Locofocoism stops at nothing which is necessa ry to attain power. Its bond of cohesion is the love of public plunder, and to enjoy that it assumes whatever phase may be best suited to the urpose. In South Carolina it is characterised enting and disunion; while in Pennsylvaed with an intense devotion to the Union. In Indiana it goes for "Nebraska and Whiskey," and in Maine for the Maine Law and Anti-Nebraska. In the west it is for the Hometead bill, but in the south opposed to it. Along the lakes it is in favor of River and Harbor In ovements, and in Virginia thinks them uncon

He signs some Bank bills and vetoes others, just as public opinion happens to indicate; and would go occur, and that for every fugitive slave withheld, over to the "Know Nothings" to-morrow if he could do it without offending his friend Campbell, the Postmaster General, and those he controls. "Tus BAPPERs: By a Searcher ofter Truth." We have received from the publishers, Messrs. Long & Brother, New York, a new work with the above title. The design of the work is to show first, that modern Spirit Rapping, Tipping the spiritual communications themselves. In proof of this the author gives a graphic and true account of a series of visits which he made to various "spiritual circles," and details minutely all that occurred. The author also gives synopeis of the various theories which have been broached in explanation of the modern spiritual phenonomens, and concludes by showing the pernicious tendency of the whole, and the utter in feriority of that religion which spiritualists teac to the religion of Jesus Christ. The Lantho concludes his work by saying, that he "consid-ers the religion of the Rappers blasphemy, and all its manifestations delusions." In this conall its manifestations detailed. In this con-clusion we heartily concur. It is the most ab-surd and degrading delusion that has ever afflicted mankind.

The House, as a matter of course, refused to turn Nicholson out of the House, and laid the charge spainst him on the table. Had one of their side been denounced and villified by the organ of the House, as Mr. Giddings has been, how promptly would the severest punishment they could inflict have been meted out to the offender! But we have not reached the point where we can expect either justice or decency from a Congrestional majority. We succeeded, however, in getting a division by yeas and nays, so that we may be able hereafter, to point to the record for the names of those who 'sanctioned mob law' in the person of the man who recommends its enforce
