Commonwealth vs John Niebart, indicted for passing a five dollar counterfeit bill on the State Bank of Indiana, upon a woman named Mary Giles. The jury returned a verdict of not guilty, the county to pay the costs of prosecution.

THE MILITARY REVIEW.—GRAND PARADE.—At half-past eleven yesterday morning, the various uniformed militia companies of the 1st Brigade, 17th Division, assembled on the East Common, Ohio street, Allegheny city, for inspection, in accordance with Brigade orders.

At the hour above mentioned, Major General ROBINSON, Brigadier General LARIMER, and a numerous and efficient Staff, appeared on the ground. The various companies were then exercised in military evolutions by Col. Samuel Black. They acquitted themselves with much credit.

About half past one the companies formed in regular order, and paraded through Allegheny and this city.

The Jefferson cavalry, under command of Col. HIRAM HULTZ, consisting of twenty four horse, led off the procession. They are a fine, able-bodied set of men, and showed good training.

The Pittsburgh Blues, preceded by Cargo's Band, followed, being the oldest company.—There were twenty four muskets, under the command of Capt. Hall.

The Duquesne Greys, having thirty-five muskets in rank, under the command of Captain David Campbell, presented a very fine appearance. They were preceded by Young's Brass Band, which discoursed excellent music

Two companies from Birmingham, the Montgomery Greys, Captain M'Kee, nineteen muskets, and the National Guards, Captain Dansroth, sixteen muskets, displayed excellent drill They were each preceded by fife and drum bands.

The Jefferson Guards, under the command of Captain Patterson, consisted of twenty-eight privates. They are from Jefferson township, and were accompanied by an excellent band of music.

The Sewickley Guards consisted of thirty-four muskets, under the command of Captain Neal.

The Turtle Creek Guards were the largest company on parade, having forty three men Captain M'Masters is the commander. A band of martial music accompanied them.

The Perrysville Guards, Capt. Peables, twenty-two muskets; the President's Guards, from Upper St. Clair, Capt. Gilfillan, thirty two muskets and the St. Clair Guards, from the same township, Capt. Espy, thirty muskets, complete the list. They were each accompanied by bands of music

The day was really beautiful, and everything passed off harmoniously. The Commanding Officers are expressed themselves highly pleased with the efficiency of the companies, and the familiarity with military tactics they manifested.

MADAME SONTAG.—The Chronicle of yesterday says this celebrated vocalist will shortly visit Pittsburgh.

LOCAL NEWS.—Local news was scarce yesterday. Everybody seemed to be taken up with the military Parade.

A large stock of superior Winter Clothing will be sold this morning at 10 o'clock, at Davis' Auction Rooms.

LUCINDA FURNACE.—This valuable Iron property in Clarion county, will be sold this day at 12 o'clock, at Davis' Auction Rooms.

THE SUPPER.—An anniversary supper was given by the Duquesne Greys at the St. Clair Hotel, St. Clair street, last night, to which a numerous and brilliant company sat down. The supper was excellent, and the music, voices and comical speeches, toasts, &c., &c., were the order of the evening. The company adjourned at a late hour, highly pleased with their evening's entertainment.

HELD TO BAIL.—Joseph Kelly appeared before Alderman Major yesterday, and made oath and information against Patrick Martin, for assault and battery, which he alleged occurred on the night previously, at a drinking house, kept by defendant, on the corner of Elm and Prospect streets, Sixth Ward. He also made information against Kelly for keeping a tippling house and a gambling house. Kelly was arrested and held to bail, to answer the charges at the next term of the Criminal Court.

THE COMMISSIONER ELECT.—E. J. BROOKS, the Commissioner elect, entered upon the duties of his office yesterday. Mr. Boyle retires.

DIED FROM HIS INJURIES.—George Kacy, the young man who fell from the third story of the new houses on Market street, on Monday afternoon, died from the effects of his injuries on Monday night, at his residence, on Sandusky street, Allegheny. The deceased was about twenty years of age, and was unmarried. His parents are living.

TAKEN OVER.—Reid, convicted of Bigamy, was taken over to the Penitentiary yesterday by Jailor Crawford.

DISORDERLY CONDUCT.—Alderman Paskinson issued warrants yesterday for the arrest of Robert Paul, James Dalzell, James Darragh and others, charged with disorderly conduct, by Anne Jane Armstrong.

POISONED.—A little boy, named Robert Baillie, son of John A. Baillie, Fulton street, died yesterday from the poisonous effects of some sumach seeds, which he had eaten about hours previously. The two brothers had also eaten some of the seeds, but owing to use of emetics, their lives were saved. The emetics, however, had no effect on the deceased. He was about three years old.

RUN OVER.—A young girl named Elisabeth Patton, aged about 14 years, was run over on Federal street, Allegheny, yesterday, by a horse and buggy, which were being driven at a rapid rate. The rapidity with which the vehicle was going, caused it to pass lightly over the girl, doing her but little injury. Such rapid driving is very reprehensible.

NEARLY COMPLETED.—The Associate Reformed Church, on Diamond street, opposite the Court house, which has been in the course of erection for some months past, is nearly completed. It is an elegant edifice.

THE CRIMINAL COURT.—The indictments for the present term have nearly all been acted on. The October term will probably close by the middle of next week.

"DOCTOR" JACKSON.—"Doctor" Jackson, a colored man, well known for his eccentricities, became involved in quite a serious affray, on yesterday afternoon. The Doctor had attired himself gorgeously in the dress of a colonel, and mounted on a horse, followed the procession. When he reached Fifth street, having dismounted for some reason, one of the crowd commenced annoying him in sundry ways At last, losing patience, and after having given several warnings, the Doctor made an attack upon the offender with his sword, cutting him severely about the head and shoulders. The men closed with him, but got much the worse of the combat. The fight was terminated by the arrest of the Doctor, who was taken to the Mayor's office and locked up.

REVIEW OF THE PITTSBURGH MARKET.

For the week ending November 1, 1853

Business during the greater part of the week, has been dull; but on Monday a rise of about 6 feet was experienced in the river, which has imparted activity to all departments of trade.

The *river*, up to Tuesday, was not sufficient to carry out coal boats, a fleet of about 600 of which are here awaiting an opportunity to get out Their departure and sale arrival below, would relieve our money market considerably, as some hundreds of thousands of dollars are locked up in the adventure.

The *railroads* are also in a state of embarrassment, and no abundance of steamboats to take advantage of it. Freights are not very low, and our manufacturers are exceedingly availing themselves of the opportunity to ship and fill their Southern and Western orders which have been so long accumulating.

Our manufactories are now all busily employed. The iron peddlers, who have been on a strike, went to work on Monday, at the old rates, and the mills are now all working, full time, and full handed. The demand for Pittsburgh manufacturers is now so active that all our factories are kept steadily employed.

The late stormy weather has about put an end to transportation on the lake, and large amounts of freight which usually take the lake route, are now coming this way.

The late rains have improved navigation on the Canal, which is now unobstructed, and will probably be fully employed until the close of the season.

In our general markets we have no change of any moment to note. The effect of the Foreign news upon the market for Breadstuffs, is to advance rates, and we consequently find Grain of all kinds ruling high. The news by the Arctic, received on Monday, indicates an advance to the highest point yet reached this season, and the tendency was still upwards. At the time of our last report, the last previous advices from Europe left Ohio flour in Liverpool, at the quotation of 34s; by the arrival of the Niagara, on Thursday, the quotation had advanced to 35s; and by the Arctic, on Monday, to 36s. Prices here have accordingly stiffened; but as our market, at the date of our last report, was kept above the shipping point, in consequence of a short supply, and as the supply, from this time forward, will be full, sellers will not experience here, an advance equivalent to that in England. The market closed on Tuesday, at $6,00 for superfine, and $6,12@$6,25 for extra.

Navigation has been permanently resumed on the Monongahela, which will let out a large amount of produce that has been accumulating at various points along that stream.

In Money matters we have no improvement to note There is no active demand for money, and rates out of doors, for first class paper, rule from 12 to 18 ₱ cent. ₱ annum; paper not prime can not be negotiated.

EXCHANGE.—The following rates for Exchange and Currency are corrected to date:

	Buying.	Selling.
Philadelphia and Baltimore,	¾ dis.	par.
New York,	par.	¼ dis.
Cincinnati and Louisville,	¼ dis.	½ dis.
Boston,	1 do	¾ dis.
New Orleans,	¾ dis.	1 dis.
Currency	½ dis.	¾ dis

By the Ohio and Pennsylvania Road to Cincinnati, the rates for the three classes of freight from solid to bulky are 40, 50 and 60. By this route freight is sent through to Cincinnati in about twenty-four hours. The Cleveland and Pittsburgh Road the rate to Cincinnati is 50 cts per 100 lbs. Between Pittsburgh, Philadelphia and Baltimore, the rates by Canal are 37½@40 for 4th class freight, 3d class 50, 2d class 60, and 1st class 75 by railroad, 40, 50, 60 and 75. Flour, by canal, 6¼ cts ₱ bbl; by railroad 75.

ASHES—we note a moderate demand for Pots and, at 33½@33¾, for ordinary imported and domestic, and at the usual advance for refined qualities. Pearls are in good demand, and prices are a shade better; we note sales at 5¾ @5¾, a lot of 12 tons having been sold at the latter figure. Pots we quote at 4@4¼, and Tolerable sales the same figure, the outside rates being to the retail trade.

APPLES—green apples are arriving freely, and are in good demand; no prime qualities sell at $1,00@$1,50, on arrival, good do. at $1,50@$2,00, and choice at $2,00@$2,25.

BEESWAX—there is a regular demand for Beeswax, and small sales on arrival at 24@25.

BOARDS—the receipts are light and all that are offered sell readily at our quotations. We quote on arrival, Common at $1,12@$1,75; extra and fancy, $1,75@$2,75

BUCKETS & TUBS—we have no change to notice in the prices of these articles; the demand is moderate.

BUTTER & EGGS—we hear but little inquiry for Butter, and not much offering; we quote common packed at 11@13, though we hear of one sale at 14, and prime rolls in salable order at 16@18. Eggs are in demand at 11@11¾, on arrival, the supply being short

BRANS—are not inquired for, and we have no sales to note.

BACON—the sales of the week have been confined to the trade demand, at previous quotations—7@7¾ for Shoulders, 7¾@8 for Sides, and 9¾@10 for Hams. Should a rise to the river sufficient to take out coal boats, be experienced, the stock on hand would be largely drawn on to supply that trade.

BUCKWHEAT FLOUR—we note sales of 700 sacks, 10 lbs each, at $1,21, and smaller lots at $1,25@$1,37 ½ the bag and bbl., sales at $2,00@$2,12 ½ 100 lbs. The supply is large, but there is an active demand for shipment to ports below.

BRICK—steady sales of Bolivar fire brick are making at $25 for common and $40 for extra. Fire Clay, $12 per ton.

CANDLES & SOAP—are firm at the advance before noted: we quote dipped at 11, mould, 12¾, Adamantine, 24. Soap, 5@6¾.

CHEESE—the supply is better, but the demand is dull; we note steady sales to the trade at 9¾@10 for Western Reserve.

COFFEE—prices are firm at former quotations; 35@36, cash and time, with a steady demand.

CRACKERS—are firm at the advancing before noted; we quote Water at $4,50, Bbbl. Butter $5,50, and other qualities in proportion, ₱ lb.

DRIED FRUIT—the demand is quite limited; some sales of old Dried Apples have transpired at $1,00, new are held at $1,25@$1,12, and new Dried Peaches at $1,37½@$1,50. Cherries—prime Western feathers are held at 50, by the lot, and 55 by retail.

FISH—the high rates prevailing restrains the demand, and we have but few sales to note; we quote Mackerel No. 3, at $12@$13 per bbl; and No. 2 at $15@$16,00.

FEED—bran is held at Cars $12 and $13@13½, by the lot; Shorts at 17, and Middlings at 27. We have, as yet, seen no arrivals from the country.

FLOUR—owing to very light supply, prices did not recede here, below $6,75 @superfine, and the inadequate supply since Monday is better, and prices, under the stimulus of the foreign news, have improved. Sales on Monday were made freely at $6,50 for superfine, and on Tuesday, at $6,00 for superfine, and $6,12@$6,25 for extra. The stock now on hand is extremely light, but it is expected that the supply will be fully equal to the demand.

GRAIN—We note an active demand for all kinds of Grain. Sales of 2500 bus Corn, in ear, on arrive, at 40, and from store at 42@45. Corn is in request; sales of old have been made at 70, an lot new at 55, we may quote 50@55 as the outside selling figure; new Corn. Rye meets with ready sale at 70@75. Barley is in brisk demand, and we quote at 85@90. Wheat is also a very ready sale, in any quantities, at $1,10 for Mediterranean, and $1,15@$1,20 for Red or Red and White.

GROCERIES—shipments on country orders are going forward freely, but there is no change in rates; Sugar, by the hhd., steady sales at 6@6¾; by the bbl., 6¾@6¾. Molasses, sales during the week, to the trade, of about 600 bbls., at 27@28, and by the single bbl., at 29@30. Syrups is rather dull, and moves slowly at 11¾@12, by the bag. Rice, 6¾@6¾.

GREASE—sales at 7½@8¾, as in quality.

GERMAN GLAY—sales regular at $27 per ton, cash and $46, time.

HIDES—Green Beef Hides now command 5 cents ₱ lb. Dry Hides are not in market to any extent.

HAY—for several days past, the supply has been short, and prices at the scales have advanced to $12@$15 ₱ ton.

HOPS—we have no sales reported, but first sort, fresh crop, scarce, we hold at 45.

IRON & NAILS—we are not advised of any change in rates; we continue to quote common puddled bar at 3¾, Juniata do. at 4¾; Nails, 10d and upwards, at $4,50 ₱ keg, 2 ₱ cent. off, for cash.

HOGS—are in fair number for market. Hogs, for November deliv.ry, in the killing season, have been contracted for, at 5 cents, net, but the news from Cincinnati indicates a very dull market for cut meats, and the improbability of any thing being done in the packing of hogs at less than 5 cts. Several negotiations for large lots of Hogs at 4¾@4¾, net, for December delivery, have been abandoned there. We still adhere to the opinion that this will be as good a market as Cincinnati, for Hog products, and that prices will rule a little higher as the season advances.

LARD—the stock is quite low; we quote No. 1, in bbls, at 11@11¼, with very few sales.

LEAD—there is no Pig Lead in market, and will not be until the river rises.

NAVAL STORES—Spirits Turpentine continues to sell at 80@83, in small parcels; Tar, we quote as before, at $5, ₱ Bbbl: Pitch, at $4,00, and Rosin at $3,00. Demand limited.

OILS—Linseed Oil is held pretty firmly at 80@85 with a certainty to advance if war between Russia and Turkey breaks out, as England draws largely upon Russia for her supplies of Linseed Lard Oil is held at 85@90, for No. 1, and 75@80 for No. 2.

POTATOES—sound potatoes, in limited parcels, find steady sales at good figures; we note sundry lots of 60 and 65 cts, each, sold at 31 for Reds and 44@50 for Neshannocks; some lots offered have shown a tendency to rot, and all such are unsalable.

PIG METAL—very few sales have transpired during the week, the market is bare; the present rise in the Alleghany will bring down a part of the accumulations of the Alleghany regions, and the Philadelphia Commercial List notices a shipment of 1000 tons of Anthracite, per Ark, from Lewistown, and a number of barges quoted at $3@$3 87,50. and it costs $5@$10 a ton to bring it out, it will readily be seen that this shipment cannot be afforded here, at figures under the ruling rates for Alleghany metal, which cannot now be had at nearly figure below $45.

RAGS—are in demand, and firm at 3¾; sales of several mixed lots, at that figure, on arrival.

RYE FLOUR—what little is offering, is held at $5,00 ₱ bbl.

SALT—prices have again advanced; No. 1 is now held firmly at $1.50 ₱ bbl., and Extra at $1,60, at which figures several hundred bbls. have changed hands.

SHEETINGS—we quote sales of Banner Mill sheetings No. 7 at 6¾, and No. 9 at 8.

SCRAP IRON—is saleable in almost any amount at 2 cts ₱ lb.

TALLOW—we hear of no sales; there is very little in market, the principal buyers having contracted for their supplies in the rough, at 6¾; rendered. We may quote at 9@9¾.

TOBACCO—the demand for manufactured is fair, and prices are firm: we note steady sales of Twist at 10, and lumps at 21@26, according to brand. No sales of leaf reported.

SEEDS—very little Clover seed has yet been offered, but dealers are ready to buy at $5,00, for the present, which we may make the standard quotation; Flaxseed is in steady demand, and sales are made freely, on arrival, at $1,20 @$1,25.

TANNERS' SCRAPS—we quote sales at 2¼ ₱ lb.

TIN—we quote firm at the previous advance; 14 @ $11, and 1 X $13, cash; Block Tin, plate, 23@25, cash and bars, 35.

WHISKEY—holders are firm at advanced rates, and we note pretty active sales of rectified at 28, by the lot, and 29, by the single bbl; raw, sales at 26.

WINDOW GLASS—no sales for shipment are yet reported, but the demand will doubtless, be brisk during the week. Holders are firm at $2,50 for country brands.

WHITE LEAD—the demand is active, and sales steady at former rates; we continue to quote pure in Oil firm, at $2,50 ₱ keg, and dry at 9 cents ₱ lb. Red Lead, 8 cents ₱ lb. Less the usual discount.

REVISED AND NEWLY ILLUSTRATED EDITION

SMITH'S GEOGRAPHY AND ATLAS,

TO WHICH HAS BEEN ADDED,

ANCIENT GEOGRAPHY.

THIS work has been very much enlarged, embellished with new illustrations throughout, designed expressly for it, critically corrected and thoroughly revised, so as to conform to the census of the United States for 1850—to that of Great Britain and Ireland, March, 1851, and to the latest that could be obtained of other countries.

The acquisition of territory to the United States, the discovery of the mineral wealth of California and Australia, and the establishment of steam communication between remote parts of the earth, have greatly increased geographical knowledge.

The information thus obtained has been carefully collected and inserted in this edition. It has been not only added new maps of the States of recent formation, but to the Territories of Oregon, Washington, Utah, Nebraska, and the countries of Mexico and Central America, which has been done from the latest and best authorities.

A large portion of the Roman Empire is also added, to aid in the study of Ancient Geography.

By a system of Problems and Abbreviations, consisting of Stars, Crosses, Book, Chapter, Verse, &c., conspicuously arranged on all the maps, representing the grand divisions of the globe—the Government, Religion, State of Society, Population, Navigation, &c., of the more important countries, become apparent at the first glance, and by thus calling into simultaneous exercise the powers of the mind and eye, impressions are made more abiding than by any other means whatever.

Besides all this, the work is rendered still more valuable and complete by the addition of a complete compendium of

ANCIENT GEOGRAPHY,

which will be found as interesting and instructive as the more extended treatise on this subject.

The Atlas has not only been thoroughly revised, corrected and enlarged, as stated above, but also contains a large number of new and interesting statistical tables, from the census of the United States and other sources.

It will be published all over only,

A set of questions, for general revision, is appended to the work, which will be found of great convenience to the Teacher, and to the pupil, as it will enable the latter, readily and distinctly to fix in his mind, in a condensed form, the main facts connected with the subject in hand.

These improvements and additions will greatly enhance the value of the work, and if the views and method of the author are carried out, much valuable time of the pupil will be saved, and great labor on the part of the teacher avoided.

Smith's Series of Geography consists of

Smith's Primary Geography for Beginners,
Smith's Quarto Geography,
And Smith's Geography and Atlas as mentioned above. 1 do.
