HOME MATTERS.

RIVER ITEMS.—The river continues to recede but slowly. The state of water yesterday evening was 6 feet scant. The weather on Thursday became cold and clear, and continued so yesterday.

The arrivals were the Admiral, from St. Louis, the Crystal Palace from Louisville, the Buckeye State from Cincinnati, the Financier from Gallipolis, and the Twin City from Louisville. Each had large loads.

The Admiral was on her first return trip, and although only what is called a "freight boat" made excellent time. She ran for 40 miles alongside of the Falls City, one of the brag boats of the Union Line; and would have kept up all the way but for some accident to her machinery.—The Admiral has thus proved her mettle.

There was considerable talk, on the levee yesterday, as there has been for several days past, about the rupture of the arrangement between the Pittsburgh and Union packet lines. The Union, or Wheeling line has, it seems, after voluntarily entering into the plan for a consolidation of the two lines, backed out, and the consolidated line is at an end. The rumor was, yesterday, that the City of Wheeling and the Baltimore & Ohio Railroad Company had each contributed $50,000 towards indemnifying the "Union" line from loss, if re-established. This, of course, wants confirmation; but we are assured that there is some foundation for it. The intention is said to be to run the "Union Line," consisting of five boats—the Alvin Adams and David White withdrawing from the line—from Wheeling to Cincinnati; abandoning altogether the Louisville connection.

We are not advised of the purpose of the owners of Pittsburgh packet line; but we entertain no doubt that it is their true policy to increase the strength of their line and extend it to Louisville. The line has lived, heretofore, and been profitable, without need of resorting to bonuses from railroad and city corporations, and it will, beyond peradventure, continue to flourish, in spite of all combinations to the contrary.

MEETING AT THE LIBERTY STREET CHURCH.—On Thanksgiving evening a very large and respectable audience convened in the Liberty street Methodist Church, to give expression to their views and listen to addresses in the importance of establishing a Biblical department in Allegheny College, Meadville, Pa.

Rev. Dr. COOK, of this city, was called to the chair.

Prof. KINGSLEY made a lengthy and eloquent address on the necessity of increasing the means of obtaining a Biblical education, to those students contemplating entering the ministry. He was listened to with the greatest attention.—Rev. Dr. BARKER followed.

From the general interest manifested in the undertaking in the ministry and laity of the Pittsburgh Conference, no difficulty in scaring the additional endowment is, we understand, anticipated.

THE WESTERN PENITENTIARY.—During this month seven prisoners have been committed to and seven discharged from the Western Penitentiary. The number of inmates is one hundred and eighty, of whom only three are females.

Too much praise cannot be awarded Major BRONHAM, the able Warden, for his scrupulous attention to the cleanliness of the spacious building, and the comfort of the prisoners. The floors are kept as clean as they can possibly be kept, and the kitchen and other apartments used for cooking, are miracles of neatness. The bread is really of the finest quality. The supply is baked only the day previously to that on which it is used, so that the prisoners are always regaled with fresh bread. One of the most striking features connected with the prison, is the extreme regularity and system with which everything is performed; no confusion is apparent; everything is conducted in the most quiet manner.

We are under many obligations to Mr. ALEXANDER, the gentlemanly clerk, for his willingness to impart information when requested, a quality which cannot be too much appreciated by those whose business compels them to depend upon the kindness of officials.

UNITED STATES CIRCUIT COURT.—Judge Grier presiding.

The case of Myers vs Reis, the jury returned SEVEN HUNDRED DOLLARS damages for plaintiff.

Rodgers vs Walker. Action of ejectment.—No defence was offered; Hampton for plaintiff.

The jury were discharged finally, the jury trials being finished. The Court will meet for arguments to-day.

DISTRICT COURT.—The argument list was before Court yesterday; nothing of general importance was transacted.

THANKSGIVING DAY—FIGHT.—As a general thing, Thursday passed off in a very peaceable manner. The only disgraceful matter we have to record, is a brutal fight which occurred on the corner of Fifth and Wood streets, about seven o'clock, in which one man, whose name we withhold, was dangerously if not fatally hurt, by a blow from a knuckle. The names of the assailants are not certainly known, but all were under the influence of liquor. The police are on the alert and some arrests will probably be made within a day or two.

MALICIOUS MISCHIEF.—A woman named Susan Smith, *alias* Allen, was taken before Alderman Thompson yesterday, for malicious mischief, on oath of Wm. McLaughlin. She was a tenant of the complainant, but on neglecting to pay the rent, he endeavored to eject her. For that purpose a warrant was placed in the hands of the proper officers. On attempting to remove the bed-stead, Susan made great but ineffectual resistance. She then seized one of the pieces and commenced an attack on the house, breaking in the doors and windows. After giving security for the payment of damages, costs and rent, McLaughlin withdrew the complaint, and she was discharged.

ASSAULT AND BATTERY WITH INTENT TO KILL.—A man named Richard Mellhanny appeared before Alderman Parkinson yesterday, and made oath against Robert Dunlap and wife and Joseph Dunlap, for the above mentioned offence. He stated that he had gone to the farm of defendants in Indiana township to take possession of a sheep belonging to him, when the defendants made an attack upon him, one of them laying him down upon the ground with a cart rung, and beating him with various household implements. The parties named were arrested and held to bail.

ASSAULT AND BATTERY.—On Thanksgiving day, some half dozen rowdies entered the tavern of Philip Scheriubley, in the Fifth Ward, and called for liquor. After drinking they refused to depart, departing without paying the bill, when they were requested to settle for the liquor by Scheriubley. They refused to do so, and made an assault upon Scheriubley. He was badly beaten. Yesterday he made oath to the fact, before Alderman Parkinson. The police are now endeavoring to ascertain their names and whereabouts.

A CHARGE of passing Counterfeit money was preferred against a man named Solomon, yesterday, before Alderman Parkinson, by Andrew M'Cready. A warrant was issued for the arrest of M'Cready.

PASSING COUNTERFEIT MONEY.—William Fitzsimmons made information yesterday, against the captain of the canal boat "Wm. Bingham," for passing a two dollar counterfeit bill upon him for the same. On being arraigned before Alderman Parkinson, the Magistrate before whom the complaint was laid, the defendant redeemed the bill and paid the costs, whereupon he was discharged.

SAD NEWS.—A man named John O'Neil was taken to the Penitentiary yesterday.

A FOREST of workmen were engaged yesterday in erecting a government railing along the curve near the Ohio street railroad bridge, in Allegheny. Had this been done some time ago as it should, the life of one man would have been saved, and a number of less fatal accidents prevented.

P. M. DAVIS, Auctioneer, will continue this morning at 10 o'clock, the sale of Groceries, at J. Grier's, No. 285 Liberty street.

SURETY OF THE PEACE.—George Newman was held to bail by Alderman Parkinson, yesterday, for Surety of the Peace, on the oath of Philip Leip.

COMMITTED.—John Lowrie, of Prospect street, was committed to jail yesterday, by Alderman Major, for beating his wife.

Money market unchanged; Consols, money and account, 94.

The Canada sailed from Liverpool at 4 P. M., and arrived at Halifax at 10 in the morning.

The overland mail brings the important report that the Czar has formed an alliance with Dost Mahomet to proclaim war against the British in India, if the British government persists in supporting Turkey. A large Russian force is to invade Bokhardi, and the Persian army is collecting in the valley of Scoltama, to co-operate with the Russians against Turkey.

Parliament will probably assemble forthwith.

The reports from Constantinople expressly contradict the statements that Persia is hostile to Turkey.

The Emperor of Russia has issued an arrogant manifesto. After recapitulating leading points of the controversy, he says that Turkey having declined in the ranks of her army the revolutionists of all countries has commenced hostilities on the Danube, Russia provoked to combat has no other means left than to have recourse to arms to compel the Porte to respect her treaties, and to obtain reparation for the offence by which it responded to our most moderate demand in behalf of the orthodox faith in the east. It is dated 23rd October, 24th November.

The Consul of France at Bucharest, telegraphed on the 6th November as follows: On the 2d and 3d the Turks crossed the Danube from Cortukai, with 18,000 strong. The Russians attacked them with 9000 men. After a brisk coonade and a bayonet combat, the Turks maintained their positions. The combat lasted three hours. The Russians lost several officers and 136 privates were killed, with six superior officers, 18 subalterns and 479 were wounded.

The Turkish loss was not stated. Another account via Vienna states that 14 Russian superior officers were killed. The Turks remained masters of the field, the Russians retreating on Bucharest. Before the Turks crossed the Danube a body of Cossacks came to river bank and made sign insulting to the Egyptians who rushed to their boats and rowed across in the face of the Cossacks. The Turks punished them well, and chased them in land. They returned to the camp in triumph.

There have been several other movements of the Turks along the river. It is rumored that a Russian steamer was destroyed at Horsova.

Constantinople accounts state that Selim Pacha crossed the Russiah frontier in Asia, when a battle ensued in which 5000 were engaged.—Both parties fought well, when night came on. In the second battle the Russians were defeated.

On the 20th October Maccow Bey, an officer of Selim Pacha's staff, with a small force, were suddenly attacked by a body of Russian cavalry. Bey fell back fighting towards the main body of the Turkish army. The battle speedily became general, 15,000 Russians were engaged. After a desperate contest the Russians were defeated, fled and were pursued by the Turks who plaundered their stand rd at the Russian's quarters at Onell.

The Russians were defeated and beaten back to Bucharest, where the main body was under Gen. Danenbergh, 2,000 strong.

The Turks have beaten the Russians in Asia The Turkish left wing in Europe has beaten the Russian right, composing a powerful force. The Turkish centre has whipped 9000 Russians at Tertugoi and are now pressing upon Bucharest.

It is now hopeless that diplomacy can end the difficulties until after a decisive battle.

The typhus fever is raging in the Russian ranks, it has reduced the fighting men to 85,000. It will be six weeks before reinforcements can arrive.

The Porte has decided that foreign refugees shall not be employed in Europe, but may serve in Asia.

Constantinople was quiet.

The British fleet at Spit-head was ordered to be ready for sea on the 11th. Its destination is unknown.

Mr. Buchanan attended the Lord Mayor's banquet. His speech was merely complimentary to the Earl of Aberdeen, and referred to his known peace policy, but said it was not impossible to engage in war to prevent great evils. Other ministers who were in attendance made no political allusions.

A full Cabinet council was held on the receipt of the Indian news.

The weather in England was favorable to wheat sowing.

At the trial of the conspirators in the Opera plot, the evidence was clear of a plot to assassinate Napoleon.

The metal founders of France are strongly urging the government to reduce the duty on metals, which caused speculation on British iron.

The Belgium legislature opened at Brussels on the 8th. The King's speech was merely complimentary.

Austria was concentrating a force on the Servian frontier. The Servian government has ordered the population to arm and inform the Porte that neither Turkey nor Austria will be permitted to occupy Servia. Turkey will expect her to prohibit the Russians from supplying the Montenegrins with arms through the port of Cattaro. Austria offers to remain entirely neutral if the Porte refrain from employing Austrian refugees.

LATEST NEWS.—*Important.*—Five Russian officers have arrived as prisoners of war at Constantinople.

The fleets anchored in the Bosphorus; Bucharest, it is reported, has been stormed

A son of Aras Pascha had been named as Minister of War.

Fresh levees are making in Egypt and the Turkish army is paid promptly.

VIENNA, Nov. 10th, evening.—The following condition is insisted upon by Omar Pascha in a note to Gortschakoff. All the strong holds in the Principalities are to be immediately surrendered. A complete evacuation of the principalities as speedily as possible and a guarantee on the part of all the powers against a similar invasion.

According to the latest accounts from Constantinople, the Sultan positively rejected all proposals of the diplomatists which had been submitted.

It was freely reported that 25,000 French troops would be sent to Turkey, but that the orders would not be given until the government receive despatches from Gen. De Hilliers, at Constantinople.

NEW YORK, Nov. 25 —The Washington arrived at New York, but the Canada anticipates her news.

PHILADELPHIA, Nov. 25 —Thanksgivnig day was generally observed in Washington, Baltimore and Philadelphia, business being suspended; churches open, &c. The papers mostly issued extras with the European news.

The President has so nearly recovered as to be out to day. His message is nearly completed and will be sent in advance to the distant newspapers; all rumors to the contrary are unfounded.

CINCINNATI, Nov. 25 —The Printers struck this morning. The proprietors of the morning papers are willing to pay the full prices, but they refuse to have anything to do with the combination. There is an excellent opening now for printers who desire permanent employment.

FROM BRAZIL.

NEW YORK, Nov. 24.—By the arrival of the clippers Seaman's Bride and Union, of Baltimore, we have dates from Rio to the 17th October, Buenos Ayres, to the 2d and Montevidio to the 4th Oct.

Robert C. Schenck, late Minister to Brazil, came passenger in the Union. He proceeds to Washington in a few days to report relative to a treaty concluded, securing the perpetuality of the free navigation of the La Platta and its tributaries.

Mr. Schenck took leave of the Emperor, and Mr. Trousdale, the new Minister, was presented on the 8th of October.

Senor Leab, the Brazilian charge to Paraguay arrived at Rio on the 13th of October, having been ordered off by the President of Paraguay on account of alleged insulting remarks about him. The course of the Brazilian government in the matter is unknown.

From the Argentine confederation we learn that a Constitutional Congress of the other thirteen provinces exclusive of Buenos Ayres, which still stands out alone, is still in session. It has refused to accept the resignation of Urquiza as provisional director.

The Presidential election is appointed for the 25th November. It is said that Urquiza will undoubtedly be chosen President.

It is probable that the Congress of thirteen Provinces have unanimously approved of the treaties with the United States, made by Urquiza

The seat of the Confederation has been established for the present at Parana.

Montevidio remained quiet. The deposed President was still in the harbor on board a French man-of-war.

At Rio the fever had entirely disappeared and the health of the place is good. Coffee is still high.

NEW YORK, Nov. 25.—The packet ship Constellation arrived at Quarantine from Liverpool. One hundred deaths occurred on her passage, and twenty are yet sick.

BOSTON, Nov. 25.—Otis H Weed, ice dealer, failed for $50,000 to $75,000. He is absent in Australia.

EDUCATIONAL.

REVISED AND NEWLY ILLUSTRATED EDITION

SMITH'S GEOGRAPHY AND ATLAS,

TO WHICH HAS BEEN ADDED,

ANCIENT GEOGRAPHY.

THIS work has been very much enlarged, and embellished with new illustrations throughout designed expressly for it, critically corrected and thoroughly revised, so as to conform to the census of the United States, for 1850—to that of Great Britain and Ireland, other country's.

The acquisition of territory to the United States, the discovery of the mineral wealth of California and Australasia, and the establishment of steam communication between remote parts of the earth, have greatly increased geographical knowledge.

The information thus obtained has been carefully collected and inserted in this edition. It has been not only necessary to correct the maps of former editions, but to add new maps of the States of California and Texas, of the territories of Oregon, Washington, Utah, Nebraska; and the countries of Mexico and Central America, which has been done from the latest and best authorities.

A large map of the Roman Empire is also added, to aid in the study of ancient Geography.

By a system of Emblems and Abbreviations, consisting of Stars, Crosses, Books, Steamboats, &c., conspicuously placed on the maps, representing the grand divisions of the Globe—the Government, Religion, State of society, Commerce, Navigation, &c., of the more important countries, become apparent, at a glance, and by reading and recollecting this simple analysis exercise the powers of the mind and eye, comprehend and remember more abiding than by any other means whatever.

Besides all this, the work is rendered more valuable and complete by the addition of a complete compendium of

ANCIENT GEOGRAPHY,

which will be found as interesting and instructive as the more extended treatise on this subject.

The Atlas has not only been thoroughly revised, corrected and enlarged, as stated above, but also contains a large number of new and interesting statistical tables, from the census of the United States and other sources—It will be put in stiff cover only.

A set of questions, on general revision, is appended to the work, which will be found of great convenience to the teacher, and aid to the scholar, by bringing definitely and distinctly to his mind, in a condensed form, the main features of the subject it has gone over.

These improvements and additions will greatly enhance the value of the work, and if the views and method of the author are carried out, much valuable time of both teacher and scholar will be saved, and great labor on the part of the teacher avoided.

Smith's Series of Geography consists of

Smith's Primary Geography for Beginners, $ 40.
Smith's Quarto Geography, 75.

GREAT ENGLISH REMEDY.

THE MOST VALUABLE

Spring & Summer Medicine in the World!!

DR. HALSEY'S

FOREST WINE.

Patronized by the Nobility and Medical Faculty of England, and esteemed the most Extraordinary Medicine in the World.

Medicines containing Molasses or Liquorice, like the above, are generally inquire many large bottles to produce the effect of a single bottle of Forest Wine, which is altogether a different article. It contains no spirits to give it a transient stimulus, but acts upon the blood in a safe and powerful medical properties from the vegetable plants of which it is composed. The *Forest Wine* combines the virtues of the

WILD CHERRY, DANDELION, YELLOW DOCK, AND SARSAPARILLA,

with other valuable plants whose properties are still more active.

Its high concentration renders it one of the most efficient medicines now in use. Sometimes less than a single bottle restores the most shattered system to perfect health. Debility and sickness, to strong and vigorous health. Every dose shows its specific effects in the constitution, and improves the state of the health. The Forest Wine is recommended in the strongest terms, for all complaints of the

Stomach, Liver, Kidneys, Nervous Disorders, Bilious & Pulmonary Complaints, Loss of Appetite, Jaundice, Female Complaints, Scrofula and all Disorders arising from BAD BLOOD and impure habit of the system.

SAVED FROM DEATH!!

Testimony of Mr. Nathan Mathews, a highly respectable and wealthy citizen of Newark, N. J.

NEWARK, N. J., March 1st, 1853.

Dr. HALSEY—Dear Sir—Having taken your Forest Wine and Pills for months for a severe affection of the Liver, from which I have suffered severely for upwards of 20 years, and have also suffered severely for upwards of 20 years, and have also suffered severely for upwards of 20 years, and have also
