The administration has doubtless made use of that the proposition of Mr. Slidell and its endeep sensation. It would be passing strange if Mr. Slidell to bring this subject before the coun-

Spain is a government with rights as perfect expense of it would fall upon the people. It would cost at the very least a hundred millions tory be doubted. Analyst, because Spain is suspected of a design or desire to exercise her national prerogative over the subject of Slavery, Mr. Slidell, backed by the Administration, proposes to repeal or suspend the compact which binds us in amity with that nation, and let loose upon her soil whatever hordes of adventurers may choose to risk their necks in forays for plander or conquest! BRIBERY AND CORRUPTION AT HARRISBURG.—
The course of Legislation as described by our larrisburg correspondent, must startle and asound honest men of all parties. The last Legslature of this State became notorious over the
country for the corrupt means used, or brought
to bear upon its legislation—but from what we
sarm respecting the present, it was far behind earn respecting the present, it was far behind in the appliances of bargain and sale. It seems low to be a generally understood matter, that the cryices of the Lanian services of the Legislature are in the market, to sible to foresee. It is previously by the highest bidder—and that legislation is made to suit the notions of those what have the longest purse, and are the freest Thus nature and payers.

That this is the case with all, is not pretended, for there are, no doubt, many honorable expections—many whose votes cannot be bought with a price—but the great mass is believed to be tainted, more or less; and the State as well as the constituents of such members, is disgraced by their deeds of corruption and crime.

We hope that a thorough remedy will be applied to this great and alarming wil at the ballot box—and that those who have prostituted their trust as legislators to "filtby locre," will be arraigned before the bar of public opinion their trust as legislators

In fact people knew to what extent corruption pred, they would march to Harrisburg and turn the Legislature out of doors,

Tlearn from the most positive source that both Mr. Fillmore and Mr. Kennedy, not to mention other members of the ex-Cabinet, are confident that they are sign to occupy large buildings in Washington. A paper is to be started here to advocate the claims of that expelled dynasty to the high offices they have so gloriously occupied. They count on the gratitude of the South and the forgetfulness of the North. I understand that Mr. Fillmore, as well as Dr. Foote, of the Buffale Commercial Advertion; is greatly shocked by the Tribune's recent demonstration that the annual value of the Union is only forty cents a head.

we all along suspected that Mr. Fillmore was neering trip, and that an effort on an electioneering trip, and the would be made to patch up a truce between the Northern and Southern wings of the Whig prity, and nominate him for the Presidency. It is all folly. The project cannot succeed. The North will not forget. Mr. Fillmore can never receive, the Northern Whig vote. He would be worse beaten than Gen. Scott. Sam Houston or Thos. H. Benton, Southern men as they are, would be a thousand times more acceptable to the Whigs a thousand times more acceptable to the Whigs a thousand times more acceptable to the Whigs Skinner, Slifer—19.

Mr. Senator Slidell has begun the movement for Cuba and liberty. The country will be aginot unreasonable to infer that, in the event of a for the suspension of the neutrality laws as re-refusal by Congress to authorize the "remedy," gards Spain, and more by his speech explaining the President will not interpose to prevent an unlawful application of it.

I doubt whether it expects or wants war, debauched as to receive quietly a proposition so but it certainly does want a counter excitoment to the Nebraska agitation. There is no doubt Every moment's reflection, moreover, ought to that Slidell himself would be very glad to make deepen the public indignation and fear; indig- copital out of any harmless coullities of filibusterism, but the President and Cabinet would have to bear the responsibility of a war with Spain, and perhaps with her two allies, France our own. The answer is very short, the government to have the boldness to declare war against Spain is afraid to do it. It is afraid of the public opin-

Two of them are ready and contribute more than any event of the past to become States—Oregon and Minnesots. In wo years either of them will have more white inhabitants than Florids, and as many as Arkan sas, which have been States for ten and twenty years respectively. Oregon will come in during the next Congress under the provisions of a bill passed to-day. The admission of Minnesota has vet to be provided for. They will both be free States. Within five years Washington and New Mexico will apply and cannot be denied. They will also be free States, though New Mexico would be slave holding if slaves could be taken there. There is no legal impediment. Utah is neither Christian or civilized. It is in the chrysalis state, and what it will come out, it is impos sible to foresee. Here then are certainly ton

The amendment of the House was then opposed at some length and very earnestly, by Mr.
