It is foolish to flatter themselves with the idea that parties are to remain in the condition they have been, or that there can, by any possibility, be a further political union between the Whigs of the North and of the South. They would do better to contemplate seriously their own political future, in their altered circumstances, than to flat-ter themselves that Northern Whigs will submit

to every indignity which may be put upon them. LOOK SHARP .- The Liberty Tribune says :- It Look SMARP.—The laberty Tribune says:—It is reported that many of the Whigs of St. Louis intend voting for Benton in preference to Kennett. But, granting the perfect truth of the Union's statement both in fact and in color, it is difficult to find in it a justification of the conclusion, that "a few millions at the disposal of the President, "during the recess of Congress, may bring our negotiations [with Spain] to a peaceful and "happy conclusion." Those negotiations have for their ostensible object, according to the Message of the President upon the subject, redress for the science of the Black Warrior, and also for many other instances of aggression upon our for many other instances of aggression upon our commerce, violations of the rights of American commerce, violations of the rights of American citizens, and insults to our national flag by the Spanish authorities at Cuba. But the Black Warrior difficulty has been settled; the owners of that vessel are perfectly satisfied, and what further is to be done? The case is no longer before the distinct the contract of the contract of the case is no longer.

of that vêsel are perfectly satisfied, and what further is to be done? The case is no longer before the diplomatic court. Suppose, however, that this were not the case, it would be puzzling to conjecture in what way the expenditure of ten millions would facilitate our negotiations for redress in that or any other or all other kindred cases. Is it proposed to bribe Spain into civility,—to pay her a few millions for doing us justice in the matter of a few thousands? That would be a folly too absurd oven to be proposed by Franklin Pierce or advocated by the Washington Linion,—which is saying much for the foolish ness of any project.

For what, then can these millions be wanted,—the purchase of Cuba? They are not a twenteth part of the value which Spain sets upon the island, and not more than a tenth part of the inchesites being set-aside—that the Union supposes that, whichever party in. Spain might be in the ascendant, Cuba would be parted, with for such a song as ten millions of dollars, or that the ability to pay that sum on account would greatly facilitate our purchase of it for a larger price? This would be to show deplorableigned in the case of the tenacity with which Old Spaniards of every grade and party cling to the great colonial treasure house of their impoverished country, the last remaining jewel of that island studded diadem won by Colon for the sovereigns of Castile and Leon. It would seem a wasto of time to consider the question of the natual purchase of Cuba by the President or his Representative, did not his Message evidently point to his desire that Congress should give him full discretionary powers, and his expectation that it would do so.

But the Union well points out the two last paragraphs of the President's Message as worth were the paragraph of the President's Message as worth well and the provision of the Island of Cuba, its proximity to our coast, the relations of the seal of the seal of the provision of the Island of Cuba, its proximity to our coast, the relations that all respectable D

Every word said by these papers is carefully copied into the papers of the South, and is paraded as Northern sentiment; and it is joyfully inferred that there is no danger of a fusion in the North; and that the National Whig party will remain intact.

The Southern press is very careful to exclude at the same time the volumes written on the other side by the hundreds of Whig papers which support a fusion and which are willing to make any reasonable sacrifice to deliver the country from the curse and disgrace of a government controlled by slaveholding influences, and ad-

any reasonable sacrifice to deliver the country from the curse and disgrace of a government controlled by slaveholding influences, and administered almost solely to promote slaveholding interests.

The policy of thus endenvoring to hide from themselves and their readers the real facts in the case may be seriously questioned, while the want of candor and truthfulness manifested can not be too sternly condemned. The re-action in the South will be so much the greater when it becomes too evident for further deception, as it assuredly soon will, that there is now no national Whig party, with any homogeniety of sentiment, and that there never can be another National Whig convention, worthy of the name, and with the tenth part of Whigs of the country owning allegiance to it, until the old landmarks are restored and slavery is really taken out of politics, by its ceasing to obtrude itself as a national institution.

The Silver Grey Whigs of the North may attempt to keep up the semblance of an organization, and may flatter their Southern brethren that there is some power and vitality aboutit, but its will prove itself to be a dead carcass, for all purposes except to foster a division in the Whig and they reak and to promote the success of slave-breeding Democracy. The great mass of the Whigs of the North care more about the effects of their votes and the objects they seek to accomplish than they do about party names, or the success of aspiring politicians. The people are in no mood to be wheedled and humbagged and ministry and the province of the restrayl and the province of the restriction in this what can we expect of him but utter betrayl and ministred the honor of our flag, in the President made of the restriction of the president will be appropriation of sten millions to be used by the President wind with the resolution of the mild the case may be required to ensure the observance of our flag. Intimations have been thrown out that Hon. Intimations have been thrown out that Hon. Joseph L. White of the Nicaragua Transit Company, dictated in part the movement of the Cyane upon Greytown. The apology was to be to Minister Borland; the indensity to the Transit Company. The latter was claimed to the amount of \$20,000 or \$25,500, for some alleged wrong to the company in 1853. A private letter from Washington informs us that claimants for property sacrificed by the inglorious transaction at Greytown are now at the Capitol, looking after the facts, with the expectation of connecting the Transit Company with the responsibility of the order to Capt. Hollins, and determined to make them joint trespassers, and to look to them for indemnity accordingly. It is said by the writer, though upon what degree of authority we cannot undertake to judge, that the answer of the President to the resolution of inquiry moved in the House by Mr. Pearce of Maryland, will implicate the Company in the affair, their authorized agent, Mr. Joseph L. White, having made the demand upon the Administration to redress their alleged grievance. If this be true, the difficulty on the Isthusus is not a cad—Legal sciences of, or violent reprisals upon, the property and franchises of the Company, will as surely follow the refusal or delay of the covernproperty and franchises of the Company, will as surely follow the refusal or delay of the govern-ment at Washington to make a full reparation, as the action of Capt.
