Reese's Patent Coupling and Foreplate, FOR NAIL-PLATE AND RIVET-BOLTS,

CAN NOW BE SEEN IN OPERATION at Messrs Selby, Brown & Co.'s Rolling Mill, Pittsburgh, the "Kinsman Works," Mercer county, Pa., the attendance of my improvement are invited to obviate the necessity of stopping the engine or throwing off the cold, a coupling is put on following the cutting shears, so the top roll is connected and disconnected at will, without stopping the engine, or touching any thing else. The FOREPLATE is also constructed on simple and complete that it is placed or displaced in half a minute, without requiring a screw, screwer, bolt or nut. The Establishment has great advantages of any in the country, in that by it you have constant to hand the bolt of the exact form, thus making a higher and more valuable article and therefore can afford to sell it cheaper than any in possession of the inventor.
