MEDICAL.

TO THE PUBLIC.
MOST IMPORTANT ANNOUNCEMENT.
RETIREMENT OF PROF. JAMES McCLINTOCK, M. D.
From the Philadelphia Medical College.
A NEW ERA IN THE HISTORY OF MEDICINE!
Popular Medicine at last!
HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the celebrated Professor JAMES McCLINTOCK M. D., of Philadelphia, known for more than a quarter of a century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of a series of FAMILY MEDICINES therefrom, which will be put up in a cheap and popular form, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations ever known for the cure of disease. They are the fruits of the most profound investigation, the will of research, and the experience of one of the most eminent of the first physicians of the age. Each remedy is especially adapted to some particular form of disease, in accordance with the highest principles of modern medical science. Each of these remedies have been tested, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has called him. Their native and effect are therefore at once approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were under his tuition, in the Colleges of Philadelphia, Castle ton, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE

This is to certify that I have placed in the hands of Messrs. Cushman & Co., New York, the recipes of my "Family Medicines," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students and who are many of them now practising with distinguished success in all parts of the country. My inducements for this step are numerous one of the most urgent is, that the demand for my remedies has become so large, through my reputation as a Physician, as to make their preparation too great a draft upon my time; another is, the repeated solicitations of my friends and patients, in the belief that the general manufacture of my remedies would in many respects a public benefit, and finally, in securing the co-operation of Mr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, whereby I am enabled to secure the purity of the articles I will be prepared in the best, purest and most perfect form, regardless of expense.
(Signed) JAMES McCLINTOCK, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Author of "Lectures on the Principles and Practice of Physic," "Lectures on the Diseases of Females," "Outlines of Pathology," &c., &c., &c., and late member of the National Medical Association and of the Philadelphia Medical Society, and Fellow of the Medico-Chirurgical College of Philadelphia; formerly President and Professor of Anatomy and Surgery in the Castleton Medical College, Vermont; and also, late Professor of Anatomy and Physiology in Berkshire Medical Institution, Pittsfield, Mass., &c., &c., &c.

We need scarcely remind the intelligent public of the *great necessity* which exists for the introduction of a class of *sound and reliable popular medicines* which are at once prudently adopted into family use and *depended on at all times* in the absence of a physician, as being the legitimate productions of *Science, Study and Experience*. No argument is needed to prove the immense superiority of such remedies over the large number of compounds that are daily puffed into notice by ignorant and reckless men, solely for the purpose of enriching themselves at the expense of the lives and health of their fellow beings. We trust confidently in the good sense of the community to appreciate this effort to extirpate the great public evil of *Quackery*, by giving a careful perusal to the following list, which embraces the first twelve remedies of the series, and which comprises the cure of most of the most valuable diseases to which the human system is subject, and for the several complaints enumerated. If you or any of your friends are sufferers, one no time in procuring the aid of the *first medical authority of the day*, by obtaining and giving a trial to such of these remedies as would seem adapted to the case.
We call especial attention to the first of the list as being most generally demanded, at this season namely, the
