POPULAR TRIUMPH IN ENGLAND. - Under this sead the New York Tribune notes a decision recently given by the House of Lords, on an appeal to that body from the Court of Exchequer Chamber, affirming the right of the unjority of t the payers, in Church parishes, to resist the pay-ment of Church taxes which they have not voted. The case is thus stated by the Tribune:

The Ecclesisation Law of England declares that all the inhabitants of any parish, no matter what their persuasion, are bound to repair the parish Church, and for this purpose are bound to tax themselves to the extent uccessary. And this tax, under the name of church-rate, is regularly collected in mast of the country districts; while in all the towns where a majority of the rate payers are unholders of the Church and comwhile in all the towns where a majority of the rate payers are upholders of the Church and one mand a majority of the vestry meeting, it has always been as certain a burden at the poortax or highway-tex. All attempts in Parliament to do away with the injustice of taxing people who do not belong to the State Church for its support, have proved fattle, and the only resistance offered to it has been by now and then a quaker or other sturdy dissenter refusing to pay for conscience sake allowing his goods to be distrained upon, and publicly sold as a means of bringing soundal upon the Church.

conscience sake allowing his goods to be tryined upon, and publicly sold as a means of bringing soundal upon the Church.

But for the last thirty years parishes have been found where the majority were dissenters, and where, when the rate was proposed by the Vicar and Church-wardens, it has been steadily and sturdily negatived. These parishes have goes on multiplying exceedingly, autil they included all those situated within the large towns, and especially all the manneaturing towns of the northern and midland Counties. These twens the Church has sorrowfully given up as hepelossly lost to her, and it is long since a hepelossly lost to her, and it is long since a compulsory church-rate was attempted to be leveled to him. There was a very strong lobby force in Forney's interest of the ground from Philadel.
