HOME MATTERS.

RIVER ITEMS.—LAID UP.—The *Diadem*, Capt. Calhoun, will lay up this morning for the season, in order that her machinery, wheel &c., may be enlarged. We understand it is the intention to repaint her also.

The *Exchange*, Capt. Rhodes, will take her place for the time being, and will make a regular trip this morning. Those shipping will please take notice.

Capt. Blair Summons was, on Monday, chosen commander of that new and powerful steamer, the Jacob Strader, which is to take position in the mail line from this city to Louisville. Capt. Summons is admirably well fitted, by long experience, for the duties of his command, having constantly run the river for the last forty years. —*Cin. Gazette.*

LUDEVIE SOLD.—We learn that Capt. Davis, formerly of the Milton, has purchased the *Louisville*, and will soon have her on the track.—*Lou. Courier.*

A GOOD TRIP.—The *Norma* from New Orleans, passed here yesterday for Cincinnati with a full trip of passengers and freight. Her receipts for the trip are $7,500.—*Ibid.*

COLLISION AND OUTRAGE ON THE OHIO RIVER.—Saturday afternoon the steamer *R. M. Patton*, and the Jeffersonville *ferry boat A. Watkins*, came into collision, while the steamboat was going up from the wharf to turn out, and cross the falls. From the statement detailed to us, it appears that the R. M. Patton was running up to pass the ferry boat, when they locked and run that way for some distance. This caused some excitement between the crews of the respective boats, during which a hand or fireman on the Patton threw a piece of coal either at the pilot or some one else on the ferry boat, but hitting no one. This not exasperated Mr. Underwood, the pilot of the ferry, who got off his pilot house, drew a pistol, and deliberately fired into the crowd on the Patton. The pistol was charged with shot, some of which struck the second mate and two of the hands of the boat, wounding one of them very severely in the face.—*Ibid.*

GARBO OF PROVISIONS.—The Federal Arch, in fast evening from the Upper Mississippi, brings a full cargo of Provisions. She had over 30,000 pieces bulk meat, besides barreled pork and lard, the entire weight being over 800 tons. We understand that the greater portion of it, if not all, was from Burlington, Iowa, and cleans that town out of hog products for the present season. —*St. Louis News, 27.*

HEAVY CARGOES.—Boats from the Upper Mississippi have brought down heavy cargoes of grain and other produce. The Wisconsin, in fast evening from Galena, had on board and in a barge 2,775 sacks grain, 1,046 pigs lead, 400 bbls flour, 67 sacks bacon, 23 kegs and 836 bbls. lard. Merchants and shippers above the Rapids, are sending the remainder of their stocks forward, as the river is going down quite fast, and this may be the last opportunity for low freights this season.—*Ibid.*

DISTRICT COURT.—Before Hon. P. C. Shannon, President Judge.

In the case of Stewart vs Stewart's Exrs., the jury returned a verdict for plaintiff for $700.—

A. G. Walters vs Allegheny County. No. 864, July term, 1852. Alden for plaintiff; Sewell for defendant.

Defendant, the Commissioners, refused to pay bills of Dr. Walters for post mortem examinations at Coroner's Inquests, which were certified to by the Coroner. The jury returned a verdict of $66.38 for plaintiff.

P. H. Frazier vs Wm. A. Hill. Bells & Williams for plaintiff; Shinn & M'Connell for defendant.

This suit was brought against defendant to recover $2,000 from the Fayette Manufacturing Company, under the act of the Legislature, 1849, known as the "Manufacturing Companies' Law." One of its provisions declares that no dividend shall be declared, that would reduce the capital stock, and that any Director could be sued, who participated in the declaration of such dividend, if he were present. If not, he must dissent within ten days, in writing. The case is on trial.

THE STOLEN BIRDS AND BIRD CAGES.—The Rev. A. W. Black identified a bird cage, containing two canaries, as his property, which had been found in the possession of McKiffery, some time ago, and taken to the Allegheny Mayor's office. Dr. R. B. Mowry identified a cage. Mrs. Porter recovered two cages. Mr. Young, of the 24 Ward, Allegheny city, identified a large and handsome cage, which had been stolen about 6 months ago. At the time of its being stolen, it contained a very fine Red Bird, which has not been recovered. Six or seven others also recognized birds and cages as their property.

Mayor Park requests us to state that about twenty-five or thirty bird cages, some containing birds, are still at the Mayor's office, where all who have lost cages and birds, had better call.

INCENDIARISM.—A boy, whose name we withhold, was arrested by Mayor Park's police, yesterday, suspected of having set fire to Sloss & Drum's carpenter shop, on Sunday night. The boy proved an alibi to the satisfaction of his Honor, who immediately discharged him.

Mayor Park, with his usual determination, is resolved to ferret out the incendiary, whoever may be. His suspicions have been aroused, and an arrest will be made in a few days, when an important witness, who is at present out of the city, returns, and who, it is understood, is able to prove conclusively the guilt of the suspected person.

The newly erected but old fashioned Public School edifice in the Second Ward, Allegheny, being no longer able to accommodate the increased number of its scholars, is being enlarged and remodeled. Mr. John U. Barr, the skillful architect, informed us yesterday, that the building will present a totally different and beautiful appearance. It will have pediment fronts, and will be raised one story higher, and there will be a convenience the like of which had not, will be made through the centre of the building.

TRESPASS.—A bill of unusual attraction is offered for Mr. Coulduck's benefit this evening. He plays Beker's new drama of the Recruiting, and the melodramatic drama of the adopted child. The talented and beautiful Madame Rosalie Durand and Signor Novelli give variety to the performance by a musical entertainment. For particulars see advertisement.

SAVAGE DOG.—A young man named Michael Knoble, while passing the house of Daniel Coalclasser, on Penn street, had his arm shockingly lacerated by a savage dog, owned by the latter. Some stringent measure, we think, should be adopted to prevent persons being injured by savage dogs, while passing along the street.

IMPORTANT ARREST.—Officer Hague arrested a man named David C. Sullivan in Erie county, at the suit of Crawford & Co., Wood street, Hardware merchants, for obtaining $1100 in goods from them on false pretenses. He gave bail in $1800 for his appearance in this city, at the approaching term of Court.

BURGLARY.—Two young boys broke into Wm C. Dunn's Milk Store, Fifth Street, last night, and succeeded in stealing about one dollar in copper, which was in the drawer. They were seen about the operation, and information was given at the Mayor's office. They were arrested and committed to the tombs.

ASSAULT AND BATTERY.—Mayor Park, of Allegheny city, held a Mr. John Strighter to bail in $500, on a charge of assault and battery with intent to kill, preferred by Samuel Tillman. The parties had been engaged in a fight, when, in order to expedite matters, Strighter made a junge at Tillman with a butcher knife, fortunately inflicting no wound.

BREAKING A BOOBY.—Joseph George made oath before Alderman Major against Thomas Kilsaletter, for assisting Charles McCoy in breaking his carriage on Wednesday, noticed in yesterday's paper.

Alderman McCune of the ninth Ward, lodged complaints against the above named, and Charles McCoy and Washington Fresze for riotous behaviour in that Ward.

LARCENY.—Michael McManamy whose arrest for stealing Mr. C. Ihmsen's trunk at Latrobe we noticed several days ago, had a final hearing yesterday, and was fully committed.

RUN OFF.—A horse attached to a light wagon ran away yesterday, breaking the vehicle to pieces. His course was arrested on Smithfield street, but all of the wagon that remained was the swingle trees and part of the axles.

NEW CARS.—Since the first of April, the workmen at the outer depot of the O. & P. R. R. Company, have completed and turned out seven platform cars, five freight cars, one baggage car, and two second class passenger cars, and are busily engaged on some new platform cars.

MEDIAN COMMON, ALLEGHENY.—This much neglected portion of Allegheny city, has at last come in for a share of the improvements. A number of laborers are engaged in grading a very fine and broad side walk, to extend along the whole Common.

PROHIBITED.—We learned from a police officer, last evening, that Mayor Biddis had addressed a note to the Fakir of Siva, informing him that he could not give his gift concert, on the ground that there was a law prohibiting such exhibitions.

NEW BRIDGE.—The new bridge over the railroad on Ridge street, West Common, Allegheny, has been completed, and is a neat and substantial structure.

OBSTRUCTING THE STREETS.—Marshall & McGeary, Wood street, and A. G. Cubbage, in the Diamond, were arrested and fined by Mayor Riddle, for obstructing the streets.

THE CITY POOR HOUSE.—There are one hundred and seventy-five persons at present in the Poor House.

CAPIAS.—John Gallaher was committed to jail on a capias issued by the District Court, yesterday. He was charged with riding a hired horse to death.

ADMITTED.—James M. Gallagher, Esq., was admitted to practice at the bar of the District Court yesterday, on motion of J. P. Penney.

The Knickerbocker Magazine for June, has been received by Callow, opposite the Post Office; also, No 16 of Bleak House.

The Moderator replied in a feeling address.

IMPORTANT FROM SOUTH AMERICA.

SALEM, Mass., June 2.

Advices from Montevideo to the 5th April say that great discontent prevails there. Placards were posted on the walls bearing the words—"Death to the present Government!" "Live the Colorados!"

Advices from Buenos Ayres state that such had been the effect of the recent disturbances on business, that the English, French, and German houses would sell their outstanding claims for 40 per cent. discount. It was thought the city would soon surrender.

MONETARY AND COMMERCIAL.

The Governor has signed the bills rechartering the Girard and Mechanics' Bank of Philadelphia. Each of these banks pays to the state a bonus of $125,000, in lieu of taxation, which is to go to the completion of the North-Branch canal.

Notwithstanding the receipts of this bonus of a quarter of a mil-l on, the Philadelphia papers say that the State is in the market, there, for a loan of half a million to three quarters, at 6 yearly prospect of obtaining it. The papers grumble at the banks for giving it; but banks which owe their existence to the State will not, if they can help it, run risk of offending the state authorities by refusing a loan often asked for it. What the state will do with this money does not appear; but it is probably borrowed, in anticipation of the state revenues, to carry on the new Portage road and the North Branch canal.

The imports of Rio coffee at Baltimore since first of January, 1852, have been 8,431 bags; and of other descriptions 6,788 bags—total 32,239 bags. The stock on hand May 31 t is of Rio, 45,700 bags, and of other descriptions 2,500 bags—total 48,200 bags. The imports of the month 2,500 bags—total 48,200 bags. The imports of the month are 15,000 bags Rio, and 911 bags Laguara—total 16,107 bags. The sales of the month are 11,200 bags Rio at 9@ 9¾ cents.

In Philadelphia the imports since Jan 1, to May 31, have been 84,235 bags, an increase over last year of 14,635 bags, stock in first hands. 19,000 bags; imports of the month, 15,291; sales of the month, 18,167 bags at 9@9¾.

In the Austra lan advices received in England from Melbourne, to March 31, one important fact is mention' ed, that there had been a rapid advance in the price of gold to 77s, and in London fractions as high as 78s, so that shipments of coin from England would be checked. At the Balarat mines a lump of gold had been found weighing 134 lbs. 8 ounces.

The Banks at New York begin to find themselves unable to place out their receipts, which are now large. In February and March, what paper they took was all short date—in the interior the whole delegation. The House of Delegates so far stands 51 Democrats, 69 Whigs; gain 6. In the Senate the Whigs have 9 and the Democrats 13; Whig gain 1. The Democrats have reduced majorities in both branches of the legislature.

The Charleston papers confirm the statement of the saving of the passengers of the ship William and Mary; 174 were taken from the wreck by the schooner Creole, Capt. Sands They were at Nassau in a very destitute Condition.

WOOL ITEMS.

WOOL.—By reason of high prices, there are no Eastern buyers in the market, or money sent to buy with. Most of the wool bought in the West is going into the hands of the manufacturers into cloth. Prices stand at 35@45c according to quality.

WOOL AND ITS PROSPECTS.—We are at a loss what to say in regard to the wool market, for the coming clip. It is the opinion of those who are the best informed on the subject, that the clip will command a higher price than the present season. that it will three months from this time, and the more judicious and faithful sheep are now being selected for next season's clip. There must also mine the ear estimate of the quantity of wool that will be produced next season. The opinion is generally entertained that the clip of the Northern States will be considerably less than last year, and being on the second year's clip of wool, the average price of the Eastern States will be 40 cents.—Rutland Herald and Troy Whig.

WOOL.—At 25 to 50 cents ⅌ lb, some lots of extra bringing 55 cts.—Sandusky Register.

New York May 29th.—The shipping season being in full activity, manufacturers' orders are absent, looking better the new week. It is deemed that the new wool is coming forward rapidly. The stock here is held at very firm prices.—*Economist.*

The clip for the present season is just beginning to come into the market. One of the largest wool buyers in Northern Ohio, says the following rates:

Common to fine, as to sam ple	40 to 45
