THE MARLINESS OF SLAVE CATCHING .--- M Marshall Wynkoop has again entered upon race for distinction. His latest exploit is re corded below, in a letter which we find in the Philadelphia Ledger. One cannot too much ad mire the manliness which prompted five coura geous white men to attack a defenceless negro nor the valor shown by them in flying disgraced from the field. Five upon one, and beaten at that! Almost every endeavor to enforce the Pugitive-law, has thus far excited abhorrence; but no event in the history of that law, is calculated to stir up more loathing than that recorded

below: WILKE-DARRE, Sept. 3, 1863.

"An attempt was made this morning, about half past 6 o'clock, to reclaim a portion of Southers property, in the person of a fine young mulatto, a watter at this hotel, named Bill, who has been living in this place about a year. The party were Mr. George Wynkoop, Deputy Marshall, one Jenkins, and three others, making an effective force of five. The time chosen for the arrest was at early breakfast, at which bill sorred as a waiter. So soon as breakfast was over one of the party threw his arms round the waiter and the other four runked upon him. A fight ensued which leasted twenty minutes. The sileged slave threw the man from him who first sixed him, when he was struck with the maces of sed him, when he was struck with the maces of the officers and a handouff festened on his left arm—he struggling all the while with desparate energy. One of the party received a severe blow over the head with the handouff, making a conderable gash. The officers then called upon a adividual present who had formerly sided in a

The Hon. Robert J. Walker's resignation of the Chiness mission has been accepted. The cause of the resignation is believed to be the remoustrances of his relatives against going, as his health does not improve as rapidly as it promised to do when he accepted the appointment—The appointment of his successor may be expected at an early hour.

The Emperor is evidently wide awake to the dangers, political, and social, which threaten to test the solidity of, his newly established power by the coincidence of this providential cause of commotion with these essential to all violent change like that which he has recently effected. His three late decrees clearly show this. For he takes care always to accompany them in the nea-official columns of the Moniteer, with remarks of a character to quiet the public alarm which they might excite, ascribing, them to purely commercial causes or to prehap's excessive paternal caution that would avert from his dear people owen the possibility of suffering for want of bread—we know that a short time since the Minister of the Interior convoked the principal editors of Paris, and warred them to publish nothing of a nature to excite alarm touching the two prominent subjects of the day—the Eastern question and the crops. The reality however of the threatend scarcity and the alarm of Government are shown by the facts that funds to the amount of \$6,000,000 have been recently sent to Markellles for the purchase, on account of Government, of wheat in Eavet and elsewhear and this time.
