HOME MATTERS.

THE HABEAS CORPUS CASE.—Judge Williams, yesterday afternoon, in the case of Schwimbly vs. the Sheriff and Jailor, decided in favor of the Sheriff, and remanded the prisoner back to custody. His Honor remarked that in forming his decision he had considered two points. 1st, as to whether the Sheriff could refuse to discharge a prisoner, on a release by the Commissioners. 2d, as to whether the Sheriff had the right to re-arrest a prisoner after having allowed him to escape (considering the acts of the Jailor, Mitchell, as those of the Sheriff himself.)

In the first place, the Sheriff had the right to refuse the discharge of a prisoner. There might be an agreement between the Commissioners and the Sheriff, by which a release from them would be sufficient.

In the second place, the Sheriff had a right to re-arrest the prisoner. The Sheriff was liable to a fine for permitting the escape of the prisoner, but was nevertheless bound to use his utmost efforts to re-arrest him.

SALE OF PROPERTY.—A public sale of real estate took place yesterday, at the Remington station, about one mile below Beaver, on the Ohio and Pennsylvania Railroad. The ground sold was a portion of the beautiful farm of Z. W. Remington, Esq., which has been laid out in lots suitable for country seats and gardens. All the ground between the Railroad and river was sold. The sum was laid off into four lots, of from 5 to 6 acres each. Three of the lots sold at $160 per acre; the fourth lot, containing a little over five acres, brought $185 per acre. The purchaser was Mr. Lewis, of the Intelligencer office. A lot between the Railroad and Turnpike, of about one acre, brought $505. The purchaser was Mr. Shyrock, printer. A beautiful lot of 22 acres, above the turnpike, was bought by Mr. Abraham Patterson, of the firm of R. & J. Patterson, builders, for $160 per acre. A great bargain.

The whole line of the Railroad, from Hayswille to Beaver will be shortly bought up for country seats. Nowhere is there better locations or finer scenery to be found.

STABBING.—A man named Lundy, a chain maker, residing in the Fifth Ward, while intoxicated entered the Tobacco Warehouse of Mr. George Weyman, Smithfield street, who owning his condition, advised him to leave the building. At this the man drew a knife, and attempted to cut him, but a workman sprang between and received the blow in his arm, inflicting a severe wound. The man then escaped, but was arrested by Hague, on Fourth street, and committed to the lockup, where he will remain until he has had a hearing this morning.

ILLUSTRATED NEWS.—Sundry interested parties are puffing another Pictorial at the expense of the *News*, by intimating that the *News* has reduced its engravings, and that I have sold out, which is all false.

The Illustrated News has excluded its advertising pages, but the same number of excellent Engravings are continued as heretofore, for the beauty and improvement of which no pains or expense will be spared. A magnificent *Oyster Palace Supplement* will be issued next week, and presented gratuitously to subscribers. It will contain full descriptions and illustrations of that celebrated structure. Another magnificent *Presentation Engraving*, the largest ever issued in America, will shortly be published and presented gratuitously to subscriber. Never has greater enterprise been used to improve the paper, and never has its subscription list stood higher.—Subscribers will receive, in real merit of Engravings, and in Supplements and otherwise, fourfold the value of any other pictorial paper issued in this country. My interest in the *News* can be bought for any price. The means, abilities, and enterprise of its publisher, will eventually produce a paper unrivalled in the world for its mechanical and artistical beauty, confidently awaiting which, the attacks of these *interested parties* count but little either with the public or myself. P. T. BARNUM.

BAD ACCIDENT.—On Chatham street, a boy by the name of William Long, on Tuesday afternoon, fell from a second-story porch, between twenty-five and thirty feet in height, fracturing his skull in a most shocking manner. For half an hour life seemed extinct, reaction then taking place accompanied by stertorous breathing. An operation was performed by Dr. Sterret, and a piece of depressed skull were removed, with a quantity of coagulated blood. The breathing immediately became natural, and the little sufferer appeared greatly relieved. Owing to the extent of the injury, however, but a faint hope can be entertained of his recovery.

CANAL BUSINESS.—During the month of June, there have been 16,789,411 lbs. passed over the weigh locks, in Allegheny, and the receipts have been $11,569 76. The business during June has been much smaller than in previous months, owing to the repairs on the Freeport Aqueduct, the fire, and the break in the Canal.

From the 1st of July, until Wednesday evening, there have been 7,410,618 lbs. passed through. The tolls are $4,688,03.

BAD ACCIDENT.—Mrs. Kirby, the wife of Geo. Kirby, at present in California, who has been confined in the Hospital for some time past, being deranged, sprang through the third story window of the building, breaking her arm, dislocating her right, and injuring herself very seriously internally. We understand she cannot survive.

FIRE.—About twelve o'clock yesterday, a fire was discovered on the roof of a house in Wallace's court, on Fourth street, near Smithfield, occupied by W. P. Giles. The alarm was immediately given, and the engines promptly arriving, the fire was extinguished with but little damage to the building.

NOT EXPECTED TO LIVE.—A man named Chas. Sykes, in a fit of intoxication, stepped out of the Bull's Head Inn, on Second street, a few days ago, falling on his back on the pavement. He is still living, though completely paralyzed. His physicians, we understand, entertain no hope of his recovery.

BEAUTIFUL ROOM.—The Pa. R. R. Company have finished a room at the passenger depot for the exclusive use of ladies, in a style of great elegance. The ticket office opens into the room, thus enabling the occupants to procure their tickets without leaving the room.

DOUBLE TRACK.—A double track to New Brighton, on the Ohio and Pennsylvania Road has been nearly laid, and will soon be ready for use. A new freight siding, on stanchions, is being made, in order to accommodate the increasing freight business.

LARCENY.—Barbara Lightner was committed to jail, yesterday, by Alderman Parkinson, for the larceny of some dresses, shoes and money from Robert King, of the Fifth Ward.

DISORDERLY CONDUCT.—Ellen Ford instituted a suit against Alice Blakely, before Alderman Parkinson, yesterday, for disorderly conduct, which resulted in the imposition of $ fine, which was paid.

A large number of our Catholic citizens, with Bishop O'Conner, left the city yesterday morning to attend the commencement exercises at St. Xavier College, near Latrobe.

NEARLY COMPLETED.—The new Station House at East Liberty will be completed in about a week. It is a very elegant building, and reflects credit upon the architect, Oliver W. Barnes, Esq.

VAST DIFFERENCE.—Freight is now carried to Philadelphia at the cheap (average) rate of 40 cents per hundred. A vast difference between that and the rates paid during the days of pack mule transportation.

EXPENDED.—The $50,000 in silver, received by the Custom House officer, Mr. Hastings, has been all given out, and at present there is as great a demand as ever for silver coin.

HEAVY BUSINESS.—The Eastern trains on the Central Railroad, on yesterday morning and the evening previous, carried over two hundred passengers each.

TIPPLING HOUSE.—Alderman Daft committed John Davis, yesterday, for keeping a tippling house in the Eighth Ward, on oath of Thomas Wilson.

DEATHS.—Since the 1st of January, the Physician to the Board of Health has reported 340 deaths, of which 198 were those of males, and 142, females.

NEW IRON WORKS.—Thirty-eight Welch Iron Manufacturers, from the West, passed through the city yesterday on their road to Danville, Pa., where they are about to erect extensive Iron Works.

COMMERCIAL.

PITTSBURGH MARKET.

OFFICE PITTSBURGH GAZETTE, }
Friday Morning, July 15, 1853. }

The market yesterday was unchanged, with but little animation, and but few leading transactions. Flour has an upward tendency; and is now firm at $4,00 for superfine on arrival, but the large advance in England, noted by the last arrival, has had no immediate effect. Present rates here are above a shipping point, and unless prices in Philadelphia should advance sufficiently to leaves margin for shipping, the rates in this market will be guided solely by the demand and supply for home use.

The balance report to the stockholders, that the road is finished and in operation from the Atlantic, to the crossing of the Chiagay river at Barbacoas, a distance of 23 miles and above the same more will be in operation, as soon as the superstructure of the bridge which is to be placed across the Chagres river, on the stone piers which are now completed.

The New Orleans Coffee circular of the 1st instant states the imports of Coffee into that port for the year ending July 1st, at 381,513 bags against 373,340 for the previous year. The sales for consumption reach only 322,000 bags, against 402,000 for the previous year, a decrease of 49,132 bags. The stock on-hand was 80,346 bags against 26,979 last year.

The Circular also states that the total export from Rio de Janeiro from the 1st of May, 1852, to 1st May, 1853, were 1,826,779 bags during the previous year, showing an increase of 142,846 bags this year; the exports from Rio to the United States for May, 1852, to 1st May 1853, were 1,066,311, against 901,418 during the corresponding period of 1851-2, showing an increase of 164,893. The present stock of Rio Coffee at all the importing ports of the United States is estimated at 230,000 bags, against 130,000 at the corresponding date last year, exhibiting an increase of 100,000.

The stock on hand in Baltimore is variously estimated at from 60,000 to 75,000 bags. The stock in Philadelphia, as we have previously stated, was small. The fact that the imports from Rio this year show an increase of over 150,000 bags, and that the stock on the seaboard are so heavy, would seem to tend to depress the market; yet we find holders firm in all the leading markets.

The stock on hand in the Philadelphia market is not very heavy, but is sufficient to meet all fair demands, and Baltimore markets that stocks can easily be replenished. We believe our dealers are buying sparingly in the eastern markets.

Provisions continue to tend downwards, in all the Eastern markets. During the past week the receipts of larger hog crops are endeavoring to avoid the ascertained fact of a short crop. Sixteen counties in Kentucky, show an excess of 145,000 head. Owing to a short crop in Ohio, the receipts at Cincinnati have not made to the Auditor of State until September, consequently will be light. It is thought that before the statistics for this State will be obtainable. We may state that a letter from a gentleman of high standing in the West, is being greatly overestimated. Packers are holding for high prices, but we think that the present high price will not induce farmers to feed with high prices, consequently the receipts will be light, and before the close of the present of the supply depends very much upon prices, and the Gaz.

The reports of the Tobacco crop are decidedly unfavorable, and they would indicate that the yield cannot possibly be over one-third of the average crop. Low prices must be made for "croppers" generally. For two years they have been encouraged by the planters to make unsound-ly made arrangements for an extensive crop. The dry weather has generally injured the plants, and prevented them from being set out as early as usual. In Maryland the case is more favorable for planting since the rains, and we think the present crop the remainder of the season there will be a much larger yield than was anticipated. Especially of common qualities.—Gaz.

How much this result of two years of unfavorable weather has been shipped East, taken chiefly for the purpose of filling out old contracts, we cannot say, but there are no warehouses destined for New York and Boston, and the stocks are reported as free of freight will justify. These shipments will remain for some time to come, as they will not vary materially, as small additions are constantly being made to the stocks, and we have no doubt that in the neighborhood of 10,000 bales, and should what is intended to be shipped be unusually small, we may have on hand at least 8,500 bales still on hand. Nearly or quite 50,000 bales have been received since the first of January, and it is generally conceded that 65,000 if not 70,000 bales will be received before the close of the year; being the largest arrival in any one year since 1847.—Mobile News.

NEW WHEAT.—Two lots consist ng of 156 sacks were received by the Niagara this morning from Monterrona and Columbiana, Illinois River. These are the first shipments of the new crop from the upper river, the season having been unusually early. Another shipment is expected to-day or two weeks more will bring large quantities, and should prices and low rates of freight continue.

A gentleman connected with who has just returned from a trip through lowa, represents the crop of wheat throughout that State as very promising, promises a most abundant yield. Harvesting will not commence before the middle or latter part of this month, when, if nothing happens, more Wheat will be ready for market than can be moved from there. The yield of Western Missouri and Western Illinois according to the Missouri Republican, below the average. Still short owing to the ravages of the fly and rust. In many localities not more than one-half the crop will be saved, generally well over in that region of country, and the crop of all of it raised from seed. Southern Illinois—in the Illinois river, and throughout most of the interior—is the finest district in the state. Crop good and the yield generally satisfactory.—St. Louis News.

Amid the influx of inferior distillation with which the market is now flooded, physicians find no little difficulty in procuring a good and pure Gin, which they can prescribe with confidence in its remedial effects. As an import of twenty years standing in the city of New York, and possessing a matured experience in the manufacture of HOLLAND GIN, especially, I beg to submit to your att
