PITTSBURGH GAZETTE.

Editor Knapp occasionally gets off a good thing notwithstanding his bad eyes:

"He was one evening speaking of the prevailing tendencies of some religionists to long prayers and remarked that we would find no examples for these in the Scriptures. The prayers of our Saviour were short and to the point. The prayer of the penitent publican was a happy specimen. When Peter was endeavoring to walk upon the waters, to meet his master, and was about sinking, had his supplication been as long as the introduction to one of our modern prayers, before he had got half through *he would have been fifty feet under water.*"

BOOKS, MUSIC, &C.

NEW YORK,
Its Upper Ten and Lower Million!
BY GEORGE LIPPARD.

Author of "Washington and his Generals," "The Nazarene," "Paul Ardenheim," "Jesus and the Poor."

"Abdosa," "The Quaker City," &c.

THIS is the best work ever written by Lippard; one continued scene of excitement from the commencement to the end. Those who have read Dumas' Count de Monte Christo, or The Wandering Jew, we are under the impression, will equally connect with this. Novel readers will find this the most interesting work that has issued from the press for some time.—*Enquirer.*

George Lippard's Great Work—New York: Its Upper Ten and Lower Million. Novel readers will be perfectly delighted with this new work. The incidents delineated in this work are of the most exciting character. We should not be surprised if the demand for it should exceed that of Uncle Tom's Cabin.—*Times.*

From the Louisville Courier.

New York: Its Upper Ten and Lower Million.—George Lippard's last and best work. This novel requires only to be read to be correctly appreciated. As an enchanting work, it is unsurpassed. We believe it will be impossible for an intelligent reader to commence the work, to leave it off until he has turned over its last page.

[Extract from the Cleveland Plaindealer.]

New York: Its Upper Ten and Lower Million.—A new work, by that gifted son of genius, George Lippard. We have read it. It is novel of most thrilling interest—such an one as having been commenced, you will sit up all night to finish. All the characters are truly natural. Single copies, Handsomely bound, $1.00, in paper covers, 75 cts. For sale by all Booksellers throughout the United States.

SOVEREIGN ELECTRO-CHEMICAL AROMA

GENUINE HOLLAND BITTERS.

FROM LOUIS DR. MAINTENDRAL, Chemist

and Pharmaceutist of Amsterdam, the only Manufacturer, with a royal Vegetable Compound, prepared on strictly Holland Principles, and patronized by the Royal Family of Holland, Prince Maintendral, Sovereign.—Because of its great success in most of the European States, its introduction in the United States has been solicited by numerous persons for those of our father land scattered here and there over the face of this country, and by the unanimous request of those who have used it, I offer it to the American public, knowing that its truly wonderful medicinal virtues will astonish everyone.

A SURE REMEDY FOR

Fever and Ague, Dyspepsia, Sick Headache, Diarrhœa, Dysentery, Cholera Morbus, Nausea, Biliousness, Jaundice, Loss of appetite, Sour Stomach, Heartburn, Costiveness, Colds, Coughs, Influenza, Pains in the Limbs, Rheumatism, Gout, Neuralgia, Nervousness, Hysterics, Hypochondria, Palpitation of the heart, Pain in the Side, Back and Loins, Female complaints, Nervous debility, Dizziness, Drowsiness, Want of energy, Lowness of spirits, Loss of memory, Pain and sense of fulness in the head, Blotches on the skin, Boils, Ringworm, Scurvy, Tetter or Salt Rheum, Scald Head, Sore Eyes, Erysipelas, Itch, Scrofula, Mercurial diseases, Female irregularities, Tumors, Ulcers, Consumption, Asthma, Piles, Fistula, Gravel, Dropsy, Stone and Gravel, Diseases of the Kidneys, Bladder, Urinary Organs, Secret Diseases, Female Complaints, Loss of Appetite, General Debility, &c. &c.

THIN LIVER OR STOMACH

Is particularly recommended to persons whose constitutions have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Immediately after using a few doses of these Bitters the nerves will be strengthened, and general debility entirely removed. The sense of fullness in the head, stomach and bowels, will also be relieved, and the whole system will be found to recover its natural tone.

THIN VALUABLE MEDICINE

Is all cases of Diarrhœa, Cholera, Cholera Morbus, and the many complaints of this attending a change of water or climate

Certificate of Mr. R. O. Hinds, late Justice of the Peace, East Feliciana.

Mr. Reid—Dear Sir:—*Dear Sir:* I would say that I have been afflicted for the last twenty years with a severe pain in the left side, and nervous headache for nearly fifteen years, and have tried many remedies, but found no relief until I commenced using your Holland Bitters, which entirely relieved me from the pain in the side, and the nervous headache. Anyone, or persons of a general disorder of the system, I can feel, after using but one bottle, conscious of returning health.

NICOLUS SCHOSTER.

(Signed)

Mr. Reid, Pharmaceutist, *Dear Sir:* I have been relieved of the most distressing form of Dyspepsia, by the use of Dr. Maintendral's Holland Bitters, (purchased of you) after suffering for 3 years with headache, nausea, and general debility attending Dyspepsia. I now feel perfectly restored.

JOHN RUTHERFORD.
No. 99 Wylie st., Pittsburgh.

MISCELLANEOUS.

To Capitalists, Manufacturers and Mechanics.

THE Beaver Manufacturing Company, under a Charter from the Legislature of Penn., with a Capital of $50,000, purpose to establish, in the vicinity of Brighton, Beaver Co., Pa., a number of FURNACES and an extensive ROLLING MILL, with the necessary machinery and preparations for the production of Bar Iron, Sheet Iron, Nails, Spikes, &c., &c., and as soon as practicable, a Railroad Iron.

Towards the accomplishment of this object they are willing to furnish the necessary *ore and grounds* for the works, together with the necessary amount of water power, the manufacturing of which, for the present, they will take in part payment, at such rates as may be agreed upon. They have in great abundance, also, dwellings, mechanics shops and water rents for the accommodation of operatives and others—to execute a large and commodious race or canal sixty feet wide, for the more convenient and abundant supply of water, and to lay out a large area of boats to and from the works, and to erect suitable Dock Houses in which to carry on the contemplated manufacturing operations.

Such grounds, water power, erections, improvements and privileges, at a fair price for the same, in such equitable way as it is hoped that other parties, with some capital, practical knowledge of the business and mechanical experience, will be found and willing to supply the manufacturing labor, and a portion of the working capital, they will be prepared to contribute any reasonable proportion, from one-fourth to three-fourths of the whole capital required, for each particular branch of business, and in the determination to afford every possible aid and facility to those who identify themselves with this enterprise, and thereby accordingly offer equally liberal inducements for the establishment of many other kindred branches of business, not above enumerated, upon all those which tend to the more extensive development of the mineral stores with which the hills in the vicinity of the works, and grounds so richly and extensively pervaded. (See pamphlets, descriptive and extension of iron manufactures.)

The Company are now repairing their Cotton Factory and Flouring Mill, and are willing to rent to practical and responsible parties, or sell on time, on such terms and upon liberal terms that their own attention may be more particularly directed to the establishment and superintendence of other branches, some of which have been enumerated, and to the latter of which they would add the building of machine, carriage, and the making of patterns, fire-brick and glass, &c., for which they have the materials in abundance, and which they would in a few months in abundance. The Flouring Mill is capable of making 300 barrels of flour in 24 hours, or 500 bbls of this grind, and when the most approved plan, for either of which grain is purchased, being brought by canals, railroads and rivers to the doors of the mill.

Post paid letters addressed to the Agent, will receive prompt attention.

REFERENCE—Persons in the East wishing to know more of the Company, or of the parties composing the Company, are respectfully referred to—

Rhistilleations and Extension of Iron Manufactories.

We have within the last few months added large additions to a two story, by 80 feet, mineral, coal and iron manufactory, and have come into successful trial, without wasting a moment the more tedious and expensive steps to go and get a charter from the State, as now generally practiced in the United States.

The new process appears to be gaining favor rapidly in various parts of our country. It was first heard of at Newark, New Jersey, then at Cincinnati, then at Cleveland, then at Pittsburgh, now in our immediate vicinity, Pittsburgh and Beaver City.

We have seen the process and witnessed the results. We have seen the mineral coal and the crude ore, after being crushed or pulverized and mixed, in suitable proportions, put into a hopper. Here a ray of gold at a country mill, and have seen it, when sufficiently decomposed, by the action of much red hot coke, or charcoal, come out in the form of bar iron, or chambers, separately, if so desired, and without having been melted from first to last. We have seen this iron sent to a rolling mill, and there rolled into bar iron, and the spontaneous welding of those particles, under the manipulations of a practical puddler, into a compact mass, and like a rolling of putty, after being run through every turn to the size of the largest pump rod.

We have seen this iron pumpkins, or ball of red hot metal brought immediately under a trip hammer, and there, in less than five minutes it was converted into bar iron, and we have seen the same iron pass through the rolls, and come out from it as boiler iron, as sheet iron, bar iron, nail rod, &c., and it was all *very good.*

An appropriate furnace and puddling oven for this purpose can be erected for less than $1000, and any man having any acre of coal land, with good iron ore in its vicinity, and a few thousand dollars in the bank, can, with the aid of the above named volume in the shape of the book, make it a very profitable operation. After having used three months in a cost of but the tons, though it was only three months in a cost of $1000 and a capital of $1000. The Beaver Manufacturing Company are willing to furnish the ground, the coal, the iron ore, the water power and patent right privilege, or so much capital under their control, with others, who have some capital and skill and industry.

Those who wish to know more of this matter, inquire of the undersigned, who knows all about it.

T. C. GOULD.
Rochester, Beaver Co., Pa., Jan. 10, 1854. jy24-1f

Chandeliers and Gas Fixtures.

THE subscribers are now opening at their new Warerooms No. 109 First street, between Wood and Smithfield, a large and elegant assortment of CHANDELIERS, BRACKETS, PENDANTS, and all articles connected with Gas Fitting, ever offered in this market. MEDICAL.

TO THE PUBLIC.

MOST IMPORTANT ANNOUNCEMENT;
RETIREMENT OF PROF. JAMES McCLINTOCK, M. D
From the Philadelphia Medical College.

A NEW ERA IN THE HISTORY OF MEDICINE!
Popular Medicine for the first time sanctioned by the
HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK M. D., of Philadelphia, known for more than a quarter of a century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of a series of FAMILY MEDICINES therefrom, which will be put up in a *cheap* and *popular form*, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the wild est research, and the almost unrivaled experience of one of the first physicians of the age. Each remedy is especially adapted to some *particular form of disease*, in accordance with the *highest principles of modern medical science*. Each of these remedies have been tried, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country, to which his great reputation has called him. Their nature will therefore be known and appreciated by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were un under his tuition, in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE:

This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my "Family Medicines," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and after a careful comparison with those of regular physicians, who have been my students and who are many of them now practising with success in all parts of the country. My inducements for this step are numerous one of the most important of which is to secure to them a more large, though not more successful practice in the treatment of the various forms of disease to which from my position I am peculiarly liable, and which sometimes renders it impossible for me to attend to the calls of patients, in the belief that the publication of my name will be sufficient to secure the general confidence and favor. And finally, in securing the co operation of Mr. Alexander Cushman, who has been for many years my confidential friend, and the secretary of many years my confidential friend, and the secretary of many years my confidential friend, and the secretary of
