HOME MATTERS.

RIVER ITEMS.—The stage of water on Saturday evening was 22 inches, and on a stand.

A POINT IN THE NEW STEAMBOAT LAW.—We learn from the Cincinnati Commercial, that the local inspectors of that city have notified Capt. Leathers, of the new Natchez, who has placed cast iron heads on his boilers, that unless they are removed, and wrought iron substituted, the boilers will not pass inspection. Capt. L. has appealed.

MOLLY STARK.—It is said that the new boat now about completed at Pittsburgh for Captain Gleim, of the St. Louis and Galena trade, is to be called *Molly Stark* instead of *Belle Corwith*, as was first announced. Captain Gleim, left for Pittsburgh on Saturday for the purpose of bringing the new boat around as soon as completed. She may take the place of the *Michigan*, as the regular Saturday packet; the latter being compelled to withdraw on account of low water.—*St. Louis News.*

JOHN MCFADEN.—This next low water boat has been purchased by Capt. Perkins and others, and as soon as she arrives she will be placed in the Illinois river trade.—*Ib.*

ODD-FELLOWS HALL.—The Odd Fellows of this city, have purchased the ground on Fifth street occupied at present by the Allegheny Engine House, and by M'Kee's Blacksmith shop, being 66 feet by 120 feet deep. It is the intention to erect one of the very handsomest buildings in the city.

FALSE REPRESENTATIONS.—John Dutch was arrested and held to bail by Alderman Reinhart for obtaining $81 in goods by false representations from Grier and Monaghan, Liberty street, on oath of James A. Monaghan.

JAIL CALENDAR.—For the week ending Saturday, there were fifteen committals for Court; six for Assault and Battery; one for Sentence; two for keeping a Tippling House; three for passing Counterfeit Money; one for Larceny; one for Adultery; and one for Assault and Battery with intent to kill.

The daughter was released on bail, the mother was committed in default.

CANAL REPORT.—For the week ending on Friday night, the amount of tonnage passed through the weigh locks was 1,702,259 lbs. The tolls amounted to $1,540 76.

The business last week was limited, owing to the low stage of the water on the sinckwater.

ASHOUND.—About thirty canal boats are aground in the Slack-water, near Carr's Locks, about fifty miles from the city. Some boats have passed with the aid of half a dozen teams. The other boats are unloading, with the intention of transporting their freight by land, as far as the canal.

BURGLARY.—Some persons entered the store of W. H. Sutton, on Wood street, near Water, on Friday night, and blew open the safe to discover whatever might be inside. As the safe contained nothing, the robbers had "their pains for their trouble." Entrance is supposed to have been effected through the cellar.

THE readers attention is directed to the new advertisement of Mr. W. H. Knoepfel, referring to his Fall and Winter stock of goods.

NEWS FROM EUROPE.

ARRIVAL OF THE ARCTIC.

NEW YORK, July 23.

The Arctic arrived here this evening, bringing Liverpool dates up to the 13th inst.

The Asia arrived out on the 10th.

The Liverpool cotton market is unchanged.—Sales average; market quiet; fair enquiry being freely met by holders, without any pressing sales. The enquiry is chiefly confined to the lower qualities. Sale during two days, 20,000 bales for speculation, and 6,000 for export. Import 3,600 bales. Tuesday's sales, 6,000 bales at the same quotations as per last steamer.

LIVERPOOL MARKET.—Breadstuffs—There is an improved prospect for the French harvest, and a more quiet tone in the London and Irish markets. The Liverpool market transactions are quiet, and there is a further decline of 6d@1s on Flour, and 1s@2s on wheat. Indian Corn—Some sales at previous rates; yellow father dearer.

The news is full of interest. Count Nesselrode issued a new circular, more impudent than the last, claiming that Russia occupies the principalities, because the French and English fleets occupy the Turkish waters, and hints clearly that the Russians will refuse all concilia ion until the fleets are withdrawn; yet nevertheless expressing a willingness on the part of Russia to evacuate the principalities, when her demands are fully granted. This note has partially opened the eyes of the European public, who see the necessity of bringing matters to a settlement, the object of Russia being merely to gain time and render her position impregnable; though scarcely admitting the possibility of a war, public opinion begins to press for something decisive.

The publics are continually amused by despatches of a pacific tendency, the latest implying that France and England had last week forwarded to St. Petersburgh a moderate note of concessions on both sides to end the matter. An answer was expected about a week from the 11th of July, and till this shall be received, all is mere guessing.

The Bourses all keep pretty firm, which is a good sign.

FRANCE.—The plot against Napoleon's life at the Opera is more serious than had at first been supposed. The conspiracy has been unravelled, and some prisoners are on trial.

The silk crops in many parts of France, though viewed with much anxiety, are not yet suffering; other crops are again promising well.

The people are warned by advertisement, against spurious Spanish bonds, which are in circulation.

HIGHLY IMPORTANT IF AUTHENTIC.—It is said that M. Brock, the Austrian Envoy to Constantinople, instead of being charged with a conciliatory mission, has made an imperative demand on Turkey for all concessions previously refused to Luningen's mission.

The Arctic brings 140 passengers, and among them Senor Herrera, late minister from Peru to Rome, Mrs. T. H. Meagher and Thomas Meagher.

LATEST FROM THE LONDON TIMES OF 13TH INST.—The French minister of war is asserted to have addressed the President of the Chamber of Commerce at Nantz in the following style: "We are not bent on making war, but if the Emperor, to whom the honor of his Government is dearer than all, should think that the national honor exacts war, he will certainly not recoil from the necessity."

The Paris Bourse was dull on Tuesday, and the majority of funds declined.

VIENNA, July 11th.—Troops are about to be concentrated near Peterwardin, in protection of the frontier.

It is said that the Porte will publish a proclamation in reply to the Emperor of Russia, setting forth all the injustice suffered from Russia since above a century.

The Divan of Moldavia met on the 27th of June at Jassey, when its first act was to vote an address of devotion to the Czar.

An army of 50,000 men are to occupy the principalities; contracts for rations have been concluded for 9 months.

SMYRNA.—Advices from Smyrna of the 29th state, that the Captain of an American frigate has laid his vessel close to an Austrian brig, on board of which the Hungarian, Col. Costa is imprisoned, and declared that he would oppose the removal of the prisoner to Treiste. The U. S. Minister claims Costa, on the plea that he is an American citizen.

PROVISIONS IN LIVERPOOL.—M'Henry quotes beaconmaking freely, without any improvement. Shoulders, quiet. Beef and pork, no amendment. Cheese, salable. Lard, steady at a recent advance. Tallow, easier in price. Rice, little doing.

MANCHESTER HOME TRADE.—There is a steady demand; prices firm; the export trade dull and stock accumulating. Lower rates would be accepted to secure orders.

LONDON.—Sugar firm; but little demand, at previous rates. Coffee, dull. Tea, unchanged, with but limited transportations.

GLASGOW, 12th inst.—There was a large business in Iron to-day. Mixed closed at 5s@5s 6d.

LONDON MONEY MARKET.—English funds unaltered, and rather languid. Money and account 97@98.

HAVRE, 11TH INST.—The advices by the Arctic are received. The week opens with a good demand Cotton: sales to-day up to 8 o'clock, 2800 bales, and prices well sustained.

In the matter of the riot at Smyrna, which resulted in the arrest of M. Costa, Kossuth's emissary, the Captain of the U. S. frigate St. Louis, behaved gallantly, and demanded to have the prisoner delivered up to the protection of the United States.

CINCINNATI, July 23, 1853

The river is slowly falling, the weather clear and warm. Flour and provisions dull. Nothing doing. Whiskey closed active at 19½; Sugar, in good demand at 4(@5½. Butter very scarce and wanted for city use. Cheese 7c.

A rise of ten feet has been reported in the Kenhawa river to-day.

BUFFALO, July 23.

There was a collision last night between the steamers St. Lawrence and Queen City, the latter being full of passengers at the time. The boats were greatly damaged, but the passengers remained uninjured.

COMMERCIAL.

PITTSBURGH MARKET.

OFFICE PITTSBURGH GAZETTE }
Monday Morning, July 25, 1853. }

Notwithstanding the usual dullness of the season, we note considerable activity in the jobbing trade, and some pretty large transactions are daily transpiring.

FLOUR—sales on the wharf and from wagon of 25 and 40 bbls. superfine at $5 37½ 25 do. extra at $4.62 50 and 20 do family extra at $4.75. Sales from cars of 150 bbls superfine at $4.50 and 50 bbl. extra nope at at $4 62½ extra family, from stores, by dray load, $5.00. These figures indicate a small advance on previous quotations, which is caused from the fact that the Eastern demand for flour is greater than the supply and low stocks.

OATS—under a full supply prices have receded; sales on arrival of 100 bus. old, at 44 and 150 do at 43; and 100 bus. new, at 42.

BACON—sales of 170 pcs. Shoulders at 6, 1500 lbs. do. at 6¼, 180 pcs. plain Hams and 1000 lbs. do. at 9¾@ 2000 lbs. Shoulders and Hams and 3 bbls. do. at 6¾@6¾; 100 pcs. plain hams, canvassed, at 10¾ and 6 tcs. do. at 10¾; 120 pcs. sugar-cured Hams at 11@11¾; and 2 tcs. do. at 12—The stock of Bacon in this market is becoming considerably reduced.

GLASS—a sale of 500 boxes City brand, was made at $2,25 for 8×10, and $2 50 for 10×12.

CHEESE—the demand is limited, but is equal to the supply—sales of 100 lbs. Western Reserve, at 7.

EGGS—a sale of 102 doz. was made at 9, and 6 bbl's. at 9¾@10.

HAY—new Hay is selling regularly at the scales at $7 to $10 per ton.

TOBACCO—a sale of 12 hhs. Granite 5s was made at 5¾ common twist is held at 10@11.

PEPPER—sales of 13 bags at 10.

MESS BEEF—in moderate demand, and small sales from store at $16,00@$16,50.

DRIED BEEF—sales steady at quoted rates, plain 9¾, canvassed 10¾.

WHEAT—none offering; new is in demand, and would bring from 80@95 as long as the present prices of flour continues.

MONETARY AND COMMERCIAL.

The Niagara Ship Canal, as passed by N. Y. Legislature authorises the issue of capital stock, $2,000,000, to be divided up into $100 shares. It is to be constructed so as to allow vessels of at least 500 tons burthen, to pass from Lake Erie to Lake Ontario. It is to commence at some point on the Niagara River above the Falls, and terminate at some convenient point on the same stream. The Company is allowed to demand tolls on vessels, boats, &c. Passengers are to be charged ten cents each.

The Bank of the State of Missouri, has declared a dividend of seven per cent. on the profits of the institution for the past six mos.

A. Wing Cashier, We received a despatch from Natchez, yesterday, which says: The sales of Cotton had ceased, having one of the most valuable cargoes of Sicilia Seed ever brought to this market, which sold for some two thousand packs, valued at $160,000, consigned to T. Chouteau, Jr. & Co. This is a very handsome return for their silver alone. As the river is in a very good stage, the Shell City will start to-morrow with a large cargo.

A DANGEROUS COUNTERFEIT.—We saw, this morning, a $20 counterfeit note, on the State Bank of Ohio, purporting to be issued from the Zanesville branch. It is an exact representation of the genuine, and is calculated to deceive both men and women. The best caution is to refuse all notes of this denomination, or of the Ohio State Bank.—*Cincinnati Gazette.*

NEW ORLEANS, July 19.—Sales of 1600 bales Cotton at 10@10¼, for middling. Parties are waiting for the arrival of the Crescent City, with 3000 bales, due to-day. Three days sales 4600 bbls. The stock is 21,000 bbls.—Bacon is firm, at 7c for sides, and 6¾ for shoulders.

The question of the Mississippi State Bonds is not yet fully decided. We have heard that Governor Foote has sent word that the Union Bank bond case has been argued before the Supreme Court, and that a decision is looked for within the present month. Our correspondent pursues the matter.—*Ib.*

The impression seems general that the decision will be in favor of the constitutionality of the bonds. Should this be the case, the issues of Pennsylvania and Mississippi bonds are extremely remote and problematical. Already our markets are overstocked, however, and should the case go to the Supreme Bench, who will then decide the case of the bonds and Union Bank.—*N. Y. Com.*

This is startling intelligence to every one who values the credit of our country. Such a state of affairs as that has occurred in Mississippi during the last two years, would be considered incredible, if not attested by Mr. Jefferson Davis while a Senator in Congress, and by the public press of the State in favor.

On the other hand, Senator Henderson asserted himself unable to obtain right on this subject, but the pamphlet sent in to Senators on this day, has been decidedly opposed in an acknowledgement of the legality of the Union Bank Bonds.—*N. Y. Com.*

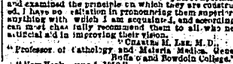
NOTICE

☞ MR. SOLOMON'S stay in Pittsburgh, now being limited to a few days longer, and as he will not be able to visit many more, immediate application is absolutely necessary.



NEW DISCOVERY FOR THE EYES.

SPECTACLES, &c., GROUND ON THE great principle of spherical accuracy, by O. SOLOMONS, the celebrated Optician, from the Improved Spectacle Manufactory of Messrs. Hardy, Paris, and Solomons, No. 105 Old Bond street, London—established more than a century.

O. SOLOMONS, the sole inventor of the Improved Spectacles, begs to inform the public that he has now fixed himself visit to this city, and may be consulted at his residence, No. 52 Fourth street, Pittsburgh, for a few days only.

Fourth streets, first door on fourth street.

It is but the honor of attesting the above named principal means of the eyes, when the sight is at the most period the most flattering encouragement, and having had the honor of being appointed by the Royal Family, he has the honor of announcing his arrival from London, with a few sets of his new and improved SPECTACLES. Such is the superiority of his new principle of adjustment, that they can be worn with the greatest comfort, and may be used for any length of time, either by reading or writing, without fatigue. At several individuals to the Official Notice have proved the truth of the above statement, and for further favors of the public, which he will ever be proud to merit. The following are a few only of the many he has had the honor to receive:

Mr. Solomons—Sir: I have much pleasure in stating that I have derived the greatest benefit and comfort in the use of his newly invented Spectacles.

From the New York Express, October 26, 1852.

MEDICAL LIQUORS.

In common, I presume, with many others of the profession, I received some few months since a circular addressed to the Medical Faculty, and issued by the firm of Mr. Adolphe Wolfe, the importer of Schnee Genever, informing me that a medicinal preparation of the Schiedam Aromatic Schnapps of Holland Gin, manufactured by himself at Schiedam, in Holland, and by him imported into this country, was put up for medical use, under the somewhat Dutch title of "Schnee Genever," for the benefit of invalids. As no one is an eminently superior degree of purity and excellence in his special department of skill, and, moreover, a certain supply of it to any one who may feel disposed to test these claims in a scientific and professional manner, being resident in Holland, and Wolfe, paid free of discount, a few bottles of Schnee Genever, namely: Gin, of which I received two cases, and Schnee Genever, and sent me from time to time, as I required them in the railroad offices.

Pittsburgh, June 8, 1853.

I am happy in bearing my feeble testimony in favor of Mr. Solomons' Spectacles. I think it right to say that I have tried, they are even to read pleasantly by candle light.

Late Professor in Surgery, Washington University, Baltimore.

Pittsburgh, June 8, 1853.

I am using a pair of Mr. Solomons' Glasses, and find the result very satisfactory. I can recommend them to a number of those who recommend them.

Pittsburgh, June 8, 1853.

Sir: I am happy to state that on the trial of several spectacles of Spectacles placed in my hands by Mr. Solomons, I find myself much relieved from a defect of vision, an irregularity of the cornea, which for years I have sought relief for the last two years, however, I have succeeded in so far as to relieve me of pain, and I find they are of a excellent quality, and peculiarly adapted to the defect in my vision. Respectfully yours, &c.

Professor of Physical Diagnosis and Theory and Practice of Medicine, Medical Department Western Reserve College.

Cleveland, October 27, 1851.

The best recommendation I can give the Glasses of Mr Solomons is that I use them myself, and for myself.

JAMES WARREN, M. D.
Professor of Anatomy, Buffalo Medical College.

Rochester, January 15, 1851.

Sir: I am happy to inform you of my having received a pair of your Spectacles, and examined the principle on which they are constructed, and have no relation in pronouncing them superior to any thing in the shape of Spectacles I have ever seen, and can most cheerfully recommend them to all who need glasses. Yours, respectfully,

CHARLES M. LEE, M. D.,
Professor of Pathology and Medical Jurisprudence, Geneva Medical College, and Rowdoin College.

New York, June 4, 1850.

I cordially concur, as far as my judgment goes, in the opinion of my friend colleague, Dr. Lee, in reference to the peculiar principle of your Spectacles, and can recommend for intelligent use. The grinding appears to be good and clear, and the glass of excellent quality.

JAMES KNAPP, M. D.,
Professor of Surgery, Geneva College.

Philadelphia, June 4, 1850.

Having examined the Spectacles of Mr. Solomons, I am fully convinced that they are of a superior quality. I have taken a pair for my use, and find them unusually clear and pleasant to the eyes.

WOLFE'S CELEBRATED SCHIEDAM AROMATIC SCHNAPPS.—Deeming it necessary to remind any regular member of the Medical Profession of the established medical properties of pure distilled Gin in many diseases of physical tendency, I respectfully invite your examination to a superior article, manufactured by myself exclusively, at Schiedam, in Holland, by a process peculiar to my own factory. It is flavored and medicated, not by the common harsh berry, but by the choice botanical variety of the aromatic Italian Juniper Berry, rendering more vinous extract is distilled and rectified with its spirituous solvent, and the two becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendent in its vegetal and medicinal properties, to any Holland Gin heretofore known.

Amid the influx of inferior distillations with which the market is now flooded, physicians and others will find no difficulty in procuring a good and pure Gin, which they can recommend with confidence in its result in effects. As an importer of twenty years' standing, in the city of New York, and possessing a matured experience in the manufacture of HOLLAND GIN, especially, I beg to submit to your attention my AROMATIC SCHIEDAM SCHNAPPS, as one which cannot fail to realize your utmost expectations, and I shall be happy to forward to you a bottle of it, free of charge, in order that you may test its qualities at your leisure.

It is now scarcely one year since I have prepared and distributed my SCHIEDAM GIN exclusively for medicinal purposes; yet within that brief period, I have received numerous letters, both from physicians and patients, testifying to its
