[From the St. Louis Intelligencer, Jan. 17.]

GREAT SNOW STORM IN ILLINOIS—THE IRON HORSE IN A SNOW DRIFT.—A terrible snow storm has prevailed along the line of the Mississippi and Chicago Railroad, east of Bloomington, and thence as far north as Chicago, covering the track in many places to the depth of eight or ten feet, cutting off for the time being, all communication with our neighbors of Chicago and points further east.

Passengers who left Chicago Wednesday by the evening train arrived in this city Sunday, after innumerable hardships, and narrow escape from freezing or starving. The train was stopped near the centre of Grand Prairie at 2 o'clock A. M., Thursday, by a formidable snow drift, and for thirty-six hours not the least progress could be made. During that time intense suffering was endured by about one hundred and fifty passengers, and with little or nothing to eat. Clogged and surrounded in the midst of a boundless prairie, by a mountain of snow, their situation can be imagined better than described. However, by shoveling and digging through the embankments, the train finally arrived at Bloomington Friday noon, and from that point to this city, the journey was comparatively an easy one.

The down train was not however, the only one to suffer, for on its way into Bloomington, eight miles from that place, the up train was discovered lying idle on a switch, deserted by the passengers, conductor, and all hands, who had returned to the town to keep from freezing or starving on a cold, snow-drifting prairie.

The morning train from Chicago having overtaken the evening train in the prairie, fared no better, and both reached Bloomington about the same time. Passengers from Alton last evening bring a still more unfavorable report. The track is open to Bloomington; but beyond there is a boundless expanse of snow, the trains have stopped, "let down," frozen up. The "iron horse" has met his match at last, and has succumbed to the frosty breath of Old Boreas, who has stiffened his limbs and sent a piercing icicle to his heart.

The trains failed to reach Bloomington on Saturday and Sunday, and a rumor was current that no less than three locomotives had been frozen up between that point and Lasalle. Three eastern mails, and as many passenger trains were due, but neither mails or passengers had made their appearance when the cars left Bloomington for Alton Sunday morning.

MEDICAL.

TO THE PUBLIC.

MOST IMPORTANT ANNOUNCEMENT:
RETIREMENT OF PROF. JAMES McCLINTOCK, M. D.
From the Philadelphia Medical College.
A NEW ERA IN THE HISTORY OF MEDICINE
Popular Medicine for the first time sanctioned by the
HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK, M. D., of Philadelphia, known for more than a quarter of a century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of a series of FAMILY MEDICINES therefrom, which will be put up in a *cheap* and *popular* form, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the wild est research, and the almost unequaled experience of one of the first physicians of the age. Each remedy is especially shaped to *some particular form of disease*, in accordance with the *highest principles of modern medical science*. Each of these remedies have been tried, improved, and finally perfected. In the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country, where his great reputation has called him. Their nature and effect are known and approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were under his tuition, in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE:

This is to certify, that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my "Family Medicine," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students, and who are many of them now practising with distinguished success in all parts of the country. My inducement for this step are numerous one of the most urgent is, that the demand for my remedies has become so large, through private report of their success, as to make their preparation too great a draft upon my time another is, the repeated solicitations of my friends and patients, in the belief that the general introduction of my remedies would be in many respects a public benefit; and finally, in securing the cooperation of Mr. Alexander Cushman, who is a thoroughly educated chemist and practical Apothecary of many years experience, whereby I am enabled to assure the public that there will be prepared in the best, purest and most perfect form, regardless of expense.

JAMES McCLINTOCK, M. D., late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery, one of the Consulting Physicians of the Philadelphia Hospital, Physician by late member of the National Medical Association; member of the Philadelphia Medical Society; member of the Pelagical Surgical College of Philadelphia; formerly President and Professor of Anatomy and Surgery in Castleton Medical College, Vermont, and also, late Professor of Anatomy and Physiology in Berkshire Medical Institution, Pittsfield, Mass., &c. &c. &c.

XII.....ANTI-BILIOUS PILLS,

For Liver Complaints, and all forms of disease arising from derangements of the liver, with symptoms such as yellowness of the Eyes and Skin, Dizziness, Headache, with wind in shoulder, sense of fullness or pain in the right side, disordered stomach or bowels, deficient action of the kidneys, cold and clammy sweats, &c. These Pills, if taken in the first stages of Bilious and Yellow, or other Fevers, will generally ward off the attack. PRICE, per Box, 25 Cents.

The undersigned, in accepting the appointment by Dr. James McClintock's Family Medicines, would respectfully state to the public, that in his profession as Dispensing Chemist, for nearly fifteen years past, during which time he has been actively connected with the best pharmaceutical establishments in this country, he has had constant occasion to use and prepare the prescriptions of the most eminent physicians, among whom he would name Dr. M'at Dr. Parker, Dr. Francis, Dr. Chossenau, Dr. Esse, Dr. Whittaker, Dr. Schmidt, Dr. Hosack, Dr. Klemm, Drs. Pratt and Young, Dr. Beals, Dr. Green, and many others in the city of New York.

The experience thus acquired enables him to discriminate with confidence between *legitimate medicines, combined scientifically*, so as to secure a harmonious chemical action in union with their highest therapeutical effects, and the inaccurate mixtures of quackery and ignorance wherein, for want of proper knowledge in combining them, the best ingredients may neutralize and destroy each other, or result in a substance highly injurious, and contrary to its intended design. It is with pleasure, therefore, that he testifies that the prescriptions of Dr. James McClintock are not only composed of the most valuable medical agents known to, and habitually employed by, our best practitioners in the treatment of the several diseases for which they are intended, but they are combined in such accurate proportions, in relation to their chemical and medicinal efficacy, as to secure the attainment of the utmost increase of their combined efficiency.

In committing he will only add for himself, that he can refer with confidence to his past career, as his guarantee to the public that these *great remedies* in his hands will be found productive of the most beneficial results in accordance with the prescription of their distinguished originator.
