Reese's Patent Coupling and Foreplate,

FOR NAIL-PLATE AND SHEET-ROLLS,

CAN NOW BE SEEN IN OPERATION at Messrs Bally, Brown & Co.'s Rolling Mill, Pittsburgh, or the "Sharon Works," Mercer county, Pa. The advantages of my improvement are—that it obviates the necessity of stopping the engine or throwing off the crab to coup., or uncoup. it when Scouring, as the top roll is connected and disconnected in an instant without recourse to the engine, crab or anything else. The FOREPLATE is all constructed so simple and complete that it is called, cheaper, but not the last, though not least advantage of my improvement is, that by it you are enabled to scour the Rolls *between heats*, thus making a higher polish on Nail-plate and Sheet-iron than has ever been the case before. Further information, or a right to use the same, can be obtained of the inventor

JASON REESE,

Manager of "Clinton Mills," Pittsburgh.

BUSINESS CARDS.
