansfield, anton, cw Philadelphia,

CUMBERAND, March 28, A. M.—The following are the particulars of the distressing accident which courted on the Baltimore and Ubin Ralitond, yesterday afteraon. The train consisted of a haggage oar and three passenger cars, and was in charge of the most cautious and skillful conductor on the Rad, to whom no blame can possibly be attached. The cars ware drawn by one large and one small engine. When parsing the 80 feet filling on Section 75, and descending a conved grade of 116 feet to Cheat river, the large engine started the nails binding the rails to the cheanut cross-ties. All the cars got over safely except the two last passenger cars, which by the parting of the tract, were thrown down the river side, falling a distance of over 100 feet, and making four somersels in the fearful deceant. The heavy trucks of the cars cauch the loss of life by crushing the passengers. Of some forty persons in the two ears, the following were killed: Daniel Holt, of the firm of Holt & Maithy, Baltimorr; Aurelias Sallie, supposed to be from South Carolina; Louis leed in the care of the care cannot can be considered to the first Carolina; Louis leed the care from the care from California; i, Bichard Clayton, of Wallaville, supposed to be from Kentaky; small sept-con of Ribert Morray, Supervieor on the Enthrone. 45,344 ed by any in the United States. This will be fully proved by the table of wheat and core
