PITTSBURGH GAZETTE.

PUBLISHED BY WHITE & CO.

PITTSBURGH.

THURSDAY MORNING, APRIL 14, 1853.

☞ *READING MATTER WILL BE FOUND ON EACH PAGE OF THIS PAPER.*

☞ PITTSBURGH, WEEKLY GAZETTE.—The extensive circulation of our Weekly Gazette offers to our business men a most desirable medium of making their business known. Our circulation is between four and five thousand, reaching almost every village and county in Western Pennsylvania and Eastern Ohio.

☞ TO ADVERTISERS.—Neither the Editorial Rooms nor Printing Establishment of the DAILY GAZETTE, are opened on Sunday. ADVERTISERS who desire their notices to appear in the paper on Monday morning, will please hand them in before 5 o'clock, on Saturday evening.

DEMOCRATIC WHIG NOMINATIONS.

FOR CANAL COMMISSIONER,
MOSES FOWNALL, *Of Lancaster County.*

FOR AUDITOR GENERAL,
ALEX. K. McCLURE, *Of Franklin County.*

FOR SURVEYOR GENERAL,
CHRISTIAN MEYERS, *Of Clarion County.*

THE RIVER RAILROAD.

The early completion of a railroad from Pittsburgh to Bridgeport, along the west shore of the Ohio river, is a matter of the first importance to Pittsburgh. The first section of this road, from Pittsburgh to Beaver, is completed. From Wellsville to Bridgeport the work is advertised for letting. There only remains, then, to secure a complete line, the section of about 20 miles from Beaver to Wellsville. To accomplish this object, the President of the Company, Mr. PARSONS, is now in this city, appealing to the justice, the interests, and the liberality of our citizens for aid. We are glad to learn that he is meeting with considerable success, and we hope our people generally will come promptly forward, and give him all the means necessary to enable him to put the whole line under contract without delay.

Those of our citizens who subscribed to the stock of the Cleveland and Pittsburgh Railroad Company, originally, had no reason to regret it. The stock has long since been at par, and much of it has been sold above par, and it has been sought after as an investment. It has paid fair dividends in the past, and will no doubt do so in the future. The road has been ably managed, and its President and officers deserve the confidence of our citizens, and our hearty co-operation in carrying out their design of connecting with so many important railroads.

When the river road is completed, together with the various connecting roads, we shall have by it, a Railroad connection with Cincinnati by way of Marietta, another by way of Zanesville, and another by way of Newark and Columbus. Hundreds of miles of Railroad will be opened up to us, comprehending the Southern half of the State of Ohio. The completion of the line will throw a largely increased business upon the present finished portion of the Cleveland and Pittsburgh road, while the river branch must do a very heavy business, having so many important feeders. The stock must, therefore, remain among the best and most desirable investments in this region.

The Company agrees to pay interest upon all subscriptions of new stock, until the road is completed, when the stock will stand in the same position as the other stock of the road. The stock will therefore, be remunerative from the start, and is as safe as any in the country.

We understand Mr. Prentiss is applying for a subscription from our County Commissioners, and guarantees to pay interest on the bonds. As the County would not run the slightest risk, having a Company with a capital of $3,000,000, with its stock at par, and which paid last year a 12 per cent. dividend from its earnings, as a guarantee, we hope the subscription will be made.

It is greatly to the interest of Pittsburgh, that this river road should be built promptly.—If it is put under contract this spring, it will be finished and ready to connect with the Steubenville and Indiana road, the Ohio Central road, and the Marietta road, by the summer of 1854, long before the Hempfield can be constructed, and thus turn the channel of trade this way. This is a matter of immense permanent importance to this city. Promptness is also necessary, in order that the bridge across the Beaver may be delivered to contractors in time to get the foundations of the abutments and piers in this season. A whole year can be saved in this way.

The construction of the Cleveland and Pittsburgh road has been of immense importance to Pittsburgh, and its Bayard and River branches are equally important to us. This city has as yet done very little for this great work which has conferred upon us so much benefit. We feel, therefore, that Mr. Prentiss has a right to call upon our citizens for aid to build the Beaver and Wellsville section, and it is the duty and interest of Pittsburgh to bestow that aid promptly and cheerfully.

We have made these remarks, unsolicited by Mr. Prentiss, as an act of mere justice to the Cleveland and Pittsburgh Railroad Company, and prompted only by a sense of the interest and duty of Pittsburgh in the premises.

OUR BOOK TABLE.

The complete works of Saml. T. Coleridge. Vol. II. The Friend. The Harpers are publishing Coleridge's works complete in seven large 12 mo. vols at 1,00 each, good paper and handsome-ly bound; a beautiful library edition and cheap. Coleridge is too well known to need any eulogy at our hand.

LIVES OF THE BROTHERS HUMBOLDT, Alexander and William, translated and arranged from the German by Klenzke and Schlesier, by Juliet Bauer, with Portraits, 1 vol., 12 mo. The fame of Alex. Von Humboldt is wide as the world. The biography of such a man alone, who was conversant with nature more extensively, perhaps, than any other man who ever lived, cannot fail to exert an expansive influence upon the mind of the reader.

INTERVIEWS, MEMORABLE AND USEFUL; from diary and memory reproduced. By Saml. H. Cox, D. D. This volume contains an account of interviews with Dr. Chalmers, Dr. Emmons, J. Q. Adams, with two Pseudo Apostles—and with a fashionable lady of Calais, France. And we promise the reader no ordinary treat in this volume. If space allowed, we should like to give some piquant extracts.

A CHILD'S HISTORY OF ENGLAND, by Charles Dickens, vol. 1st, from the ancient times to Richard 3d. Mr. Dickens wrote this work for the benefit of his own children. We presume, therefore, that it is just what such a work should be, beautiful and good.

All the above from the Harpers, and for sale by J. I. Read, 78, Fourth st.

NEW YORK TRIBUNE.—This excellent paper comes to us enlarged by the addition of a column to each page, and printed on new type, throughout. It is now not only a very large, but a very handsome paper, and resembles the London Times very much in its general outline. The Tribune has always been a favorite of ours, and we are glad to see this evidence of its prosperity.

THE CLEVELAND HERALD also comes to us enlarged and improved in its appearance. The Herald is one of the best of our exchanges; success to it.

RHODE ISLAND.—The full vote on the prohibitory liquor law in this State is given in the N. Y. Tribune, as follows:

For repealing the law	8,888
Against repeal	9,886
Majority against repeal	998

Every county but Newport votes to sustain the law, also all the leading towns. The law thus sustained is similar to the Maine law, but was framed so as to obviate the objections of Judge Curtis to the old law.

The Legislature is Democratic, and it is supposed, the Tribune says, will elect Gov. Allen to the U. S. Senate, in place of Mr. Clarke, whose term expired last March.

The mail steamship Tennessee, recently lost on the Pacific near San Francisco was insured in London for $100,000. She was valued at $200,000.

FROM WASHINGTON.

Correspondence of the Daily Pittsburgh Gazette.

WASHINGTON, April 10, 1853.

The Senate dispersing—Immediate cause of its Exit—Borland goes to New Mexico—Closing Proceedings—No Quorum—A Fresesil Flurry—Chase Victorious—Mr. Buchanan and Old Bullion.

Our apprehensions of a painful providence in the prolongation of the present session of the Senate, will not be verified. On Thursday evening it became known to the President that Ex-Senator Dickinson positively refused to take the collectorship of New York. Some trouble and delay was anticipated in forming the new combinations rendered necessary by this unexpected resolution of the Cato of New York, or "Scripture Dick," as he is commonly called; and to provide against the inconveniences of a prolonged contest over the nomination in the recess, the President requested an indefinite postponement of the adjournment. On Friday, the difficulty was obviated by the nomination of Judge Bronson, which was immediately confirmed. In this final settlement of the New York City appointments, Gov. Marcy has gained a signal and solid advantage over the intrigues, and the open enmity of his adversaries. Dickinson was tolerably well disposed of, so far as concerned his own claims, when stowed away in the custom house; but he would have been, while there, invested with powers of annoyance which would have troubled the Secretary of State not a little. He was therefore glad to get Cato the second out of his way. Judge Bronson is a Hunker, but not technically a "Hard." He is not anti-Fogy, and believes in Marcy almost as religiously as in the responses of the catechism.

This fortunate result made it quite agreeable for the Senate to adopt a resolution for its final adjournment, *sine die*, on Monday, and practically to close its business yesterday.

Among the nominations on Friday, was that of Hon. Solon Borland, of Arkansas, to be Governor of New Mexico; a most excellent appointment, for, although it will be a sad affliction upon the, New Mexicans which they must bear for four years, unless accidentally relieved, the Senate must be congratulated upon the removal of its most troublesome and least useful member. President Pierce evidently has a higher regard for his own personal comfort and the dignity of the Senate, than for the inhabitants of that intra-montane region, of which Secretary Conrad and Col. Sumner have expressed so poor an opinion.

The nominations received yesterday were of no importance, and were confirmed without reference or debate. The message communicating them was the last of a business character sent by the President. At three o'clock he notified them that he could dispense with their further attendance. Although the Senate had been sitting without a quorum for two days, on motions which gave rise to no opposition, the propensity to spend money was so irresistible that some Senator, whether Whig or Democratic makes no difference, would insist upon pressing the adoption of a resolution providing for a donation of some thousands of dollars to the National Intelligencer for publishing stale Senate speeches. The amount of money was not very large, perhaps from six to ten thousand dollars, but the principle involved was simply that of an unadulterated charity to a political press. The Intelligencer, two years ago, had the printing of senatorial speeches at seven dollars and a half a column, but threw it up because it could not make money by the operation. Since that time it has published a good many of senatorial debates, including some of the better sort of speeches at full length, as matters of interest to their readers—the same as the Gazette and most other papers in the country have. Why pay the National Intelligencer out of the public treasury for conducting that part of its business? There is no more reason than there would be for paying for the setting up of its editorials or its news items.

Mr. Chase, of Ohio, Mr. Dodge, and some others opposed the proposition; and Mr. Chase insisted upon a vote to ascertain whether there was a quorum present or not. With difficulty he obtained that grace by moving an amendment, that the National Era (Free-soil,) should be paid for the speeches which it had published, which, of course, were free-soil and abolition speeches, as those given to its readers by the Intelligencer were Hunker, and compromise, and pro-slavery speeches. On this vote there were ayes 2, Messrs. Chase and Sumner, and noes 24—total 26; six less than a quorum.

There arose a sharp personal debate. Gen. Rusk hoped the Sergeant-at-Arms would bring in absentees enough to vote down opposition, and pass the resolution. Mr. Chase replied that he would never consent to the transaction of important business without a quorum. Mr. Weller made a warm, almost violent, attack upon Mr. Chase, declaring him the representative of abolitionism which would destroy the Union, and not of the Ohio Democracy. Mr. Chase was sent here by a dishonorable bargain between the Democrats in the Legislature and the abolitionists. He hoped in two years he would go out, as he was the representative here of no party but the abolitionists of the Western Reserve, &c., &c. Mr. Chase rejoined with dignity and force, and the debate continued until five o'clock, when the Senate adjourned without a quorum, after postponing the resolution until December next.

Messrs. Soule and Borland acted in their places until the end of the session. They will not accept of their executive appointments until after Monday next. This is a new spectacle. That two men, the actual representatives of executive *functions*, should occupy seats in the Senate, and participate in its proceedings, looks singular, and not well. It proves how ungovernable the rage for office has become, and how great is the influence of the Executive. Never was there a greater number of Senators and members taken into Presidential favor, and never was there less occasion for the employment of men of that class in administrative stations. For if character and tried ability were the chief requisites for public employment, the past Congress was not the body to furnish the men.

Mr. Buchanan is here. The rumor was very current yesterday that he had been nominated and confirmed, Minister to England. It was erroneous. He has been in consultation with the President and Governor Marcy, since his arrival. It is believed among the most intimate personal friends of cabinet ministers, that he declines the service, and that Mr. Benton will be appointed. My own impression is, that Buchanan will be nominated and will accept. But I also believe that, should the event turn out otherwise, Mr. Benton will be offered, and will take the appointment. It will be a rare sight to see Old Bullion among the Bulls. He will say and do rare things. It will be a wide pasture, but none too capacious for him. Buckingham Palace, Windsor Castle, St. Stephens, Westminster, and Downing Street, would see and feel his presence. Old Tom is unique, a perfect old scapegrace in some things, and on some occasions; in the direful days of Jacksonism, which the country miraculously withstood and survived, a ne'er-do-well, and now a disorganiser and fomenter of schism among the amiable brethren of the Democratic communion. Old Bullion has a great patriotic heart and will, which would serve the country well at the Court of Victoria.

JUNIUS.

CONNECTICUT.—The following is the vote for Governor in this State:

Seymour, (Dem.,)	39,814
Dutton, (Whig,)	29,740
Gillette, (Free Soil and Maine Law,)	8,866

The Legislature is Democratic—Senate 15 to 6, House 148 to 73—but a majority is in favor of the Maine law.

Gen. Scott has purchased a handsome house in Twelfth street, near Fifth Avenue, New-York, for $26,000, and designs taking it for his permanent residence in it. The House is a new one, having been built last fall by Charles Partridge, Esq. The Whig Young Men's General Committee have appointed five of their number to wait upon Gen. Scott to ascertain when he can make it convenient to meet the committee.

The Baltimore American, of Tuesday, says:

BALTIMORE AND OHIO RAILROAD.—It will be seen that there were large sales of the stock of this road at the Stock Board yesterday, at a decline—the lowest cash sales being at $80—the operative cause being the rumor that Thomas Swann, Esq., was about to resign the Presidency of the Company. Whether the rumor has foundation or not, we are unable to say.

PENNSYLVANIA COAL TRADE.—The anthracite coal trade of Pennsylvania is gradually increasing. The Reading Railroad Company, brought down for the week ending on Thursday, 24th, 195 tons, and for the year, 352,051 tons, which is some 40,000 less than last year to the same time. The Schuylkill Navigation Company brought down for the week 16,256 tons, and for the season, 47,639 tons, 2,261 tons less than to the same time last year.

ONE OF THE BLOWS.—Old Ocean appears to have held a regular blowout about Lake Michigan on the 5th. At Chicago considerable dust was raised, and some damage done to buildings. At Janesville injury was sustained to buildings, and during the gale the principal hotel at Janesville took fire and was consumed. The Congregational Church at Kenosha was entirely blown down. Several vessels have arrived at Chicago since the blow, and the Journal says the captains state that it was so severe that the air was filled and the decks of their vessels covered with sand when fifteen miles from shore.—*Cleo. Her.*

TEMPERANCE IN MARYLAND.—A bill has been reported in the State Senate proposing to take the sense of the voters of Maryland, at the next November election, on the propriety of prohibiting the granting of licenses for the sale of intoxicating liquors. If a majority vote in favor of prohibition, no license is to be granted after the first of February next.

ANDERSON, THE MAGICIAN, AND SPIRIT RAPPING.—The Professor, in several numbers of the Baltimore *Sun*, has been showing up the humbuggery, as he calls it, of the spirit rapping, and concludes his last communication with the following:

"I challenge the whole Spirit Rapping League, from Maine to California, for $5,000 or $10,000 that there is not one of them can produce a knock on my table which I cannot account for by natural causes, consistent with the well understood laws of Natural Philosophy."

NEW ORLEANS, April 9.—Both ex-Senator Downs and Mr. Slidell will be candidates for the place vacated in the Senate by Hon. Pierre Soule. It is believed that Mr. Soule's friends will be more favorable to the election of Mr. Downs than that of Mr. Slidell.

FALL RIVER, MASS., April 11.—A man named John Murphy, murdered his wife here yesterday. He tied her hands and feet and poured oil of vitriol down her throat.

HAYNAU'S FATHER.—The *Koelnische Zeitung* states that Haynau was the son of William I. of Hesse Cassel, and Madame Von Lindoethal, which makes him the son of that Elector who sold his subjects to England.

PRODUCE.—The St. Louis *News*, of Monday, states that a perfect avalanche of produce has arrived from the upper rivers since Saturday noon, and the stock of hemp, lead, grain, pork, lard, &c., was larger at the levee than shortly after any time before this season. The receipts of hemp alone, 1200 to 1500 bales, of lead 16,000 to 18,000 pigs, and wheat, corn oats, barley, pork, lard, &c., in proportion.

MURDER BY A MISSIONARY.—The Home Mission Record learns that Rev. Elisha H. Terry, a missionary of the American Baptist Home Missionary Society, among the Chippewa Indians, on Red river, was barbarously murdered a short time since.

MAPLE SUGAR.—A correspondent of the Manchester Mirror, writing from Wentworth, New Hampshire, says that, for the last eight or ten days, there has been a great run of sap; and, from present appearances, the present spring will be more prolific in the manufacture of maple sugar than any season for two or three years past.

Dollyhide Copper Mines, near Liberty, Frederick county, Md., owned by Isaac Tyson, Esq., of Baltimore, is said to be yielding very largely. Of the fifteen fathom already dipped, the average value at the lowest figure is from $150 to $200 per fathom, (six feet.) At present the vein is so exceedingly rich as to yield from $600 to $400 per fathom.

THE WHEAT CROP.—The wheat fields in Cecil county, Md., are said to be looking very well, though the severe frosts of last winter were very unfavorable to a good crop, much of the wheat being winter-killed.

Garesche's Powder Mill, near Wilmington, Delaware, blew up on Friday evening, just after the hands had quit work. Conrad Biley, the engineer, was killed, and the mill was completely destroyed.

Messrs. Gest and Steele, of the Ohio State Board of Agriculture, have selected as the site of the next annual exhibition of cows in the south-eastern suburb of Dayton, ground well adapted to the exhibition, and it is being platted off in the best manner.

The St. Louis papers notice frequent shipments of corn and wheat from that port to our city, large lots of which were brought round by the St. Clair.—*Cin. Gaz.*

IRELAND.—So unpropitious a spring, the papers say, had scarcely ever been known in Ireland. Corn sowing and potato planting were much behind hand, owing to the severity of the weather.

The papers also mention that, of late, the American mails have brought unusually numerous remittances, some of them of very considerable amount, from the Irish residents in the United States to their friends in Ireland.

In the Cork Examiner, Mr. J. F. Maguire publishes portions of a letter which he has received from Wm. Smith O'Brien, dated New Norfolk, Van Dieman's Land, Nov. 20, 1852, as follows:

"At a period when so many of the professed patriots of Ireland have proved themselves to be but mercenary minions of English faction, &c.

"You will be glad to hear that I am in excellent health, and though I never can be happy in this country, yet, considering all the circumstances of my position, I am tolerably cheerful."

☞ WORMS! WORMS!!—A great many learned treatises have been written, explaining the origin of, and classifying, the Worms generated in the human system. Scarcely any topic of Medical science has elicited more acute observation and profound research, and yet physicians are very much divided in opinion on the subject. It must be admitted, however, that after all, a mode of expelling these Worms, and purifying the body from their presence, is of more value than the most elaborate dissertations as to the origin. The expelling agent has at length been found.—Dr. M'Lane's Vermifuge is the much sought after specific, and has already superseded all other Worm Medicines, its efficacy being universally acknowledged by medical practitioners.

For sale by all druggists and merchants in town and country, and wholesale at the Laboratory of the proprietors, apl J. KIDD & CO., 69 Wood street.

☞ BURKE & BARNES' SAFES.—Here is the kind of testimony as to the value of our SAFES, upon which we can confidently rest the reputation of our work. We have already published several certificates, proving that Safes made for our regular and ordinary sales, and sold already, have been subjected to the severest TESTS IN ACTUAL CONFLAGRATIONS, and preserved their contents totally free from damage. The following is another proof of the same incontestable character:—

$10,000 WORTH OF BOOKS AND PAPERS SAVED WITH A $40 SAFE!

ALBION, ERIE COUNTY, Pa.)
November 12, 1852.

MESSRS BURKE & BARNES.—DEAR SIRS: Yours is to duly received. I was absent at the time. I would say, that the Safe purchased of you last spring by Rich. PRIOR, I understand passed through the fire of the morning of the 10th of June last—my store building and its contents being entirely consumed. The Safe is a large three story building. My safe was in it at the time of the fire, and fell into the cellar, where there was a large amount of oil. It was a very hot fire.

My notes and books were the only articles in the Safe amounted to about Ten Thousand Dollars, which was saved. There was not a single paper injured; and further, I would refer to any person who has seen the Safe at any time, but buy a Safe to keep their papers, &c., in—and you will find it a good recommendation. You are at liberty to say one. Yours, truly, JOHN CLARKE.

apl4

☞ We believe Nature has provided a remedy for every disease which flesh is heir to. KENNY'S PETROLEUM or ROCK OIL, put up as it flows, from the great laboratory, concealed deep in the bowels of Mother Earth, is, without doubt, one of the greatest of these remedies. Read the following testimony, given by a grateful parent:

PLEASANT VALLEY, Ohio, Sept. 16, 1852.

MR. S. M. KENNY:—Sir: I have used your Rock Oil or Rock Oil, some two months past, and have been looking for you ever since to get a further supply. I could have sold some dozen more, but I had not the Oil. I will say excellent in Piles and Dysentery. My daughter, at the time I got it here, was troubled with the Piles, and at first I gave her a teaspoonful, and in three hours gave the second, and the first dose stopped her. She has not administered the justice of our complaints, and spoken favorably of saparation. Even the Richmond press are in our favor.—*Wellsburg Herald.*

For sale by all the principal druggists in Pittsburgh and Allegheny. [Parties advertising Petroleum please copy.]

☞ WINES, &c.—Persons wishing to purchase FOREIGN WINES and LIQUORS of all descriptions, pure as imported, can obtain them, at the lowest prices, at the Wine Store of JACOB SCHNEIDER, No. 69 Market and Front streets.

☞ MESSRS. KIDD & Co. have just received five hundred dozen of Cleaver's highly perfumed SHAVING SOAPS, comprising the ordinary Honey Soaps, extra scented Brown Windsor, musk brown Windsor, Winter and Honey Shaving Soaps. It is admitted by all, that Cleaver's Soaps are the finest in the world. apl1

☞ See Advertisement of Morse's Cordial, on outside page.

GEO. P. SMITH & CO.,

Cemetery lots sanctioned, with Rolers and Freeport Stone.

apl4 [Post copy one year, and charge Gazette.]

Dissolution

THE PARTNERSHIP heretofore existing between the undersigned, in the Lumber Business, under the name of HOWARD & DAWSON, having day disposed of their entire interest in said business to Wm. Howard, all persons indebted to the late firm are called upon to make immediate payment, and those having claims against said firm will please present them for settlement to the undersigned, who will continue the business at the old stand, on Ohio island, where they will be prepared to fill all orders promptly.

WILLIAM DAWSON.

Pittsburgh, April 12, 1853.

SILKS! SILKS!!—I. N. FRAZIER, at the "Big Widows," No. 110 Market street, Allegheny City, has received a large and choice selection of FANCY SILKS, for this season, which he will offer for sale from 50 cents to $1,50 per yard; Black Silks, extra heavy and fine gloss, from 75 cents per yard; Black Silks, at 50 cents per yard; Plain Silks, at 50 cents per yard; Striped Silks, at 50 cents per yard; Plaid Silks, at 50 cents per yard; Figured Silks, at 75 cents per yard; Black Silks, at 50 cents per yard.

I. N. FRAZIER,
"Two Big Widows," Fourth st., Allegheny.

S. STONER, 80 Wood Street,

WOULD inform the public that he has received his SPRING SUPPLY of

BOYS' CLOTHING,

Which will be found more extensive, more rich, and more variety both in style and elegance, than any heretofore offered in this city.

Those who do business with Stoner may rely upon their purchases being made at prices, both as to quality and style of goods, as low as the fairness of his prices will admit of. Also, a full supply of CLOTHS, CASSIMERES, and VESTINGS, together with all the variety of SUMMER GOODS suitable for the coming season, which will be made to order at short notice, and at reasonable terms for cash.

My sales and business last year, in the Sale amounted to about Ten Thousand Dollars, which was saved. There was not a single paper injured; and further, I would refer to any person who has seen the Safe at any time, but buy a Safe to keep their papers, &c., in—and you will find it a good recommendation. You are at liberty to say one. Yours, truly, JOHN CLARKE.

apl14

☞ We believe Nature has provided a remedy for every disease which flesh is heir to. KENNY'S PETROLEUM or ROCK OIL, put up as it flows, from the great laboratory, concealed deep in the bowels of Mother Earth, is, without doubt, one of the greatest of these remedies. Read the following testimony, given by a grateful parent:

PLEASANT VALLEY, Ohio, Sept. 16, 1852.

MR. S. M. KENNY:—Sir: I have used your Rock Oil or Rock Oil, some two months past, and have been looking for you ever since to get a further supply. I could have sold some dozen more, but I had not the Oil. I will say excellent in Piles and Dysentery. My daughter, at the time I got it here, was troubled with the Piles, and at first I gave her a teaspoonful, and in three hours gave the second, and the first dose stopped her. She has not administered the justice of our complaints, and spoken favorably of saparation. Even the Richmond press are in our favor.—*Wellsburg Herald.*

For sale by all the principal druggists in Pittsburgh and Allegheny. [Parties advertising Petroleum please copy.]
