THE NEGOTIATIONS FOR THE PURCHASE OF Cuna .- The New York Tribune of Wednesday contained a special dispatch from Washington purporting to give reliable information touching the state of Mr. Soule's negotiations for the acmusition of Cuba. It is stated that the Amerian Minister at Madrid, knowing that unless a direct issue was made, his mission would went itself out in protracted negotiations, took positive ground and shut down the gate at once upon scussion. A direct war issue was made, in the early part of the dispute—war, or repara-tion and Cuba. But although Mr. Scule had in effect carried out the apparent intentions of on government, concealed in courtly language, he in Mr. Marcy's letter of instructions to Capt. Hollins the ground is taken that the authorities of and had come to the conclusion to resign, when t became evident that a revolution was pending and hoping that some circumstance favorable to on would grow out of it, he concluded to remain. His hopes of effecting a settlement, in case of a revolution, were based principally on three facts: 1. If the Queen should see herself in danger of a forced abdication, she would cede the Island for a consideration; 2. The party coming into power would, in all probability not only need tunds, but all the available country to retain their power, and they would, therefore, feel the necessity immediate action on the subject; or, 3. The party coming into power, being guided by other councils than their predecessors, might acknowledge the impossibility of retaining Cuba

and at once come to terms. The revolution has occurred; the unsubmissiv Cabinet has been driven out and disgraced, and a Constitutional Government with Espartero, the only great man in the kingdom, at its head, is about to be formed. Espartero is an enlightenad and a liberal statesman, a man who has spen a large portion of his life in England, and is imbued with the principles of Constitutional Gov al animosity in the administration of public affairs; and it is now hoped by Mr. Scule that if a cession of the island does not take place, that repeated insults aileged to have been offered our citizens and our commerce by the Cuban author-ities, such as in the case of the Black Warrior

partment here are to the effect that for the moent nothing whatever can be done by the American agents in Spain, and that the only course to be pursued is to wait quietly for affairs again to assume a settled aspect. Then the settlement of our difficulties and the acquisition of Cuba can be brought up again. If the President only had his ten millions he might perhaps use it effectu-

The Minnesota Railroad Land bill, in which was perpetrated the innocent fraud by the Clerk, Forney, was, on the discovery of the alteration, repealed. PARMER'S HIGH SCHOOL.—A few of the Truses named in the bill to incorporate the Parmer's High School of Pennsylvania met at Harrisburg on the 13th ult.; but there not being a quorum no business was transacted. The few present, however, agreed upon submitting to the people of the State a report which takes these grounds: 1st. That the High School cannot be organized under the present law, because it provides for a large board of Trustees who can never be got together, and because the State has made no appropriation to start it. 2d. That a school can be organized, with 13 trustees, if the State will appropriate \$20,000 and the State Agricultoral Society \$10,000. Acting on these views a committee was appointed to ask the next Legis-lature for an amendment of the present law

THE GREYTOWN AFFAIR.—The North American calls attention to the fact, which probably the carefal reader has himself notice ero, the insult consisted in the very fact of their claim; in Mr. Marcy's letter of instructions to Capt. Holins the ground is taken that the authorities of Greytown having insulted Mr. Borland, during his interference in the Smith arrest, they must either apologise for the insult or punish those who gave it; while Mr. Borland claims that the insult consisted in the very fact of their claim; ing to have municipal authority. His reason for interfering to prevent Capt. Smith's arrest was that they had no civil or municipal existence, and consequently no right to make an arrest; and straightway the State Department proceeds to recognize the very authority which Mr. Borland denied, commanding that they shall exercise, in tho way of apology or vengeance, the jurisdiction which he denied for the sake of protectin

realized the promise of advantage under which they acted. Mr. Dawson, of Pennsylvania, was brought up to the repudiation of the Missouri compact, by the promise the Homestead should be 'put through." Well, the Homestead was slain in the house of its friends. The Democrats derer. If Mr. Borland was right, in this refusal o recognize a municipal sovreignty at Greytown, then the Government was wrong in demanding an pology from a civil authority not existing; if sign in the house of its irreads. Any possion of of the northwest we're bought with the assurance that all their bills for railroad grants, cossion of lands to the new States, and the river and the assurantation, should be carried. Mr. Borland was wrong, then the government was doubly wrong in stepping in to his support. There is no escape from this dilemma. We subjoin the North American's unanswerable arguhor appropriation, should be carried. ment:

It is in evidence that the civil powers of Greytown were held-by our government to answer for the disrespect shown by the citizens to Mr. Borland; that, upon omitting to make the required apology and redress, our cannon knocked their walls about their ears, and that a party of our brave tars, headed by a naval officer from the Cyane, afterwards completed the work of national vengeance, by setting fire to and burning up every vestige of the houses and property which the terrible ten or twelve pounders had spared. This, then, is one side of the case. What will be thought of its justice, its courage, its magnanimity, when, recurring to the origin of the difficulty, it is found that the simple offence for which that petty community of Semi-savages were so fearfully punished, consisted in their having presumed to claim the very political authority, in virtue of which they were afterwards lield responsible to our government! An American Minister impertimently interferes to protest PARDORING SCOUNDRELS -A correspondent, ew days since, called attention to the pardon of a conspirator at Easten, against the weight of the testimony on which he was convicted, and in efiance of public opinion. icid responsible to our government. An American Minister impertinently interferes to protect a pretended fellow-countryman from arrest by the authorities of Greytown, for a most cowardly and brutal murder of one of the people of the place, upon the sole ground that his Government of the protection of the people of the country of the protection of the people of the protection of the people of the protection of the people of the people of the protection of the people of the p committed it.

The people of this community feel it to be an outrage upon the Court and Jury who patiently sat for three long weeks, affording this man ev tout enarge or conspiracy—of robbing, by the most infamous means, an imbeelle, weak old man of his money—that every principle of law which individuals and communities look to for protection from the hand of the assassin and the foul corspirator, has been trodden under foot by Gov. Bigler, in thus releasing this man from the righteous judgment of the law which had been imposed upon him.

For if there, was a civil magistracy existing in fact and of right at the town, against the laws of which Smith had offended in killing the poor negro, Mr. Borland, in resisting that magistracy, was guilty of an act deserving the treatment he received, and had no just title to the protection of his government. If, on the other hand, there was no such authority as Mr. Borland could offend, then there was none which could offend him in his diplomatic copacity, pr he held answerable therefor to the United States. So that the whole transaction, viewed from the tion, which we think he is bound to make public. Nay, we demand that he make them public, for if he refuse—if he does nothing to convince the people of this county that he was justifiable in interfering with, and setting "side a verdict and sentence which nineteen-twentieths" of our citizens considered right and just—he will find that, in despite of all the efforts of those few Whigs, whose friendship and support he has received by this act, the people will pronounce such a judgment on him at the bellot box, as will convince him that the verdicts of our Juries and the sentences of our Courts are not to be trampled under foot, even by a Governor."

be held answerable therefor to the United States. So that she whole transaction, viewed from the commencement, exhibits us, as a nation, in a very contemptible light. We are not only chargeable with having posillanimously crushed a miscrable community of people too weak to make this least resistance or defence, but we first injured that community, and then held them to severe accountability by conceding them a political character which we had refused to acknowledge when it suited our purpose to inflict on them insult and outrage. This kind of injustice may consist with the haughtiness of power, but it cannot but excite the contemptand execution of the civilized world. The Harriburg Telegraph, alignding to the offence of which this man was convicted, says:

"At the last term of the Northampton County Court, at Easton, one Daniel Lachenour, with several others, were convicted of a disgraceful conspiracy to defraud an aged citizen out of a large sum of money. Lachenour, was sentenced to three months imprisonment, and a fine of \$2500—his confederates were sent to the penitentiary. The testimony brought in the trial of these men developed one of the most infamous plots to entrap, swindle and rain an old and highly respectable citizen that we have ever read of—a pfet unparallelled in the criminal history of our country—designed not only to rob him of his money, but to ruin, his reputation and couple his name with dishoner. The conspirators were convicted, and the people of Easton unanimonally endorsed the verdict and the sentence of the Court, The only fault found was that the ring-leader in this dark conspiracy, Lachenour, was not also sent to the Penitentiary, instead of being saddled with a heavy fine and committed to the county prison."

The Rock Rose has long been known as a plant of rare medical virtue, and its preparation is superintended by a gentleman of ability and character, in this tity.—N. H. Register. PALLADIUM OFFICE, New Have

PALLIDIUM OFFICE, NOW HAVEN, Dec. 22, 1851.
This will certify that the favorable notice of the medicine known as the 'R'ock Rose,' was a voluntary testimonial, induced by the writer's knowledge of the curative effects of the article in certain cases, as well as by the favorable opinions which others well known to him, had expressed of it, and furthermore, the article was written with our pay or the promise of payment, or the knowledge the manufacturer.

"SCROFILA" MYERS' EXTRACT OF ROCK ROSE.

MYERS' EXTRACT OF ROCK ROSE.

This wonderful medicine is fast gaining for itself a popularity which no other medicine can loss to. The plant, Rock Rose, is used and recommended by many eminent physicians of our country. Hear what J. B. Thompson, of Philadelphis says: "I have prescribed it in bad cases of Secubious patients at Wills Hospital. Ill's success attracted the attention of seniorphysicians. Herports the following remarkable case of Write Senling of the right hip, in February, 1844. The lad was 7 years old, and had the disease for 3 years, the bone was dislocated unwards and outwards. There was a large opening on the hip leading to the bone, into which if could thrust my finger, I counted 3 ulcers. He had been under several physicians, who had given him up. I ordired a decection of Rock Rose, three times a day. Thirty-nine days after he was entirely well.

pr. Morse's Invigorating Elixir or ODBDIAL-If it is inquired now this great restorative is accomplishing such arteractions; corey, we can only reply that in the Arablah herb that forms its cardinal ingredient have been blended by the Omalopiont Physician, a larger amount and greater, varieties of circaire properties than in herefore been supposed to exist in a shundred different at jelos of the pharmacopria. A whole medicite chest of remedies, so to speak, seems to have been combined in this barb; and in the ELIXII or OBBULL, up cave their concentrated scenene.
