COURT OF QUARTER SESSIONS.—Before Judge McClure, President, and Associates Adams and Boggs.

J. S. Irvine plead guilty to keeping a tippling house, and was fined $20 and costs.

Commonwealth vs Peter Cassam and Martin Mehaffey, indictment assault and battery, with intent to kill, on oath of Amanda Montgomery. Found guilty, and sentenced to pay ten dollars apiece and costs.

Commonwealth vs. John McClure, indictment assault and battery, on oath of Mrs. Tevis.—The defendant was a watchman and was charged with assaulting the prosecutrix while she was proceeding in the direction of where she was engaged. No verdict has been returned.

Commonwealth vs. Peter Cassam, Andrew McClure, and Alexander Connoty. Indictment riot. The indictment was not made out though Cassam was implicated in an assault and battery, on which this case was founded, and a verdict of not guilty, Cassam to pay the costs, was rendered.

There were four indictments for assault and battery against Peter Cassam, on oaths of Wm. Topper, John Buhoup, Henry Trimble, and Andrew Boobie, in all of which he was found guilty, and was sentenced to pay the costs.

MISSIONARY ANNIVERSARY.—The Fourth Annual Anniversary of the Liberty M. E. Sabbath School Missionary Association, was held on Sunday afternoon, in the church edifice on the corner of Liberty and Hay streets. At the hour appointed the church was filled by the scholars, members of the congregation and visitors. Bishop Simpson presided, assisted by Rev. Dr. Cooke, Rev. Dr. Baird, Rev. Edward Birkett, and Rev. S. S. Brocklunier, Vice Presidents.

The meeting was called to order by singing an introductory hymn, written expressly for the occasion by the Rev. Dr. Cooke, which was followed by a prayer by the Rev. Mr. Brocklunier.

After another hymn the anniversary address was delivered by Dr. Baird, which was short but happy and effective.

A hymn composed by Dill A. Smith, Esq., for the occasion, was given, after which the Rev. Henry Slicer Simpson delivered an appeal on behalf of missions. He commenced by alluding to the vast emigration to this country from every nation in the old world, and the necessity of supplying the emigrants with the Bible. The work among the Germans had been peculiarly successful, the missionaries among them having within a certain time converted about three thousand Roman Catholics. It was computed that there were about one thousand millions of people on this globe, the greater part of whom are entirely ignorant of the Gospel. The work of spreading christianity among them must be done by those who already possess the Bible. It must be done by two agencies—missionaries who would devote their lives to the work—would cross oceans and risk hardships and disease. But wherever the missionaries go, they must be furnished with the means of living, and securing the means was the object of this and similar associations. The Rev. gentleman hoped that where pennies had been given dimes would now be given, where dimes, dollars, where dollars, eagles, and where eagles, hundreds. The Bishop proceeded at some length in continuation, and was listened to with the greatest attention and interest by the large audience.

At the conclusion of the Bishop's address, he announced from the printed programme the "Anniversary Hymn," composed by John K. Holmes, Esq., of this city, which was delivered by the scholars in good style.

A collection was then raised, after which proposals for membership of the Parent Society, located in Philadelphia, were tendered. Fifty-eight persons were proposed and constituted life members, at the rate of $20 apiece, making $1160 raised by that means alone, in the course of an hour. The Secretary announced that $76 had been raised by penny subscriptions by the scholars during the year, and that $48 had been obtained by collections mentioned above, making in all, to be handed over to the Parent Society, for the maintenance of missionaries, from one Sabbath school alone, *twelve hundred and seventy-eight dollars.* This has never been equalled by any Sabbath school in the Pittsburgh Conference, and shows that the congregation are fully aware of the importance of the cause.

With the Doxology and Benediction, the meeting adjourned, every one highly pleased with the very interesting exercises, and with the success of the Association in securing so large a contribution.

COUNTRY SEATS.—We invite the attention of those who are desirous to escape from the dust and heat of the city, to the advertisement of H. D. King, Esq., offering for sale a number of valuable building lots upon the Scotch Bottom, on terms unusually favorable to purchasers. The property referred to is located on the Braddock's Fields Plank Road, at the distance of three miles or fifteen minutes drive from the city, and extends from said road to the Monongahela river. Although perfectly level, its general elevation is about 50 or 60 feet above the bed of the river.—It has the advantage moreover of being subdivided into building lots of from 2½ to 3 acres each, upon which the purchaser may indulge his taste at leisure, instead of being hampered and straightened by the miserable and short-sighted policy which has cut down nearly all the property in the vicinity to the dimension of mere city lots.

The whole Scotch Bottom is indeed a beautiful plateau, resembling, in the general structure, elevation and extent, the platform which composes the city of Allegheny; and with its fine harbor, its advantages of access without crossing any of our rivers, the abundance of coal in its immediate vicinity, it seems destined to receive the overflow of the latter, and to become its precursor, if time not merely a suburb of Pittsburgh, but a great manufacturing city in itself. We invite our readers to take a look at the property, and observe how much it has to recommend it both now and prospectively.

PATENT THRASHER AND SEPARATOR.—Our readers will see by a reference to the advertisement of Mr. C. W. Carrol in another column, that that gentleman is now prepared, from new and extensive arrangements entered into by him, to supply an unlimited demand for his patent Thrashers and Separators. These implements have been growing in public favor very rapidly, owing to the great amount of work they perform, and the comparatively low prices at which they are sold, accomplishing in one-half the time more than three times the labor of any other machine. The implements thrash, winderstand, two hundred and fifty bushels of wheat per day, and eight hundred to one thousand bushels of oats per day.

Mr. Carrol has secured the services of Mr. Goldbaugh, as foreman in his establishment, whose long experience well qualifies him for the manufacture of these instruments, and has also employed an additional number of the most skilful workmen, so that all the work turned out from his establishment can be relied on as perfect in every particular.

At the Fair held in this city last fall Mr. Carrol received first class premiums for the Thrasher and Separator. Mr. Carrol can be found at his old stand, No. 568 Penn street. His prices any one may know in his advertisement, or can be ascertained by calling on him at his establishment. wlt

The sale of superior Household Furniture and extra fine Piano Forte at the residence of the late Major John McGandless, dec'd, No. 198 Fourth street, will take place this morning at 10 o'clock, by P. M. Davis, auctioneer.

NEARLY FATAL ACCIDENT.—About 3 o'clock yesterday afternoon, a German boy about 15 years of age, engaged by Dr. Corsman, of the 5th ward, as hostler, while fixing the bridle on the Doctor's horse, was very severely injured by the horse running off. The boy received a cut on the back part of the head about two inches in length, fracturing the skull, and another, about half the size, on the side of the head.—He was also otherwise injured. He was immediately taken to Dr. Corsman's office, where his injuries were dressed. It is the physicians' opinion he will recover.

A little child, while running across Penn street to see the injured boy, stumbled and fell beneath a dray, and in a second more would have been crushed. The dray was stopped, however, in time to prevent any injury. Penn street is always crowded with vehicles of every description, and with little children, who expose themselves in the most careless manner. It is really a wonder that there are so few accidents.

RAILROAD ACCIDENT.—An accident occurred on the Ohio and Penna. Railroad, at Darlington station, about twenty-nine miles from this city, yesterday. It appears that six Irishmen, laborers on the road, had taken possession of a handcar, and were propelling it along the road towards Pittsburgh, when the Fast Express train, James F. Kerr, conductor, going west, came in collision with it. Fortunately the laborers sprang from the car before the collision. The force of the contact threw the whole train off the track, which ran completely through the Darlington station. The locomotive and two baggage cars were very much damaged. Strange to say, though the cars were crowded with passengers, not a single person was injured.

UNPROVOKED ASSAULT AND BATTERY.—George Pierce, a well known individual, yesterday afternoon assaulted in the most unprovoked manner, two Irishmen, whom he had never seen before, on Diamond Alley, near Wood street. With great difficulty Pierce was arrested, and, followed by a very large crowd, was committed to the tombs for a hearing before his Honor the Mayor, this morning.

HOUSE FURNISHING GOODS.—Messrs. Picot & Shotwell, No. 47, Maiden Lane, New York, have in store and are constantly receiving all the different styles of house furnishing goods, which they offer to dealers on the most reasonable terms. Merchants visiting New York would do well to examine their stock before purchasing.—Messrs. P. & S's advertisement can be seen in another column.

FIGHTS.—There were no less than four fights on Saturday night on Penn street, in the 6th Ward. One between Bowley and M'Intosh resulted nearly fatally to Rowley, who is scarcely expected to survive.

In the same locality on Sunday night, there was another fierce affair in which James Kendrick had his cheek much cut very severely.

FEROCIOUS DOG.—Robert Otterson made oath before Mayor Park yesterday, against George Bethler, of the Second Ward, Allegheny, for keeping a ferocious dog. The dog had bitten him very severely last week. On promising to keep the dog chained, he was discharged by paying the cost.

CAPT. ADAMS, of the Express train of the Pennsylvania Railroad Company, is a very clever and gentlemanly person to travel with. He does everything that a conductor can do for the comfort of passengers.

RUN OFF.—A horse attached to a Rockaway carriage ran off yesterday morning in Wood street, but its progress was arrested by a by-stander before any injury was done the occupants of the vehicle.

APPLICATION FOR AN INJUNCTION.—An application for an injunction against the O. and P. Railroad Company, for building a house over the rails on South Common, was filed yesterday.

TERRIBLE FALL.—A little boy named William Ott, whose parents reside in Congress street, fell over a precipice fifty feet high, lighting on the rocks below, on Boyd's Hill, on Sunday.—His skull was fractured, and both arms were broken. Dr. A. G. Walters dressed his wounds.

SURETY OF THE PEACE.—Owen Gallagher was arrested in Lower St. Clair township, yesterday, on a charge of surety of the peace, preferred by his wife. He was committed to jail in default of bail by Mayor Riddle.

LARCENY.—Vescar Blair was committed to jail yesterday, by Mayor Riddle, for the larceny of a vest, from the Clothing Store of Ambrose Allen, on Liberty street.

ASSAULT AND BATTERY.—George Conway was arrested and fined yesterday for assault and battery on oath of Margaret Morrison.

ASSAULTING AND BATTERY.—Peter Finney, whose leg was broken a week or two since in Ormsby's coal mine, had his leg amputated on Sunday by Drs. Walters & Wood.

ARRIVED.—Alderman Starr, of Ohio township, committed Jno. D Hyke and Maria Allen, for adultery, on oath of Emily Hyke, of Detroit, Michigan.

The total value of the foreign exports from Baltimore, for the week ending Thursday, was $154,356. The export of breadstuffs for the week comprises 13,822 bbls of flour, 950 bbls. of corn meal, 15,000 bushels of corn.

The cause generally assigned for the movement of the Bank of England in raising the rate of interest, is a fear of the universal activity of speculation existed in London in the preceding three or four months. It is said that the expenditures of England, in the way of enterprise, is just now larger than it has ever been before; there never was more building going on; never did land in the neighborhood of the metropolis and other large cities command so high a price; never were so many manufactories, warehouses, shops, public houses built or enlarged—never was there so much ship building, especially in the more central kinds, in manufacturing districts, as there now was there so many people said to be making their fortunes—never were artisans and even laborers so well paid—never was there so much spent in luxuries, in dress, in entertainments, in education, and in all that fluctuates with wealth or credit. Never was there so much spent in railway travelling, and just now it must not be forgotten that there is a revival of railway excitement in the form of new branches and improvements made with the object of securing trade from competition. One company alone has recently raised more than three millions sharps for this purpose, and there are many other projects of similar kind raising proportionate sums. In order to check this disposition to invest on speculation, therefore, the bank raised its rates.

The London Times appears to be of opinion that the raising of the rate of interest was an unnecessary precaution on the part of the Bank of England, and not called for in the present state of financial and commercial affairs. It says:

"We have very little doubt that there is more money afloat in this country than there ever was before; not only the floating capital, but the fixed. On promising to keep the dog chained, he was discharged by paying the cost.

NEW DISCOVERY FOR THE EYES.

SPECTACLES, &c., GROUND ON THE exact principle of spherical accuracy, by G. SOLOMONS, the celebrated Optician, who is the Inventor and Manufactory and London Optical Establishment, No. 104 Second street, London—established more than a century ago.

G. SOLOMONS, the sole inventor of the Improved Spectacles, and various improved Glasses, is now on a professional visit to this place, and may be consulted at his rooms, LAFAYETTE BUILDINGS (in front of new and Fourth streets, first door on Fourth street.

The principle of grinding the above named optical tours of the United Kingdom, where he has experienced the most flattering encouragement, and "eating forward" with the same success in this city. Persons who have impaired vision, will find in the above a treasure worth ascertaining his arrival from London, as he has brought a large assortment of his newly invented and improved SPECTACLES. Such is the superiority of these Glasses, that persons having worn a pair of them for a few days, will never after be induced to wear any other.

Those wishing to purchase are respectfully invited to call and see for themselves.

Fifteen Dollars Only

FOR A BEAUTIFUL HOMESTEAD, AT the village of Bear Vale, delightful and healthy location. Eighty Farms, worth over $12,000, 20x30 Building Lots, to be disposed of at the low price of FIFTEEN DOLLARS EACH, 1853. A large number of these are already engaged. Many of the lots near there have been sold for from $20 to $30 per foot. Those who purchase for such three lots are now sold, showing that the purchasers have made a good investment.

Real estate on all parts of Long Island is rapidly advancing in price, and in consequence of the numerous railroad and sundering purposes, and permanent investments. Persons who purchase at Bear Vale will find that the land at East New York, L. I., for $10,000, and $14,000 be been cut-ved for 72 acres, and resold by the owner, to the Long Island Railroad Co., for $30,000, and that land which was from $600 to $1,500 per acre, according to location, and the same kind of land in other parts of the island, from its location and capability of producing all kinds of grain, fruit and vegetables, will be found to be worth from 100 to 200 per cent more from five to ten times its present cost.

Each subscriber will receive a Building Lot for $15 per lot, and 2 acres of land, a farm of from 2 to 20 acres. The shares are $15, payable in monthly installments of $1 each. Every subscriber will receive a deed made out immediately after the distribution, and delivered at every one of the lots.

The village of Bear Vale, where these lots are located, is but a short distance south of the celebrated Lake Houkokomus, the beauty and romantic appearance of which are praised by all who visit it. Here may already be found a Post Office, Store, Hotel, Blacksmith Shop, Wheelwright, &c., &c., and a number of handsome cottages, which are finished by Messrs. Vale, Lakeland, and Hermanville, will shortly become the centre of a large and flourishing district, and the "Central Depot" of America. From the published statistical accounts of the Long Island Railroad, it will be seen that the land in that Long Island is the most healthy location within its boundaries, and is rapidly increasing in population, than in any other part of the country.

The farms from which I am now selling at from $20 to $30 per acre, are of the same character as to soil as that with those now under cultivation, which cannot be purchased for less than from $100 to $200 per acre, and those with no better soil naturally sells from $200 to $300 per acre.

WOLFE'S CELEBRATED SCHIEDAM AROMATIC SCHNAPPS—Deeming it necessary to remind any regular member of the Medical profession of the established properties of pure Holland Gin in many diseases of climate, I respectfully invite your examination to a very superior article, manufactured by myself exclusively, at Schiedam, in Holland, by a process peculiar to my own factory. It is flavored and medicated, not by the common hand-berry, but by the choice botanical variety of the aromatic Indian Juniper Berry, whose more virulent extract is distilled and rectified with its spirituous nutrient, and thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendent, in its genial and medicinal properties, to any Holland Gin heretofore known.

Amid the ranks of inferior distillations with which the market is now flooded, physicians find no little difficulty in procuring a good and pure Gin, which they can prescribe with confidence in its remedial effects. As an importer of twenty years' standing, in the city of New York, and possessing a matured experience in the manufacture of HOLLAND GIN, especially, I beg to submit to your attention my AROMATIC SCHIEDAM SCHNAPPS, article which cannot fail to realize your utmost expectations, and I shall be happy to forward to you a bottle of it, free of charges, in answer to a letter intimating your readiness to accept it.

It is now scarcely one year since I have prepared and distributed my SCHIEDAM GIN exclusively for medicinal purposes, yet within that time I have received numerous letters, both from physicians and patients, testifying to its extraordinary efficacy in the cure of fevers, incipient Dropsy, and affections of the Kidneys and Bladder generally; also in Dyspeptic Maladies, when taken in proper quantities as a Dest Drink, and especially at dinner, is found, by uniform experience, to be eminently efficacious in the most obstinate cases, when even the best of the usual remedies have failed to afford more than temporary relief, and I have no doubt that it would yield similar results with precision and certainty in your own professional experience.

The Aromatic Schiedam Schnapps is put up in strong bottles, pints and quarts, neatly covered and labelled with my name embossed on the bottle also, a fac simile of my signature on the label, and my seal on the cork.
