Rosse's Patent Coupling and Foreplate, FOR RAILROAD AND SHEET-ROLLS.

CAN NOW BE SEEN IN OPERATION at Messrs Baily, Brown & Co.'s Rolling Mill, Pittsburgh, or the "Sharon Works," Mercer county, Pa. The advantages of my improvement are—that it obviates the necessity of clopping the engine or throwing off the crab to connect the top roll when Scouring as the top roll is connected and disconnected in an instant without respect to the engine, crab or anything else. The FOREPLATE is also constructed so simple and complete that it is placed or displaced in half a minute, without removing a spindle, scraper, bolt or nut. The last, though not least advantage of my improvement is, that by it you can waste little or no Iron between bars, thus making a higher polish on Nail plate and Sheet-iron than has ever been put out before. Further information, or a right to use the same, can be obtained of the subscriber.

JOHN ROSSE,

Manufacturer of Chilled Rolls, Pittsburgh.
