HOME MATTERS.

COURT OF QUARTER SESSIONS.—Before Judge McClure, President, and Associates Adams and Boggs.

Commonwealth vs James Torrence, indictment adultery, on oath of Mary Jane Wilson, of Elisabeth. The defendant was charged with having married Mary J. Powers, on the 6th April, 1847. Alderman Rial was called upon to prove the marriage. In defence it was contended the marriage was not valid, inasmuch as the portion of the ceremony "will thou take this man to be thy wedded husband" was omitted. It was shown that the woman married him from compulsion, and through fear of her refusing her assent before the Alderman, that portion was at the request of her father omitted. The jury have not returned a verdict.

Commonwealth vs Sarah Lewis and Eliza Miller. Indictments, keeping a disorderly house of ill-fame in the 6th Ward. No verdict.

Commonwealth vs Owen Gallaher, indictment assault and battery with intent to kill, on oath of his wife. The prisoner plead guilty to the first count, and was sentenced to pay a fine of 6¼ cents and the costs.

RAN AWAY.—The horses attached to the iron wagon of Messrs. Graff, Lindsay & Co, ran off yesterday morning about nine o'clock, on Sixth street. The horses started at a terrific rate, throwing the iron in the wagon in every direction, and plicking the driver immediately between them. He was so close to the horses that they were unable to kick him. On the horses dashed, breaking down tree boxes and barber pole; until, opposite Dr. Gazzam's office, their course was arrested. Unfortunately, while extricating the driver from his perilous situation, he was kicked severely on the knee. He was conveyed into Dr. Gazzam's office.

FIRE.—A fire broke out yesterday afternoon, about 2 o'clock, in a house on Fifth, by a family by the name of Hogbon, since leaving the Manchester City Landing. The roof was burnt off, but by the prompt action of the firemen, the flames were subdued without doing further injury. The fire is supposed to have been the work of an incendiary.

RIOT.—On Wednesday night, the members of the Good Intent Fire Company undertook to have out a meeting in Allen's on Prospect street, but owing to the active exertions of the police, their intention was frustrated. Warrants were issued for their arrest, but the officers have succeeded in securing only one, O'Donnell, who was committed for riot and disorderly conduct. The hose, belonging to the Company, was attached.

ROBBERY.—The thieves of Allegheny have again commenced operations, though in a small way. The cellar of Mrs. Sloan, on Bank Lane, was visited several nights since, and all the catables removed. The thieves were endeavoring to gain access to the upper story, but the noise aroused the family, and they were obliged to decamp.

GAMBLING HOUSE.—B. Donaldson made oath yesterday before Alderman Major, against a man named Joseph Maloney, a proprietor of one of those cellar tippling houses on the wharf, for keeping a gambling and tippling house. The man was arrested, and in default of bail, was committed to jail.

PETITION.—A petition, very numerously signed by our German population, has been written, and will be forwarded to Governor Bigler, in a day or two, praying for a remission of the heavy fine ($50 and costs) imposed on Dr. Hartmeyer, convicted of an assault and battery, several days since.

COUNTRY SEATS AT AUCTION.—This afternoon a number of desirable lots in the village of Tullytown, will be sold at public auction, by P. M. Davis, auctioneer. Omnibuses will leave the corner of Second and Smithfield streets, at 2 o'clock, to convey purchasers to the grounds, about 24 miles from the city, between the Brad-dock's Field Plank Road and Monongahela river, and is one of the finest portions of the well known "Scotch Bottom" tract.

THE COLORED FREE-MASONS.—According to announcement, the Colored Free-Masons turned out yesterday, and paraded through the two cities. Their number was not large, but they presented a fine appearance. They were accompanied by a brass band.

FIRST PRESBYTERIAN CHURCH.—The foundation work of this building has been completed, and the stone work of the towers commenced. Operations are being pushed with great energy.

BLACKGUARDISM.—A man named John Kilnn was arrested by the Allegheny police yesterday evening, on Ohio street, for indecency towards females as they were passing. He will have a hearing to-day before Mayor Park.

BEING GRADED.—Isabella street, Allegheny, has at length received the attention of the Councils of that city. A large force of laborers are at work grading and paving it.

SURETY OF THE PEACE.—A. Baker was committed to jail yesterday by Alderman McCune, of the Ninth Ward, for Surety of the Peace, on oath of Nicholas Ritenwait.

DISORDERLY CONDUCT.—There were eight commitments for disorderly conduct yesterday—one by Mayor Park, five by Mayor Riddle, one by Alderman Thompson, and one by Alderman Major.

RECOVERED.—Stofel, who was so severely cut by Cornelius, some weeks since, on the bank of the Allegheny river, has recovered sufficiently to be able to walk, though he is much crippled.

NEW CHURCH.—A very fine Presbyterian Church is being erected on Ridge street, West common, Allegheny city.

DISCHARGED.—The jurors, not empannelled, were discharged from further attendance until Monday.

GOVERNOR BIGLER was expected to have arrived in town last evening.

Hearings' sale of estes for "Country Homes" takes place to-day at 11 o'clock, A. M.

THE District Court was not in session yesterday.

New York, May 31, 1853.

THE DIRECTORS of the Association for the EXHIBITION OF THE INDUSTRY OF ALL NATIONS, give notice that the Exhibition will be opened on the FIRST DAY OF MAY, 1854.

In making this announcement, the Directors avail themselves of the opportunity to state that the building which they have erected, and which will on that day have greeted, will they believe, fully meet the just expectations of the public.

It is proposed that it should be known that, in order to afford ample room for the active talent and skill of every countryman in machinery and agricultural implements, we have increased the size of the building by adding one-third to its original dimensions, and have finally completed so that we have now for the purpose of exhibition two hundred and thirty thousand square feet, or nearly five acres.

For this their plans to a display merely curious and attractive, the Directors have organized a department of mineralogy and geology, in which rooms of the most extensive and costly character have been completed; and the foundation it thus laid of a most valuable national collection of the minerals of the country.

The Directors had hoped to open the Exhibition at an earlier period, but the novelty and intricacy of the style of construction put forth in the building, and the uncertainty which it has been the object of the Association to attain, have produced delay, and it has been impracticable for the Directors, notwithstanding their utmost vigilance and their most earnest desire, to announce their opening at an earlier day.

In regard to the general character of the Exhibition, the result promises to be most gratifying, if not in excess of the confidence manifested towards it by the government of the United States, a conference of the chief officials of the governments of foreign countries. It will unquestionably be the most attractive exhibition of the products of the world of the results of science and the productions of industry that has ever been made, and one which will tend to increase the active emulation of the age in every branch of intellectual development.

The sole charge for the interior of the building, its division, arrangements, classification and police, has been confided to two officers of the United States Army, Capts. S. F. Dupont and C. H. Davis, and the sanction of the government to the appointment of these gentlemen, who have so much distinguished themselves in the special services in which they have been employed by the country, is the best confidence repose and the interest felt by the highest authorities of the country, in the general object and success of the Exhibition.

These gentleman have organized their departments as follows:—

J. M. Batchelder—Secretary of the Superintendent.
Samuel Webber—Arrangement of Spaces and Classification.
Prof. B. Silliman, jr.—Mineralogy and Chemistry.
J. R. Johnson—Agricultural Implements.
Joseph E. Holmes—Machinery.
Edward Vernon—Textile Fabrics.
Felix Platti—Sculpture.

The official Catalogue and the illustrated Weekly Record of the exhibition are to be published in the building, by Messrs. G. P. Putnam & Co., under the supervision of the Association.

The Directors have sensibly felt the confidence reposed in them by their fellow citizens, in all parts of the country; and they will continue to make every effort to satisfy that just expectation.

DIRECTORS.

HERRINGS—20 bbls. No. 1 gibbed Herrings, receiving per Pa. R.R. and for sale by R. DALZELL & CO.

BY TELEGRAPH.

FROM CALIFORNIA.

NEW YORK, June 24.

The Northern Light, from San Juan, arrived at New York this morning, with 400 passengers from California. She brings California dates from San Francisco to the afternoon of the 1st June. The transit of the Isthmus was effected in 40 hours. The river was in good order.

A private letter says that on the day the steamer sailed a duel was to take place between Senator Gwinn and J. W. McCorkle, member of Congress; the weapons chosen were rifles, distance thirty yards. The cause is said to be disparaging language used by Mr. Gwinn against his antagonist. Their friends were trying, without effect, to make an amicable arrangement of the difficulty. Mr. Marshall acts as the friend of Mr. McCorkle. Wm. Damerons, naval officer, is the friend of Mr. Gwinn.

SAN FRANCISCO, MARKETS, May 29.—The transactions of the week in Provisions and Breadstuffs were large. Provisions closed slightly improved. The prices of Flour were hardly so firm. On the evening of the 31st of May a fair jobbing business was reported to have been done during the day. Flour was a shade lower. Gallego's inspected was sold at $10,87a11 per bbl. Mess Pork held at $22; small sales clear at $22. Lard in kegs 15½; Hams 20. Butter 33a36.

The steamers Cortes, California and Panama were to sail on the 1st of June from San Francisco, the latter with over two and a quarter millions of gold on freight. The principal shippers were Page, Bacon & Co., $1,000,000; B. Davidson $200,000; Burgoyne & Co. $200,000.

A destructive fire occurred at San Francisco on the 31st of May, which destroyed 20 buildings on California and Reasy streets. The loss is $30,000.

The Sonora expedition is still talked of. The Times says a Baltimore Clipper lying in the harbor had been engaged to convey the party to their destination.

FURTHER BY THE NIAGARA.

NEW YORK, June 24.

A telegraphic despatch was received at Liverpool on Saturday, from Berlin, which states that two divisions of the 4th Corps of the Army of the Danube, at a certain distance from the river Pruth, the 3d Corps had scarcely quitted the Polish fegutier. At St. Petersburgh, sufficient uneasiness prevailed to cause a general dulness in the market, but not actual alarm seems to have prevailed, and but little was known as to the general course of affairs.

The tendency of exchange was still in favor of England.

A despatch from Odessa, dated May 20th, says Menchikoff had gone to St. Petersburgh, but remained at the naval depot at Tebastpol with the Russian fleet.

A despatch from Constantinople dated 31st May, was received at Trieste, which contradicts in a positive manner, the report that a mediator had been refused.

In Spain a ministerial crisis is at hand.

BALTIMORE, June 24

New Orleans papers are received as late as due.

The National Intelligencer says that Dr. Parker will probably be continued as Secretary and interpreter of the China Mission, and that John Ross, of Broome, will also be attached to it.

The Rev. Dr. Sharpe, of Boston, died last night at the residence of Robert P. Brown, in Baltimore Co.

DETROIT, June 24.

The steamer Propeller Challenge, on her first trip from Chicago, exploded her boiler on Wednesday, near Mackinaw, killing five persons and wounding several others.

MONTPELIER, Vt, June 24.

The Vermont State Democratic Convention have nominated John S. Robinson for Governor; Jefferson Ridder, Lieut. Governor, and J. A. Page, Treasurer.

HIDES—a sale of 45 dry flint Hides at 12.

MONETARY AND COMMERCIAL.

The Erie Railroad Company have deferred their semi-annual dividend from July 1st to October 1st. The reason assigned is that the present division of the year is unequal, the road earning much more from July to January than from January to July. By changing to October and April, the earnings of the year are more equally divided.

The Michigan Southern and Northern Indiana Railroad Company have declared a semi-annual dividend of 7 per cent. payable on the 5th of July. They have also determined to issue to the stockholders at par, 50 per cent. of new stock, for the purpose of completing the Air Line Road from Toledo to Goshen, which they have put under contract.

The gross revenues of the New York State Canals, for the second week of June, amounted to $106,106, against $91,054, same week last year. The total receipts of the same to the close of the second week of June, are $780,821, against $740,295, same period last year. In the receipts at Tide-Water, the increase in certain articles are thus marked. In Flour there is a decrease of 166,000 barrels:

	1852.	1853.
Beef, bbls,	15,787	22,047
Cheese, lbs,	258,000	339,000
Butter, lbs,	129 600	235,200
Lard, lbs,	4,979,200	6,327,100
Bacon, lbs,	4,569,800	9,606,200
Wool, lbs,	1,450,000	317,000
Pork, bbls,	47,519	54,163
Wheat, bushels,	1,790,537	881,915

LOCOMOTIVE MANUFACTURE.—Mr. Baldwin's circular states that rails, several thousand tons, have been contracted for during the past week, principally on continental account. Chairs are up, and the rail mills are in full operation at present rates. Manufactured iron is more inquired after by the shipping trade, and there is a good deal of activity in the low price of the article is attracting the attention of speculators in Scotland, who prepare the way for a better tendency, at six, cash buyers, and 60s three months for merchantable bars; other articles remain much in their place: the market leaves off quiet at 222 6s. on the spot, and £222 10s for July and August shipment. The stock is diminishing. Manufactured iron is up 5 ₱ ton in the districts of the manufacturers, and 10 ₱ ton in sale and sales, and there is a firmer feeling in the market, the price at £27 10s ₱ ton. Tin continues in fair demand. Tin plates—The makers have determined to reduce their make, the article is looking firmer.

FISH.—Several fishing vessels have arrived since our last, but with small fares from Mackarel. The arrivals to hand and prices of new No 3 have reached to $7,00@$7,50; $7,75 ₱ bbl., which are the closing rates. Codfish have been in good demand. Sales of large at $2,25@$2,50 as to quality, and Scaltish at $3@3,25 ₱ qtl. In other descriptions there is no change to notice.—Boston Shipping List.
