Reese's Patent Coupling and Forgeplate,

FOR NAIL-PLATE AND SHEET-ROLLS,

CAN NOW BE SEEN IN OPERATION at Messrs Bally, Brown & Co.'s Rolling Mill, Pittsburgh, or the "Sharon works" Mercer county, Pa. The advantages of my improvement are—that it obviates the necessity of stopping the engine or throwing off the crab to coax it the top roll when Scouring, as the top roll is connected and disconnected in an instant without removing the engine, crab or anything else. The FORGEPLATE is also constructed so as couple and complete that it is placed or displaced in half a minute, without removing a guide, screw, bolt, or nut. The last, though not least advantage of my improvement is, that by it you are enabled to Scour the Rolls between Heats, thus making a higher polish on Nail-plate and Sheet-iron than has ever been got out before. Further information, or a right to use the same, can be obtained of the inventor.

JACOB REESE,

oct1 Manager of "Clinton Mills," Pittsburgh.
