THE PUBLIC WORKS. The time fixed for receiving bids for the sale of the Main Line of our Public Works, having

expired, all present opportunity of selling then is lost. They cannot now be disposed of without further action, and the whole matter will com up sgain in the next Legislature. The who olicy of sale or no sale is therefore now an open tion—as much so as any other issue before So far as State politics is concerned, this is

THE great question for popular consideration. Pennsylvania is the most heavily indebted and onfederacy; and, considering the amount of provements of any. We have been swamped in debt without receiving a consideration; and we ed. Of that few the Post is not one. are barely able, with the poor returns yielded by these improvements, to raise enough money by taxation to pay off the annual interest of our onormous indebtedness. The question then, is, shall we retain these works, which produce almost nothing, and go on paying millions of inter est, year after year, without being able to reduce the principal; or shall we, by selling the works for what they will bring in market overt, reduce our debt by that much, and so prepar

policy marked out by it. We int form all the light before us, that Gov. Bigler is opposed to selling the public works, but is not anxious or desirous to let that impression get out among the people.

The office-holders under him, and those who are looking forward to office, we know, are opposed to any such sale; their bread and butter, either in possession or expectancy, are at stake.

Then there is another and very large class of the from all the light before us, that Gov. Bigler is Then there is another and very large class of the is thus spoken of by Mr. Benton, in a recent letmocratic party, who are anxious to retain in ter to a citizen of Indiana : the hands of their party the vast patronage of the hands of their party the vast patronage of the public works, for the sake of the political in a dirty dog. falsifying public history for a crimi fluence it confers; and the immediate organs of the Governor, as well as the leading exponents of the sentiments of the party, are of this class. The Pennsylvanian, the Harrisburg Patriol, and the Pittsburgh Union, all mouthpleces of the Gov-

ernor and assuming to be leading organs, do no conceal their hostility to any departure from the present system; and one of these, the Union of this city, with the implied approbation of its gubernatorial candidate, proposes not only to retain the present works, but to expend millions ling a State railroad from Columbia to Pittsburgh. We give the proposition in its own language:

to Pittsburgh. We give the proposition in its own language:

"We have histerto opposed the sale of the Main Line for reasons already assigned, and seers just as much pleased that the sale is to be defeated for want of bidders as we would have been to have seen the bill for the sale defeated for want of locaters. What shall be done with the work!—
Simply what svery prodent man does with his property, when he can not dispose of it for what it is worth. Let the Portage road be completed, and let the Bate construct arairvoid East and West of the succentral about the Alleghany. Michigan has two railroads hardly thirty miles apart, terminating at the same point, and it will take no great labor to demonstrate that two lines can be well sustained through the centre of Pennsylvania. There will be unsiness, for all, The hard work is completed. The course of the canal will farnish a location for a track of easy grade, and the whole work can be completed at a mill additional expense. The State adready involved to a large extent for public impronements. We proposed the whole work can be completed at a mill additional expense. The State adready involved to a large extent for public impronements. We proposed that has knows the value of her own resources."

We commend this to the attention of the tax payers of Pennsylvania. It is a proposition to add million upon million to the State Debt, for the purpose of building a new State Work, and increasing thereby the political patronage of the party in power! Instead of getting rid of our lindebtedness, the prospect before us is one of increase. The only method of escape from this threatened addition, to the weight on our overhurdened shoulders is to demand from the democratic candidate an unequivocal pledge to eign a bill for the sale of the public works, if one should be passed by the Legislature, or refuse.

The action taken in Lawrence was generous in the extreme, and its imitation in Mercer cannot fail to be properly appreciated. Mr. Allison, we may add, is emineutly deserving of these marks gust against both the parties concerned, on the part of all hoovrable men. They feel that the whole country is disgraced by such a procedure—deliberately entered upon by the President and one of the chief Executive officers of the Federal Government; and that the continuance is distincted by the continuance in office of the P. M. General ander these circuinstances cannot be justified by any pretence whatever.

An assertion put forth thus positively and plainly ought to receive something more than a denial. The parties who will make such a bargain of course will not confess it.

ANOTHER MARE'S NEST.—The Past, the other day, on the authority of some paper in Detroit, asserted that not long since a meeting of the proprietors of the N. Y. Tribune was called to decide what plan to pursue, if the Missouri Compromise, was repealed. Horace Greely was repeated as contending that a course should be adopted, calculated to lead to the Dissoution of TRISON, the supposed murdeer of Mr. and Mrs. Allison, was arrested in that pface on Monday night last, but from some cause or other not explained, he was allowed to depart. The person arrested had arrived in the even of TRISON, the supposed murdeer of Mr. and Mrs. Allison, was arrested in that pface on Monday night last, but from some cause or other not explained, he was allowed to depart. The person arrested had arrived in the even of the proposition, it was said, met the approval of the stockholders, and an arrangement was made by which the disunionists were to purchase the interests of their co-proprietors.

The Post forthwith proceeded to saddle the whole Whig party with disunionism, and has since preached another long (and generally unread) homily on the same text. It turns out, however, just as we anticipated, that there was not the least foundation for the story. The Tribune copies the Detroit version of it and says:

A NEDRASKA GUN SPIKED—DUNHAM LAID ON THE SHELF.—We learn yesterday upon what we consider reliable authority, that the Democratic Congressional convention, for the Madison dis-trict, met on Wednesday last, and nominated Gov. Parris C. Dunning as a candidate for Con-gress, in the place of Hon. C. L. Dunham, the gress, in the piace of Mon. C. L. Dunham, the present Representative from that district. Mr. Dunham was one of the seven Congressmen from Indiana who voted for the repeal of the Missouri compromise, and now his constituent have repealed him.—N. A. (Ind.) Tribune, 30th.

Consolidation.—There is now some talk of consolidating the New York and Erie and New York and Central Railroad Companies. This would be a magnificent combination of capital—not less than \$60,000,000. A union of the companies would doubtless prove beneficial to both.
