PITTSBURGH GAZETTE.

NEWSPAPERS—THEIR BENEFIT.—Of all the amusements, says Hershell, that can possibly be imagined for a mind-wearing man after a day's toil, or in its intervals, there is nothing like reading an entertaining newspaper. It relieves his home of its dullness or sameness, which, in nine cases out of ten, is what drives him to the alehouse, to his own ruin and his family's. It transports him into gayer and livelier and more diversified and interesting scenes; and while he enjoys them, he may forget the evils of the present moment fully as much as if he was ever so drunk, with the great advantage of finding himself the next day with his money in his pocket, or at least laid out in real necessaries and comforts for himself and family, with not a headache. Nay, it accompanies him in his next day's work, and if the paper has has been reading, he anything above the very idlest and lightest, gives him something to think of besides the mechanical drudgery of his every-day occupation—something he can enjoy while absent and look forward with pleasure to return to. The history of the world for one day is given to him; the follies, the vices, and consequent miseries of multitudes are so many admonitions and warnings; the acts of jealousy and anger; the story of one friend murdered by another is a caution against gambling and profligacy; "talk they not of morals?" Take a good newspaper, read it and it will give you better advice than all the mere moralists in the universe.—*Albany Evening Journal.*

MEDICAL.

TO THE PUBLIC.

MOST IMPORTANT ANNOUNCEMENT;

RETIREMENT OF PROF. JAMES McCLINTOCK, M. D.?

From the Philadelphia Medical College.

A NEW ERA IN THE HISTORY OF MEDICINE!

Popular Medicine for the first time sanctioned by the

HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK M. D., of Philadelphia, known for more than a quarter of a century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of a series of FAMILY MEDICINES therefrom, which will be put up in a *cheap and popular form*, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the widest research, and the almost unequaled experience of one of the first physicians of the age. Each remedy is especially adapted to some *particular form of disease*, in accordance with the *highest principles of modern medical science*. Each of these remedies have been tried, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country, to which his great reputation has called him. Their nature and effect are known and approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were under his tuition, in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE:

This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., for sale, the article called "Family Medicine," with my full authority to prepare and put it up according to my directions, and have also placed in the hands of recommending and prescribing for many of the most respectable physicians in New North Bangor, and regular physicians, who have been my students, and who are many of them now practising with distinguished success in all parts of the country. Many other physicians in this place are numerous; one of the most urgent is, that the demand for my remedies has become so large, through private vote report of their success, as to make their preparation too great a draft upon my time, and that I am in receipt of solicitations of my friends and patients, to the belief that the general introduction of my remedies would be in many respects a public benefit and finally, in securing the co-operation of Mr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, I am enabled to assure the public that they will be prepared in the best, purest and most perfect form, regardless of expense.

ALEXR. McCLINTOCK, M. D. Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery, and also Practising Physicians of the Philadelphia Hospital, Blockley; late member of the National Medical Association; member of the Philadelphia Medical Society, member of the Medico-Chirurgical College of Philadelphia; formerly President and Professor of Anatomy and Surgery in Castleton Medical College, Vermont; and late Professor of Anatomy and Physiology in Berkshire Medical Institution, Pittsfield, Mass., &c., &c.

We would earnestly remind the intelligent public of the *great necessity* which exists for the introduction of a class *of good and reliable popular medicines*, which may be confidently adopted into family use, and be depended on *at all times* in the absence of a physician, as being the legitimate productions of *Science, Study and Experience*. No argument is needed to prove the immense superiority of such a class of remedies over the dangerous compounds that are daily puffed into notice by ignorant and reckless men, solely for the purpose of enriching themselves at the expense of the life and health of their fellow beings. We, therefore, confidently in the good sense of the community to support us in this effort to extirpate the great public evil of *Quackery* by offering a careful perusal to the following list, which embraces the first twelve remedies of the series, and which comprises some of the most valuable prescriptions ever discovered for the several complaints enumerated. A full supply of your friends and relatives, we feel sure, will be found in our store in the following cities.

XII.—ANTI-BILIOUS PILLS.

For Liver Complaints, and all forms of disease arising from derangement of the Liver, with symptoms such as Sallowness of the Eyes and Skin, Dizziness, Headache, with pain in the ears, pillow, furred tongue, pain in the right side, shoulder, sense of fullness or pain in the right side, disordered stomach, &c. These Pills, if taken in the directions, will speedily remove such symptoms, and restore generally ward off the attack. PRICE, per Box, 25 Cents.

The undersigned, in accepting the proprietorship of Dr. James McClintock's Family Medicines, would respectfully state to the public, that in his profession as Dispensing Chemist, for nearly fifteen years past, during which time he has been actively connected with the most extensive retail establishments in this country, he has had constant occasion to see and prepare the prescriptions of the most eminent physicians, among whom he has numbered many of the first, Dr. Parker, Dr. Francis, Dr. Cheeseman, Dr. Reese, Dr. Whitaker, Dr. Schmidt, Dr. Hosack, Dr. Sisson, Drs. Pennock, Dr. Wood, Dr. Beale, Dr. Green, and many others in the city of New York.

The experience thus acquired enables him to discriminate with confidence between *legitimate medicines, combinations and practice*, and the *empirical and quackish*, so as to secure a satisfaction in unison with their highest therapeutical effects, and the inaccurate mixtures of quackery and ignorance wherein, for want of proper knowledge in combining them, the best ingredients may neutralize and destroy each other, or result in a substance highly injurious, and contrary to the intended design. It is with pleasure, therefore, that he testifies that the prescriptions of Dr. James McClintock are not only composed of the most valuable medical agents known to, and habitually employed by, our best practitioners in the treatment of the several diseases for which they are intended, but they are combined in such accurate proportions, in relation to their chemical and medicinal effects, as to secure the attainment of the utmost increase of their power and efficiency.

In conclusion, he will only add for himself, that he can refer with confidence to his past career, as his guarantee to the public that these *great remedies* in his hands will be *faithfully prepared* in strict accordance with the prescriptions of their distinguished originator.
