HOME MATTERS.

DEATH WARRANT OF DAVID JEWELL.

After a delay of seven months, Sheriff Magill yesterday at noon received the death warrant of DAVID JEWELL, convicted on the 24th of December last of the wilful murder of Daniel Mitchell, on the Fourth of July, 1852. The rumor soon spread through the city, and created great sensation, as it was generally understood that an official promise of pardon had been given the prisoner.

At half past three o'clock in the afternoon, Sheriff Magill, (the prisoner having previously received some slight intimation of the sad news) with the warrant in his hand, entered the prisoner's cell in company with about a dozen gentlemen, and announced to him the reception of the warrant. The prisoner appeared stupefied, but as the reading progressed and the terrible reality of this sudden overthrow of every hope burst on his mind, he sank upon the bed in his cell, overwhelmed with grief. The most profound silence reigned, interrupted only by his sobs and ejaculations, in the midst of which the party retired. The prisoner was most affected when the thought of his mother, wife and child, presented itself to his mind, the two former of whom, he declared, could never survive the blow. His wife has been sinking for some time, and on the day previously, for the first time for some weeks, was she able to visit him.

The most affecting sight of all was his father, who at the usual hour came to the prison with his grand-child, to visit the prisoner. He had heard the rumor, but regarded it as idle, and as his tottering steps bore him to the jail office, it was evident from his countenance that he had placed no faith in it. What was his grief when fully informed of the fact! He proceeded to the cell of his son, but the interview was strictly private, and was, at any rate, too sacred to be scanned by the public eye, or to be made food for a morbid curiosity.

Below, for the information of our readers, we give a correct copy of the death warrant. The Governor's signature was placed immediately below the seal of the State, which will account for it not appearing in the copy:

PENNSYLVANIA, ss.

In the name and by the authority of the Commonwealth of Pennsylvania, WILLIAM BIGLER, Governor of the said Commonwealth, to WILLIAM MAGILL, Highsheriff in the County of Allegheny, Esquire, Sends Greeting:

Whereas at the Court of Oyer and Terminer held in and for the county of Allegheny, at October term, A. D., 1852, a certain DAVID JEWELL was indicted for the crime of MURDER, and at the same term having been found guilty of murder in the first degree; was, on the twenty-fourth day of December, A. D. 1852, of said term, sentenced by said court "to be taken from hence to the place from whence you came, and from thence to the place of execution, and that you be there hanged by the neck until you are dead."

Now therefore, this is to authorize and require you, the said William Magill, High Sheriff of the county of Allegheny, to cause the said sentence to be executed upon the said David Jewell between the hours of ten o'clock in the forenoon and three o'clock in the afternoon of FRIDAY the SECOND day of SEPTEMBER next, ensuing the date hereof, in the manner described by the act of the General Assembly of this Commonwealth, approved the tenth day of April, *Anno Domini*, one thousand eight hundred and thirty-four, entitle "An Act to abolish public Executions," and for so doing this shall be your sufficient warrant.

Given under my Hand and of the Great Seal of State at Harrisburgh, this nineteenth day of July one thousand eight hundred and fifty-three, and of the commonwealth the seventy-eighth.

By the GOVERNOR:

E. G. GOODRICH,
Deputy Secretary of the Commonwealth.

HABEAS CORPUS.—Frank Porter was brought before his Honor Judge Williams, on a writ of habeas corpus, yesterday, and through his counsel, offered bail in the sum of $7000, which was accepted, and discharged. Of this, $5000 was in the civil suit, and $1500 in the criminal suit, instituted by Lemsler, and $500 to answer the charge of shooting a man named Cummins through the head, about a year ago, on the Braddock's Field Plank Road, during a race.

Lewis still remains in jail.

PICK POCKETS.—A lady, while leaving the cars at the Federal street depot, Allegheny, had a pocket picked, and $60 and a through ticket to Philadelphia taken. The thief escaped detection.

RELEASED.—John Patton, who was committed some time ago in default of costs, was discharged yesterday by a release from Alderman Symmes.

TEMPERANCE PROCESSION.—There was a large and very fine procession of the Sons of Temperance at Blairsville on Tuesday. The Hon. Augustus Drum and John M. Kirkpatrick, Esq., made speeches.

NEW DIVISION.—C. L. Magee, P. G. W. A., instituted the "White Cloud" Division of Sons of Temperance, on Tuesday. The Division is located in the Ninth Ward.

ASSAULT AND BATTERY.—Martha Wilson was held to bail by Alderman Steele, yesterday, for assaulting and beating Martha Barrett. The parties are rival confectioners, on Smithfield street, and the animosity engendered by that fact, caused the difficulty.

ROBBERY.—Two men took lodgings at a tavern owned by Mathias Haas, on Tuesday night, and on leaving next morning, left before any of the inmates of the house were up, with about forty dollars worth of clothing.

BAD HUSBAND.—A man named Patrick Smith, who resides in Charliers township, on the line of the Steubenville Railroad, was arrested yesterday on oath of William S. Skeen, for treating his wife in a brutal manner. Alderman Reinhart, before whom the suit was brought, held the man to bail.

AN suit for assault and battery, against the same defendant, was instituted by Mr. Skeen before Alderman Reinhart, yesterday, on which he was also held to bail.

ASSAULT AND TUMULT.—John Nock, on oath of Andrew Bumgartel, was arrested for assaulting and threatening him, and brought before Alderman Reinhart, by whom he was held to bail.

FIRE.—The roof of the hardware store of Bown & Tuley, Wood street, near Virgin alley, caught fire, yesterday, from the chimney. It is supposed, but was extinguished before much damage was done.

TAKEN TO THE POOR HOUSE.—A boy was arrested by the Allegheny police on Wednesday and taken to the Poor House, on a suspicion of being the person advertised as running away from his father's residence in Philadelphia county some time ago. The parents were telegraphed to by Constable Gallaher.

THE Second Ward School House, Allegheny city, is rapidly approaching completion, and will be, when finished, one of the handsomest school edifices in the two cities.

We call the attention of our readers to the advertisement of John P. Glass, headed "To Let."

RAILROAD RIOT AT ERIE.

ERIE, July 19.—A large meeting is now in session in the Court House, in opposition to the change of the guage of the Erie and North East Road. Strong and determined resolutions have been reported in favor of resistance. G. J. Ball is now addressing the meeting, and takes strong and bold ground in opposition to the change of guage and against the law which authorizes it.

SECOND DESPATCH, 1, P. M.—The meeting was called by the Mayor by order of the City Council. His honor the Mayor presided, assisted by numerous vice presidents and secretaries. A series of resolutions were adopted, denouncing in the strongest language any action on the part of the Erie and North East Railroad Company to change the width of their track to that of the Buffalo and State Line Railroad.

Among the resolutions passed was one requesting the City Council to pass an ordinance directing to remove the Railroad track from the public streets, if any change from the present guage was attempted. This resolution was passed unanimously, and a fixed and firm determination to sustain the city authorities in carrying it out expressed. Immediately upon the adjournment, the council convened and unanimously passed the requisite ordinance.

DESTRUCTIVE FIRE.

CINCINNATI, July 21.

A fire broke out in the sash tool factory at the corner of Broadway and Eighth streets at noon to-day. Most of the houses on the block East of Broadway between Seventh and Eighth streets were burnt. The wind blew strong, and the flames were with difficulty prevented from spreading to the Catholic Church on Sycamore street, four squares distant, which was, at one time, on fire. The buildings destroyed, were partly frame.

FATAL ACCIDENT.

DETROIT, July 21.

A number of men were engaged in excavating the rear of the Gas depot in this place this morning, when the earth caved in on them, killing two persons, and wounding three severely; one of the latter is not expected to survive more than a few hours.

BOSTON, July 20.

The schooner L. McKinzie, from the Bay of St. Lawrence, the first of the mackerel fleet, arrived at Gloucester, Mass. She reports that fish are not plentiful. Say a number of schooners belonging to the British fleet. An officer from one of the colonial vessels boarded the schooner, but behaved in a very gentlemanly manner. He stated that vessels having more than two guns or muskets on board would very likely be seized. He understood that American fishing vessels would be allowed in the Bay of Chaleur. He stated that when a vessel is seized for fishing within the limits, if the crew dispute the distance, it is to be measured. The captain states that most of the people live at St. John's Island, Cape Breton, and the Gulf of Canso, who formerly petitioned for official vessels to drive off Americans were now signing petitions to have the restrictions removed, as formerly American fishing vessels afforded considerable business, while now they will scarcely be in a fishing condition, and will soon be obliged to call upon Government for pecuniary aid.

CINCINNATI, July 21.

Richard Henry Lee, lately confidential Secretary of the Government under Secretary Corwin, but more recently Associate Publisher of the Cincinnati Commercial, died in this city at five o'clock this afternoon, of bilious fever.

The loss by the fire to-day was $6000.

MONETARY AND COMMERCIAL.

NEW ENGLISH FIRM AT AKABA.—A London correspondent has recently sent to the North American a letter on this subject which is worthy of attention. It appears that a new trade is now open with that continent, which contains 15,000,000 of inhabitants. One of the article's recently received in England is Indian, for whose conversion into a commissary from Abbeokuta, as red cotton. It is not cotton, but a new species of silk. It is brought from the Houssa country, in grains of cardamoms, and is supposed to be colored with alkanet root. Another article, now for the first time, is a peculiar description of wool, from Gratz, on the west coast of Abbeokuta. It is tolerably fine, of a buff color, worth about one shilling and five pence per pound. It improves very acceptable to wool dealers. It may be had in large quantities.

The finest merino textures, like those used in the manufacture of the finest shawls by the Persians and others, are also grown in Africa. The sugar cane is beginning to receive attention, and fruits there a commercial rich and climate. The finest coffee, cotton, drugs and gums are found everywhere "in wild luxuriance," and are found to be the gatherer very liberally. The continent must eventually fall more of great value to our commerce.

By the Franklin, at New York, we have four days later intelligence from Europe. In relation to monetary matters in London, the Times of the 6th inst. says:

"The panic for money in the Stock Exchange to-day (Tuesday) on Government securities, is over. The Bank has done all the same to be repaid to the Bank of England this quarter for the advances made to the Government. The Bank offer bonds are much smaller than usual, the payment of the dividends on the Three and a Quarters and Reduced having supply very abundant.

"The amount to be invested on account of the sinking fund or the reduction of the national debt during the quarter ending the 10th of October next, is as large as that which was applicable last quarter—namely, £2,500,000 to £2,600,000. The interest upon these amounts the quotations to which they are invested, is considerable, and will be of business and, although a slight decline subsequently occurs, the average price will be above the day's decline finally. The first prices of Consols was 97¾ to ¾, the latter rather more than ¼ per cent. The quarterly sessions of some influential banks caused a rapid reaction in the money market, and the demands of the great dividends. From the Paris Bourse the telegraphic quotations are unchanged. The Bank of France, and the Rentes, and a proportionate improvement as in railway shares. The last intelligence from the Emperor of Russia, published in the official edition of the St. Petersburg Gazette, is of a satisfactory character, being accepted as to prevent the interruption of the friendly relations between the two countries. The Russian funds are firm, and the Imperial 4 per cents, 101¾ to 102. India Bonds 23 to 30s, and Exchequer Bills 1 to 3 p.m.

The British revenue for the quarter, ending the 5th of July, shows an increase over the corresponding period of last year of £1,145,175. The following are the figures of comparative receipts:

Income,	1852.	1853
Customs,	£4,144,071	£5,272,924
Excise,	3,442,902	3,804,041

Taxes,	1,363,167	1,516,444
Property Tax,	1,150,991	1,251,000
Post Office,	220,000	235,000
Crown Lands,	70,000	90,000

Repayment of Advances,	216,552	424,673

LARGE SALE OF SILVER.—The Bank of the State of Missouri has for several years, been desirous to increase the amount reached nearly a quarter of million of dollars. The actual quantity it was determined to keep in circulation of silver, and both for it were sold to the American Bank, Baring Brothers & Co., New York, and other chasers of the entire amount, and we learn that it is being shipped to this country in the packet ships for New York and California. The price paid, varied according to the quantity of the coin, and the latter was of premium being about five per cent.—St. Louis News.

CARGO SALE.—As a result of the good effects produced by Dr. Ayer's Cherry Pectoral, a cargo of it has been sold to the Sandwich Islands. This is the first instance that, within a few days, we have recorded the sale of a cargo of a single article to one market. Ninety-nine out of every hundred who have taken it, have been entirely cured of their complaints, and it now has the largest sale of any medicine in the country. Its virtues are known to every body, and it is the only remedy for coughs, colds, consumption, &c., which can be relied on with certainty.

THE CROPS.—The Albany Cultivator says of cattle at this port says the buffalo Advertiser, of Saturday, have received from the Central Railroad one day alone, 1,000 head of cattle. On Thursday twenty-one cars, and on Friday twenty-six cars, were received, and the yards at the Exchange were crowded during the same time, over this the Buffalo Commercial says:

NEW WHEAT IN ALTON.—The Telegraph of yesterday says several small lots of new Winter Fife made the appearance in this city on Saturday last. The yield is from 25 to 30 bushels per acre, and the wheat is turning out better than was expected. Added to this, the harvest is now fairly commenced in the Bottom prairies, and the yield will be unusually large, and better than the average.
