HOME MATTERS.

THE NEW STATE ROAD.—Pursuant to notice, an adjourned meeting was held on Saturday, 13th inst., at the School House, Jack's Run.

The former officers resumed their seats, at the stated hour. The chairman, Mr. John Birmingham, called on the township committees for reports, when favorable reports were made from Ohio, Franklin and Ross townships. The committee from Reserve township made a verbal report, stating that they performed the duty assigned to them, and they had to regret that they could not make so favorable a report as the other committees. They had called on the officers whose duty it was to open and complete that portion of the State Road, and that said officers informed your committee that they would not have any more work done, as they had appealed to the Supreme Court.

The following preamble and resolutions were then offered by Mr. Kerr, which, after a full and free discussion, by Messrs Bayne, Ackley, Fleming, Birmingham, Kerr, Cooper, and others, were adopted unanimously:

Whereas, A report has been made to this meeting by a committee, which sets forth that the officers of Reserve township have positively refused to open the road known as the Allegheny and New Brighton State Road, passing through Reserve township, and that said officers have appealed to the Supreme Court, for the purpose, as we believe, of retarding the work which, of right, should have been done a year ago, therefore, be it

Resolved, That a committee of five, of which the officers of this meeting shall be of the committee, whose duty it shall be to employ eminent counsel to compel all delinquent officers to carry out the expressed words of the Act of Assembly relative to said road, and that the committee be empowered, to collect sufficient funds to defray any expenses that may accrue.

The following gentlemen composed the committee: Messrs. Bayne, Kerr, Crawford, Birmingham and Cooper.

THOMAS J. HUNT, in return our thanks to Supervisor Quail, of Ross township, for the prompt and efficient manner in which he responded to the wishes of the traveling public, by opening the road through his district, and regret that so much cannot be said for others in office.

On motion of Mr. Kerr, the Secretary was directed to compensate the printers for publishing proceedings, and report to the adjourned meeting to be held on the second Saturday of September, the 10th, at the School House in Ross township.

UNPROVOKED ASSAULT.—About two o'clock yesterday afternoon as Patrick Barry, accompanied by a female named Ann Murphy, was passing the corner of Cliff and Fulton, five men assulted him, without the least provocation, with bowie knives. They inflicted three wounds on the arm, shoulder and back. The latter being most serious. A UNION Camp Meeting will be held at St. Clair City, on the 18th of this month. The Central Railroad Company have made liberal provision for the conveyance of passengers.

KEEPING A TIPPLING HOUSE.—Henry Rea was held to bail yesterday by Alderman Steele for keeping a tippling house.

ASSAULT AND BATTERY.—Patrick M'Gann was held to bail by Alderman Major yesterday on a charge of assault and battery, preferred by Eliza Brown.

COMMERCIAL

REVIEW OF THE PITTSBURGH MARKET.

For the week ending August 16, 1853.

We have no new features to notice in our market during the past week. There is the same general quietness prevailing which has characterized the entire summer season.

Our jobbing houses are doing a good business in the way of filling country orders—a much larger business than in general at this season. This may be accounted for, in part, by the facilities afforded for transports ion to the interior by railroad, not heretofore enjoyed, and the close now filling over by such merchants as usually make their fall business; but it is, also, in some measure, to be attributed to an actual increase of trade at this point, growing out of the opening of new avenues of traffic, many of those now buying having been here.

The rise in the river noticed last week did not last long and the stage of water is again low, being only about 2½ feet. The heavy rain of last night will, no doubt, precipitate the embarrassments now felt in the East. As the bills for these importations are now constantly falling due and will continue to do so for some weeks to come, a slow compliance of will not probably be relaxed, for some time to come. In this city there is a chronic stringency. We never have an easy money market. Our banking capital, together to a short supply of money. Our banking capital does not exceed $5,000,000, and is not able to meet the wants of a growing city; and the amount in private hands is correspondingly limited. There is consequently always a demand for money here which keeps up rates out of doors to 9@12 per cent.—a demand growing out of legitimate business; for there is very little tendency to speculate here.

We subjoin the rates for currency and exchange:

Philadelphia and Baltimore,	Buying. ¼ dis.	Selling. ¼ dis.
New York,	par.	par.
Cincinnati and Louisville,	1/4 do	¼ dis.
St. Louis,	1 do	½ dis.
New Orleans,	¾ do	¾ dis.
Currency	¾ dis.	1 dis.

ASHES—the demand for Pots Ash is inactive, and the sales of the week do not exceed 50 casks, domestic and foreign at 5¾@5¾c. Pearls—none sales are reported; but few have been made at 8¾, cash, and 8¾, time; Solarston, 4¾@4¾. Pots are not inquired for.

APPLES—some arrivals of the new crop of Green Apples in the city market, and are held nominally at $2,00@2,25, but the demand is small and sales slow.

BEANS—prime small White Beans are selling at $1,12½ @1,25 by the bushel in limited lots, and other varieties at rates ranging downward to 50 cts.

BRAN—there is none arriving from country, and from city mills sales continue to be made at 16@17 for Bran and 22@30 for Shorts.

BEESWAX—there is a regular demand for Beeswax, and small sales on arrival at 24@25.

BLOOMS—The market is better supplied than it was, but the stock on hand is yet low. Sales of the week on arrival about 500 dos, principally Common, at $1,37½@1,50; from store at $1,62½@1,75; for extra qualities the prices range up as high as $2,75@3,00, from first hands.

BACON—the sales of the week have been moderate, and prices have not varied from our previous quotations. Sales of about 150,000 lbs in lots at 6¼@6¾ for Shoulders, 7¾@ 7¾ for Sides, and 9¼@10 for p.a.n Hams; for small lots to the retail trade the outside figures are the ruling rates. Sugar-cured Hams, the prices range from 11 to 13½, according to quality.

BUCKETS & TUBS—there is no alteration in prices Buckets from store, $2,00@$2,12½; Tubs No. 1, $7,25, No. 2 $6,25.

BUTTER—receipts continue quite light. The only sales we have are reported at 11@12. The warm weather prevents any transactions in good butter

BRICK—we notice a steady demand for Fire Brick, and sales of common Brick at $6 2d extra at $40. Fire Clay $12 ⅌ ton.

CANDLES & SOAP—there is a steady trade demand for Candles at 10@10½ for dipped, 11½ for mould, 22 for Pittsburgh Star or Adamantine, and 15@16 for Stearine. Soap, common mess, 4½; and fancy toilet, 10.

CHEESE—the demand during the week has exceeded the supply, and prices have advanced to 7½@8, a corresponding advance having taken place in other Western markets. The market is firm at 7½ for ordinary qualities, and 8 for prime, from warehouse, and from store ordinary qualities at 8. Received during the week, 1158 boxes.

COFFEE—there is a continued good demand for Sheet Copper, at previous quotations, 35 cash, and 36 time.

DRIED BEEF—the demand is steady, and prices are unchanged; sales of plain at 9¾@10, and canvassed at 10¼ @11.

EGGS—the demand not active, and the supply limited; we quote nominally at 10. The warm weather prevents the holding or accumulation of stocks.

FLAX—two lots of dressed Flax, amounting to about 700 lbs, were taken up at 6¼.

FEATHERS—The market is but poorly supplied; prime live Geese have been selling on arrival at 45@46, to the trade

FISH—the inquiry for Fish for some time past has been quite limited, and nothing is doing beyond a retail business. We quote Mackarel No. 3, at $10,25@$10,75; the usual rate for common orders being $10,50; Baltimore Herring $6 00@$8,50; Baltimore Shad No. 1, $12,00@$17,50; Lake Fish, Trout and White $5,00@$9,00, ht. bbls in the usual proportion.

FLOUR—the receipts from the Ohio, during the week have been quite small; and the repairs going on at the dams in the Monongahela has cut off receipts from there, for the present; our market consequently is not over supplied. Prices have, however, preserved their uniformity. The sales for the week were about 1300 bbls on the wharf and from wagons, at $4,50 for superfine and $4,62 for extra, fresh ground from commanding an advance of 10 to 12 cents on these figures; a lot of 100 bbls, damaged by sinking in the Monongahela, was sold on private terms, and 600 bbls old ground, upper Monongahela flour, brought $4,37. The market closes on Tuesday at $4,50 for superfine. Total sales of the week, from first hands 2000 bbls.

GRAIN—the supply of Oats having been small, prices advanced, and sales of old at 44@46c and new at 40. CORN, BARLEY and RYE are not offered, and we cannot give quotations; the last sales of Corn were at 56, and Rye at 60. WHEAT has been arriving pretty freely on consignments to the city during the past few days, and we notice sales from wagon at 90 for Mediterranean and 95@$1,00 for Red and White.

GROCERIES—we notice no demand beyond that of the jobbing trade, and the only sales are those making to fill country orders and to the retail trade. Stocks, sales of about 75 hhds in lots, principally at 6@6¾ for fair to prime, and bbls at the usual advance. MOLASSES, only one round lot noticed, which brought 28½ by the single bbl at 29@31. SUGAR, of all the various colors; duffels, Devonshire Kersey, Pilots, fancy and black Cassimeres, Pelt-lot Coatings, Vestings in Velvet, Grenadines, Cashmere, Satin and other fabrics, of new styles and assorted qualities, together with an extensive assortment of **Trimmings**, and other Goods suitable for the Clothing Trade, on the most favorable terms.
