A Row among the Democrats.—The old line Democracy, of Hamilton county, Ohio, met at Carthage last Saturday, to make its nominations, etc. All its factions and sub-divisions were represented, and it was a pretty noisy and unman ageable assemblage. After the organization, a committee was appointed to prepare business for the Convention, at the head of which was place Geo. E. Pugh, lately elected to the United States Senate. This committee brought in a set of rechallens, four in number. The first one re-af-firms the Baltimore Platform in all its length and Know Nothings. The resolutions being before the moeting, Charles Reenelly, the celebrated ferman orator and politician, who leads the or position to the "Miamis," rose to address the secting, and expressed his disappointment that the committee had not given them comething bet ter. What had the committee done? They had prepared a hook to catch gudgeons, but they would learn to their cost that the people of Hamilton commity were to be caught no more with gudgeon bait. They had endorsed the Baltimore platform that they might create a pleasing sensation at Washington. The tax-burdened, demageor-ridden people of Hamilton county—band thoy no mercy for them? A few of the old party men might remain with them if this game was continued—this bait thrown out—but the affections of young and fresh hearts would leave of them. The report denounces Know Nothings and secret political societies outside the party. It is valiant against know Nothing Whigs, but not against the secret political society in the Democratic party.

INDIANA STATE STOCK BANKS .-- Our citizens yesterday morning were quite astounded with the intelligence that seventy or eighty Wildcat Banks in Indians had tumbled, were tumbling, or were about to tumble down. Almost the entire currency of the country, in the States of Ohlo, Indians and Illinois, and in the Western part of this State, and to a considerable extent in the East, is composed of the notes of these swindling concerns, and the immense amount in circulation has frequently been the subject of remark, and fears have been expressed of the safety of such paper. It continued, however, to circulate until yesterday morning, when the Brokers shut down and refused to re ceive it, and for immediate practical purposes it was suddenly transformed into worthless rags. In the afternoon, however, news having been received from Cincinnati that the Brokers there had commenced to take them again, our Brokers also consented to receive the paper, at about three per cent. discount. We have no idea, how- gretted. He will now speedily retire from posver, that it can be kept up long. We advise litical life.
