Reese's Patent Coupling and Foreplate,

FOR NAIL-PLATE AND SHEET-ROLLS,

CAN NOW BE SEEN IN OPERATION

At Messrs Bailly, Reese & Co's Rolling Mill, Pittsburgh, for the "Cabinet Nails." Merchantable iron, bars, &c. stopping the mill when desirable, as the top roll is to or from the bottom roll in an instant without disconnecting and disarranging the machinery. The FOREPLATE is also constructed so as to adjust and complete the work in a plain and simple manner, without removing a plate or disjointing it in half a minute, without removing a guide, screw, bolt or nut. The last, though not least consideration of all improvements is that by it you are saved the waste of the roll between bars, thus making a gain of about 5 per cent. and freedom from bars ever to go out of shape. Further information, or a right to use the same, can be obtained of the inventor,

JACOB REESE,

Manager of "Cabinet Mills," Pittsburgh.
