POLITICAL PORTRAITS.—The Harrisburg Union, WILL SLAVERY GO TO KANSAS !- The pensioned

slares is to be kept out—peaceably if they can, forcibly if they must.

As a specimen of the new kind of "popular sovereignty" now prevailing in Kansas, we take the following from another column of the same number of the Intelligence:

After we had written our article for to-day's paper, condemning the lawless organizations that are forming in Western Missouri for the avowed purpose of going into Kansas and carrying; out "by force," what should be left to law, the Independence of the Intelligence in the save of the Intelligence of going into Kansas and carrying; out "by force," what should be left to law, the Independence Messenger has been received, for

met, this majority dwindled downinto the neighborhood of one, and the subsequent ballotings for State Printer and U.S. Senator have shown that the administration is in a minority. The Presdent's organ at Concord, the Patriot, admits its mortification. It says:

"It will be seen by our report of their proceedings on Friday afternoon, that the House ballot."

"It will be seen by our report of their proceedings on Friday afternoon, that the House ballot."

"It will be seen by our report of their proceedings on Friday afternoon, that the House ballot."

"It will be seen by our report of their proceedings on Friday afternoon, that the House ballot."

"It will be seen by our report of their proceedings on Friday afternoon, that the House ballot."

"It will be seen by our report of their proceedings of the power sage slaveholders, who have already laid claim to all the available land within their reach. Al-

beyond the waters."

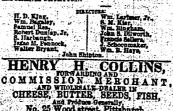

Kansas is now in possession of a horde of saving and the seen by our report of their proceedings on Friday afternoon, that the House ballot set wise for U. S. Senator, but no choice was effected, and the subject was then postponed to Wednesday. We confess that we are disappointed in the result. We had reason to believe that this Democratio members of the House would abide by the usages of their party, and give its candidate a united and cordial support. But there sail they are mistaken in this calculation. It show that some of these hare allowed their principles of their party, and give well and their principles of their party, and give principles of their party, and give principles of their party, and give principles."

Gov. Bioler.—The Post will have it that Gov. Bigler has not "backed out" from the invitation of Judge Pollock to stamp the State together, has been able to rally in the legislature, has not been obtained without the usual demagogical appliances. The Governor, we are told, will address meeting paper, says:

Wever have we heard of such direct and open interference we heard of such direct and open interference on the part of the national government, nor such gross and palpable corruption, as has been manifested in this city since the commence of the present session of the Legislature. And what a state of things is here exhibited: The President and Cabinet at Washington not only attempting to dictate to the peptie of this state. The president and Cabinet at Washington not only attempting to dictate to the peptie of this state of Judge Pollock was creded the whom they shall elect as Senators to state the proposition of the Legislature.
