HOME MATTERS.

COURT OF QUARTER SESSIONS.—Before Judge McClure, President, and Associates Adams and Boggs.

In the case of the Commonwealth vs. Nathan and Elias Whiting, indictment assault and battery, reported yesterday as on trial, the jury found the defendants not guilty, the prosecutrix to pay the costs.

Commonwealth vs. James McGarity, information surety of the peace, on oath of James Walker. The Court ordered each party to pay half the costs.

Commonwealth vs. John Gahan, indictment assault and battery, on oath of John Murray. The occurrence was alleged to have taken place fourteen months ago in the borough of Elizabeth. The prosecutor stated the defendant broke into his house at night, and dragged him from his bed and beat him severely. The case was not sufficiently made out, however, and the jury brought in a verdict of acquittal, ordering the prosecutor to pay the costs, in default of which, he was committed.

Commonwealth vs. Michael Zulde, Harman Foreman and Sarah Stewart, indictment forcible entry and detainer, on oath of John Cunningham. On trial.

EXTENSIVE FIRE.—About one o'clock yesterday afternoon, flames were discovered in the packing room of Messrs. Bakewell Pears, & Co. Glass Works, on the corner of Grant and Water streets. The alarm was given, and the engines from every quarter of the city arrived promptly on the ground. The upper portion of the whole building was very much damaged, and a large quantity of very fine glass ware, which had been packed in straw, was entirely destroyed.

The fire is supposed to have been caused by a spark from the stack, falling into the packing room. Owing to the untiring energy of the firemen, the flames were confined to the original building. We understand the building was insured in the Franklin Insurance Company, though there was no insurance on the glassware. The works will be in operation again in two or three weeks.

SHOOTING AFFRAY.—A shooting affray of a serious nature occurred on Wednesday evening at the Railroad Exchange on Liberty street, in Bayardstown. It appears that a number of persons were engaged in playing cards when some dispute arose between two of the parties, named William Miller and Charles McCartney, about the game, which ended in McCartney shooting Miller, the ball passing through the face below the cheek bone and lodging in the back part of the head. McCartney succeeded in making his escape. Miller was conveyed to his residence in a fatiating condition, and Dr. A. G. Walters was called in. It is thought he will recover. He was engaged at Adams & Co's Express office, Fourth street.

TAKEN OVER.—Henry Kennedy, convicted of horse stealing, was sentenced yesterday to two years imprisonment in the Western Penitentiary.

John Ryan, convicted of grand Larceny, was sentenced to the same term.

Both were taken over yesterday by the Sheriff's Deputy.

MR. J. H. FOSTER designs commencing his musical entertainment at Wilkins Hall on Monday evening, aided by an efficient company. He has secured the services of Mr. Theodore, a violinist of excellent reputation, and of undoubted ability, if we may judge from the flattering notices bestowed upon him by the Eastern press. There is no doubt that this enterprise, should it be conducted with that propriety which our knowledge of Mr. F. would lead us to anticipate, will be crowned with signal success.

NARROW ESCAPE.—One of the firemen while endeavoring to cut a hole through the roof of Bakewell, Pears & Co's Glass works while on fire, yesterday, lost his footing, and was only saved from falling into the street, by his feet striking the gutter of the roof.

THE CONNELLSVILLE RAILROAD.—The Directors of the Connellsville railroad met yesterday, and passed a resolution authorizing Gen. Wm. Latimer to open books to receive subscriptions of stocks, as soon as a sufficient shall have been taken by the Baltimore Councils in the subscription of stock.

The bricklayers have notified their employers that after the 1st day of July they will demand an advance of twenty five per cent. on their present wages ($1 75 per day). The employers had previously agreed to pay $2 00 per day, the amount demanded, but raised to $1 75 only.

ASSAULT AND BATTERY.—Jacob Hanna and Matthew Brown were committed by Alderman Daff, of the 8th ward, yesterday for assaulting George Cashneer. Hanna afterwards procured bail and was released.

BAKEWELL, PEARS & Co. present their grateful acknowledgments to their fellow citizens, and especially to the members of the fire companies of Pittsburgh and Allegheny, for their prompt and energetic assistance by which the recent fire at their manufactory was so speedily and effectually subdued.

NOTICE.—The members of the Eagle Fire Company are requested to attend a special meeting of the Company at their Hall, on this Friday evening, at 7½ o'clock. Punctual attendance is requested. CHRIS. H. SLADE, Sec'y.

THE NEW METHODIST CHURCH.—The persons having in charge the erection of the new Methodist Church are pushing the preparatory work forward with much energy. The foundation has been excavated and a great portion of the foundation walls have been laid.

Alderman McMaster issued a warrant yesterday, for the arrest of a man named Wm. Gardner, who was prosecuted by William Watson, for assault and battery committed on the 7th of June.

NOT RESIGNED.—We are informed on good authority, that Mr. J. D. Reid has not resigned the Superintendency of the National Telegraph Line.

LARCENY.—John Wade had a final examination before Alderman Major, on a charge of stealing three or four razors from William Blaney's Barber Shop, on Wylie street. He was fully committed for trial.

ASSAULT AND BATTERY.—Alderman Hageman of Birmingham, committed a man named Patrino to jail for assault and battery on oath of Susannah Fisher. He was afterwards discharged on bail.

THURSDAY MORNING.—The Committee reported resolutions on direct trade, Pacific Railroad, Tehauntepec route, Manufactures, Education, Steamers from the Southern ports, Diplomacy concerning Cotton, and an address to Congress on the subject of Oronoco, Amazon and Plata rivers. The Pacific Railroad resolutions were as follows:

Resolved, 1st. That the Railroad from Mississippi to the Pacific, is demanded not only by commercial and individual interests but by national.

2d. That as soon as the surveys recently ordered by Congress is completed, the General Government should adopt such steps as will insure the completion of the main trunk at the earliest possible period.

3d. As the General Government is expected to inspect only one trunk, it should be located on the route which scientific explorations shall show the greatest degree of advancement, of genial climate, fertility of soil, cheapness of, construction and accessibility, at all seasons from all parts of the Union.

4th. That in the opinion of this Convention it is right, expedient and proper, that Government should make liberal donations of public lands to different States, and bordering on either side of the Mississippi, to enable all sections of the Union, however remote, to connect themselves with government.

The first and second resolutions passed unanimously. The third was warmly debated; a motion to insert "Central" was lost, ayes 12, nays 10. Mr. Easton then moved to insert "and temperate," after "genial," which was agreed to. The resolution as amended passed unanimously. Mr. Thrasher offered resolutions relative to Cuba, which were lost, after which the Convention adjourned.

GOLD COINAGE IN GREAT BRITAIN.—A parliamentary paper, recently issued, states as follows the amount of gold and silver coined at the Royal Mint of Great Britain from the 1st of January to the 31st of March, 1852:

Gold	4,260,687 pieces—value	£4,333,357 0s.
Silver	1,733,090 pieces—value	92,809 8s.
Total	6,000,683 pieces—value	£4,418,225 8s

Equal, at $4 84 per pound sterling, to $21,422,613 77.

The coinage of gold and silver at the Royal Mint during the same time was, gold, $13,434,676; silver, $550,956.

Showing a total gold and silver coinage of $13,550,326, and an excess of $7,000 over the coinage of the British Mint for the three months of 1850, as compared with the coinage of the Philadelphia Mint.

We learn from the Washington Correspondent that at the sale of the Administrators of the Estate of Mr. Dickenson, on Wednesday last, a lot of Wool was sold at 58 cents per pound. As Mr. Dickenson's wool was about an average of the fine wool of the country, though by no means equal to the best, we may take this sale as an indication of the rates likely to rule there.

The Wellsville (Ohio) Patriot says that on the opening of the market Wool commanded pretty high figures, but the excitement has s nowhat abated and the current rates are, on an average, from 45 to 60 cents per pound, with a downward tendency.

The New York Tribune says that Money continues very abundant, and loans have been made on call as low as five ₱ cent. The greater part of the transactions are at six and seven per cent.

The annual report of the New Jersey Railroad Company exhibits the following items:

WOLFE'S CELEBRATED SCHIEDAM AROMATIC SCHNAPPS—Deeming it necessary to remind any regular member of the Medical profession of the established medical properties of pure Holland Gin in many diseases of dropsical tendency, I respectfully invite your examination to a very superior article, manufactured by myself exclusively, at Schiedam, in Holland, by a process peculiar to my own factory. It is flavored and medicated, not by the common harsh berry, but by the choice botanical variety of the aromatic Italian Juniper Berry, whose more virulous extract is distilled and rectified with the spiritedes solvent, and thus becomes a concentrated tincture of vegetable flavor and aroma, altogether transcendent, in its cordial and medicinal properties, to any Holland Gin heretofore known.

Amid the influx of inferior distillations with which the market is now flooded, physicians find no little difficulty in procuring a good and pure Gin, which they can prescribe with confidence in its remedial effects. I am importer of twenty year's exceptional identity of New York, and possessing a matured experience in the manufacture of Holland Gin, especially adapted to the requirements of the sick, I beg to submit to your attention my AROMATIC SCHNAPPS, and the high character which cannot fail to realize your utmost expectations, and I shall be happy to forward to you a bottle of it, free of charge, in answer to a letter intimating your readiness to accept it.

It is now scarcely one year since I have prepared and distributed my formula Gin exclusively for medicinal purposes, yet within that brief period, I have received numerous letters, both from physicians and patients, testifying to its remarkable curative properties in Gravel, Indigestion, Dyspepsia, and affections of the Kidneys (more especially), also in Dropsical maladies, when taken in proper quantities as a Diuretic Drink, and more particularly so, when used by uniform experience, to be eminently efficacious in the chronic cases, where all the usual remedies have failed to afford more than temporary relief, and which I feel confident would yield similar results with precision and certainty in your professional experience.

The Aromatic Schiedam Schnapps is put up in strong bottles, pints and quarts, neatly covered and labelled with my name embossed on the bottle, also a capsule of my signature on the label, and my seal on the cork.

Each bottle is also secured with a wire.

HOLLAND GIN AS A MEDICINE.

In our last number, we accompanied the publication of a circular on this subject, from our fellow citizen, Dr. Wolfe, Esq., with a brief commentary, expressive of assent, and thus far with favorable opinion of the agent and the article. We have been employing this in the range of our remarks communicative on the subject from medical men, which appeared in the Journal of Health. Mr. Wright, of Baltimore, has tried it, and in the hands of physicians, is proving itself a highly stimulating diuretic, to be eminently successful, after other diuretics fail. Mr. Hall, of Boston, has been tried in vain. In one of the cases thus reported, after other diuretics had been employed to excess, the effects of a single dose of Gin, as directed, were decidedly beneficial. In the case of Mr. Hall, of considerable size, which is ascribed to the use of only two bottles of this article.

We know not the object of Mr. Wolfe in designating his preparation by the high sounding appellation of "Schnapps," nor of his declining manufacturing it as Holland Gin, which it is, and which it will be difficult to prevent perpetuating its ancient title of Holland Gin. We know of no better Gin than this, and it will be nothing else than the latter article in its pure state, unadulterated by coloring matter and burnt sugar, commonly ingredients from the Gin of commerce, really not worth any as the small known, manufactured here at elsewhere from inferior whiskey and drugs. The same has its origin in malt, and is known to serve the purpose of designating the pure article, particularly for medicinal purposes, and thus commended it to physicians, for whose more extensive use it is put up in respectable and apothecaries.

As respects its medicinal and curative effects, we understand him to claim only that it is a pure and reliable article of Holland Gin, and as such worthy of the confidence of Physicians, in those diseases for which Gin is recommended to prescribed. We have hitherto only been required by finding it to possess the qualities of pure Gin, to recommend it. Not already any properties against scientific medicine, depriv the physician of the use of this article, which from time immemorial has held its place among the remedial agencies of the Materia Medica, if it be found worthy of confidence by continued experience.

We, at all events, think we have to contribute to the toleration of other alcoholic medicines, and to the employment and confidence in approximately safe to recommend, especially those who prescribe Gin under any circumstances, must at all times be glad to have the purest article, and the small amount of fuel required, and the manner of using it.
