The cholors, at one time, were its most mar the Nebraska bill, are endeavoring to create the

and opinions. We have before given to our readers the statement of Mr. Walker, a resident of Nebraska, that Slavery already exists there; and now we find his testimony corroborated by the following:

Richard Mendenhall, mission teacher at the Friends' Shawnee Alission, writes to the National Ern, under date of the 14th ult., from that station, that Slavery exists in Kansas, and did so before the repeal of the Missouri Compromise, notwithstanding Tip illistitution was then illegal. He says that Thomas Johnson, who has been at Washington all this session, claiming a seat as an elected representative from Nebruska, is the Superintendent of an extensive missionary establishment in Kansas, under the direction of the Southern Methodist Episcopal Church, at which slaves have long been kept to do the menial service.

The following dispatch tells the tale:

Washington the Washington of this city has resulted, as I predicted in my despatch of this morning in the success of Mr. Towers, the Whig cauding the success of Mr. Towers, the Whig cauding the success of Mr. Towers, the Whig cauding in the success of Mr. Towers, the Whig cauding the success of Mr. Towers have not yel been made public, but enough is known to make it certain that Towers has received a majority is from four to fire hundred.

The Bloard are also Whig.

The election derived peculiar interest from the fact that the Executive has openly exercised its influence for Maury, the present incumbent which, it is reported, went so far as to threaten which, it is reported, went so far as to threaten which, it is reported, went so far as to threaten which, it is reported, went so far as to threaten which, it is reported, went so far as to threaten which, it is reported, went so far as to threaten which, it is reported, went so far as to threaten which, it is reported, went so far as to threaten which, it is reported, went so far as to threaten which, it is reported, went so far as to threaten which, it is reported, went so far as to threaten which, it is reported, w

We learn from a friend, who has just reached the city from a trip, through the Missouri river counties, that hundreds of the Missouri river counties, that hundreds of the Missouri river been eagerly, awaiting the news of the passage of the Kansas and Nebraska. Territorial billing for the Kansas and Nebraska Territorial billing for the Missouri river and the Missouri river the old city and county districts were consolidated under one city government. The vote therefore embraces what has heretofore been known as philadelphia city and county. At the President's election in 1852, the vote for Pierce in the

tion out, is as plain as the moonday sun.

Senator Atchison, who lives on the borders of Kansas, said last year that he would rather see Nebraska "sunk in hell than organized as a free State." It is stated on good authority that this model statesman, should he fail of re-election to the Senate from Missouri, will move into Kans expecting to be its first Senator, when admitted into the Union. He has no idea that either Kanwas or Nebraska will come in as a free State, and his opinion is entitled to as much weight as that of Mr. Everett or Mr. Badger. The course of the administration at Wash-

ington, too, is calculated to embarrass and prevent free emigration, and is no doubt so designed Indian title to which has been extinguished, ald though the Indians only asked one month; and in the meantime all settlement on the Indian land is prohibited, the military being ordered to make a feet all who may renture over. This will turn away the current of free emigration, now setting in that direction, and leave a fair field for the operations of the slavery conspirators. The free emigrants are to be kept out at the point of the bayonet, on the pics that they are trespassing on the Indian lands, the President is then to appoint his pre-slavery territorial office-holders, including a Governor who will order an immediate leating a Governor who will order an immediate leating for the slaver for the respective forms and a supposed leaning to the South. Since the Nebraska outrage, however, as we are gird to find, this papers on the Indian lands, the President is field for the bayonet, on the pics that they are trespassing on the Indian lands, the President is then to appoint his pre-slavery territorial office-holders, including a Governor who will order an immediate leating for the slaver of the slaver forms the support of the slaver forms are supposed to state of the support of the slaver plan of the supposed per supposed the state of the supposed leaning to the South. Since the Nebraska outrage, however, as we are gird to find, this paper of relict, and although thousands may yet to describe the field affect of this most completely event which is the scope of relict, and although thousands may yet to discuss the find the president of the the United States, and ret up to the time of the find the following beautiful to some disrepute of the United States, and ret up to the time of the find the following to suppose of relict, and although thousands may yet to success the success of the Liver Pills feet of this most completely beauty with his scope of relict, and although thousands may yet to success the success when fairly tied, and take none size. There are the relicus of the success when fairly tied, and take on the Indian lands, the President is then to appoint his pro-slavery territorial office-holders, including a Governor who will order an immediate election for a territorial legislature, of which he has the apportionment, and as there will be no electors but such as are government employees they will be able to elect a legislature of the will have a legislature of slavery, in some shape, its first act. Then has the Missouri slaver holders, which we shall be magnit placed in unmination for re-election to the state of the winds to emigrate, are in the neight botheod, they can slip in immediately with their slaves, and to secure the predominance of the slave interest. This is the programme of the conspirators against freedom; and as their Chief has avowed his preference to seeing Nebrassa "sunk in All" rather than that it should be come a five State, we may rest assured that they will spare no efforts to accomplish their purposes. They have the Trusident on their side, and are therefore all-program.

As an earnest of the determination to exclude free settlers, for the present, witness the following.

The Profle Speaking.—At every election held since the administration of President Pierce committed itself to the work of slavery propagandism, it has been signally defeated. The people embrace every opportunity to rebuke the sordid and corrupt officials who are prostituting the government to the villest of purposes.

The last evidences of this are found in the recent elections in Washington and Philadelphia.—

Mus. Robisson, the Mundersea.—The Troy
Whig says:—"A friend of ours, an Englishman,
well posted in what relates to titles and blood, asserts that Mrs. Robinson is related to Queer
Victoris, her father (Wood, of Quebec) being a
son of the Duke of York!" Ars. Robinson is the
woman tried at Troy; and found guilty of nurder. The Detroit Daily Advertises states from a reliable source that fire hundred pounds of silver were taken from the Minnesota mine on Lake Superior a shert time since. It has long been known that silver exists in considerable quantities along the shores of that Lake, and we trust the more vigorous working of the mines may show that large amounts may be found in that rich mineral region. Every new development of the riches of that region will have a direct bearing upon the presperity of our own city.

Now, we care nothing for the opinions of Edward Everett, or Senator Badger, or Mr. Benton, as against such facts as these. They may tell us that Slavery will never go to Nebraska, but when we see: it not only going, but already there were the such facts as these. They may tell when we see: it is fair to conclude that they are slightly mistaken.
