In this connection we subjoin a few newspaper paragraphs of interest:

The crops in the Stillwater Valley look promisingly well, as far as we observed in an excursion we made into that region the other day.—We could hear of no fly in the Wheat, slithough in the country eight or ten miles east of Milton, it is said to be very bad.—Pigna (O.) Register.

The Findlay (Ohlo) Courier says that the wheat crop never looked better in that vicinity, it generally looks well we believe throughout the Manmes valley.

The Wheat Crop in this neighborhood it is said sever looked batter at this season of the year than it does now, except in some places where the late continued value have produced standing water. The grass crop will be abundant. Fruit promises largely. The crops of oats and corn will not, we think, be so large as in some former years, yet three will be no scarcity. Potatoes we hope will be plenty, but can easy nothing positively about the prospects. The fine showers two or three days back have brought vegetables rapidly forward.—Perryburgh (O.) Journal.

FIRE CRACKERS.—It is said that in consequences of the disturbance in China, the price of five crackers has considerably advanced in New York. This is important to juveniles, seeing that the 4th of July is near at hand.

The Buffalo Courier says the fare from Buffalo The Buffalo Coarier says the fare from Buffalo to New York, via the Southern route, has been put down to \$5,50, and there is a prospect of a still further' reduction on bota lines. That paper would not be surprised to see it as low as \$5, in less than a month. The competition is quite sharp. With such fares, everybody will soon be on the more.
