☞ To Advertisers.—Neither the Editorial Rooms nor Printing Establishment of the *Daily Gazette* are opened on Sunday. ADVERTISERS who desire their notices to appear in the paper on Monday morning, will please hand them in before 5 o'clock, on Saturday.

☞ Pittsburgh Weekly Gazette.—The extensive circulation of our *Weekly Gazette* offers to our businessmen a most desirable medium of making their business known Our circulation is between four and five thousand, reaching almost every merchant, manufacturer and shop-keeper in Western Pennsylvania, and Eastern Ohio.

Reading Matter on each page of this Paper.

THE ADJUTANT GENERAL.—The Adjutant General of this State, Mr. George Washington Bowman, of Bedford, started out lately on a visit of inspection to the State Arsenals. This tour was not determined on until after the usual annual canons of Democratic politicians had been held at Bedford; and as Mr. Bowman halted at Greensburg and other points at which there are no State Arsenals, it is surmised that his visit of inspection had as much to do with the condition of the Democratic party as of the State Arsenals.

There is but one State Arsenal in the West, we believe, and that is located at Meadville, and we have not yet learned that its condition was such as to demand any particular attention thereto, on the part of the State authoritiesr at this particular moment.

That Mr. Bowman's mission was a political one needs but little proof. Since he has completed his journey to Meadville he seems careless about preserving the disguise under which he started out. We accordingly find in the *Erie Gazette* of the 22d that this military functionary availed himself of a parade of the German companies of that city on the 19th, to deliver a political harangue. He even went so far as to assure them that the Governor and his supporters were their fast friends, and that nothing they could do for them should be wanting. The *Gazette* says:

He was escorted into town by the military, whom he addressed briefly and energetically in the Park, commending their appearance, eulogising their officership and dropping in a few words *against* the "Know-Nothings" and in *favor* of Gov. Bigler. The *Anti-Know Nothing-Bigler* feature of his speech served to remove the *military* guise under which he came here, and to exhibit his mission as a purely *political* one. Its *effect* upon Gov. Bigler's prospects in Erie County will unquestionably be disastrous. Let the story to be told the morning after the election testify.

The Adjutant General, we fear, is more sensuous than wise: and we commend to the attention of his friends the following hits from the *Philadelphia Register*:

"Above all, no zeal" was the caution of Talleyrand to young diplomatists, anxious for distinction. Let Governor Bigler give this to his over zealous advocate, Adjutant. A parade ground, where men of all political parties meet, should be kept free from discussions of an inflammatory character. Partizan politics should not enter into military organizations. If we are to have Democratic companies, Anti-Slavery companies, Catholic companies and Protestant companies, the country may be plunged at any time into the horrors of civil war. Such armed political organizations should be disbanded at once. The only proper subject of military association is the defence of the common country. There is no worse use for a bayonet than to turn it against the bosom of a fellow citizen.

There is to be a military encampment at New Brighton on the 29th, and the Adjutant General expects to be present—in his official capacity, of course. The Governor, being commander-in-chief, is also looked for; but his presence must be attributed to his zeal in military affairs and not to any political purpose. He will review the troops, that is all; and the Adjutant General will satisfy himself about their equipments. Happy State, that has such vigilant officers!

HON. D. MACE.—The Honorable David Mace, of Lafayette, Ind., with his family, are now in the city and stopping at the Monongahela House. Mr. Mace was one of the few democratic Members of Congress who stood up manfully against the repeal of the Missouri Compromise, and has been thrown off by his party in consequence; but we are pleased to learn that at the Anti-Nebraska Convention held in his district on Friday last he was unanimously nominated for re-election. That the people will sustain him admits of no question. He is a self-made, independent man, and worthy of the confidence of an enlightened constituency.

KANSAS.—The second party under the auspices of the Massachusetts Emigrant Aid Company will leave Boston on Tuesday next. The charge for fare, first class, to Kansas City, is twenty-five dollars, besides which travelers must pay for their meals on the journey, which it is stated need not average more than twenty cents each. Each individual is allowed 100 pounds of baggage; any excess will cost from $2,50 to $3 per hundred pounds. Children under three years of age will be carried without charge; those from 3 to 12 at half price. Mr. C. H. Branscomb, of Holyoke, who has just returned from a preliminary expedition will accompany the party. We presume that any person from this part of the country wishing to join the expedition may do so at Cleveland, or any point on the Lakes. The opportunity is a fine one, and should be improved by individual adventurers in this region who wish to go to Kansas but cannot succeed in raising a company.

IRON BRIDGES.—The *National Intelligencer* says that on Thursday last, as a six-horse wagon laden with granite was passing the iron bridge across the Tiber on H street, Washington City, not far from the residence of Senator Douglass, the driver found the structure cracking under the immense weight. Putting whip to his horses, he escaped with his load, but the bridge fell to pieces. These frequent disasters, the Intelligencer thinks, must impair confidence in iron for such purposes; but it is most probable that the iron was of a cheap and inferior kind, and afforded no proper test of the experiment of iron bridges.

The Whigs of the old city of Philadelphia, have nominated William A. Crabb for senator, and William R. Morris, Thomas Biddle Jr., Henry K. Strong, and George R. Smith, for Assembly.

The democratic nominees for the same district are, for Senator, George Smith, and John Stump, James M. Robb, John Smith, jr., and M. C. Brown for Assembly.

For the County offices in Philadelphia the democratic nominees are:—Prothonotary, James W. Fletcher; Recorder of Deeds, R. D. Wilkinson; Clerk of Quarter Sessions, George M. Howell; Coroner, Joseph Delavan.

CROPS IN TEXAS.—Amid the prevailing complaints of short crops in various parts of this country, in consequence of drought, it is comforting to receive, now and then, from particular States of distant, statements of a different tenor. For instance, a letter from a clergyman in Central Texas, speaking of that State, says:—"The crop of the current year will greatly surpass that of any previous season. Of every article produced in the country an abundance has been and will be realized. Provisions during the approching fall and winter will be abundant and cheap."

THE RAIN, THE RAIN!—O for a drop of water, not to cool the tongue, but to refresh the languishing earth, which pants for the living brooks and the descending rain! Is it not the pattering of the small rain upon the roof? Can it be the sweet trickling of the beginning shower on the quivering leaves of the great elm before the door? No, it is not the rattling of the rain upon the small roof, nor the delicious sound of bright-falling water-drop from leaf to leaf. It is the brown sun-baked dust caught up by the strong south wind, and dashed against the lately green foliage and showered upon the dwelling. O, south wind, once so liberal of moisture, when moisture was not needed, where are your overflowing fountains now? Have you not come directly from your ocean home, or has old Neptune laid an embargo on his treasures?

Thank Heaven! the distant thunder preludes at least, an approaching shower. Is it not so? Ah! we have mistaken; it was the report of cannon, announcing some miserable celebration. We have heard that the roar of artillery is effectual in dispensing clouds. If so, pray cease from firing, you idle revellers! Hush, and be still, while the elements are silently collecting in their airy store houses the fountains of plenty to this thirsty, suffering land. Where is Aquarius of old, who is represented as pouring cataracts of water, from his pitcher upon the earth? Astronomers assign to him the performance of this useful office in January alone, when our farms do not want copious draughts of water as in summer. If he cannot be spared from his official duties, has he no relative, is there no Aquarius junior, who might be appointed to water the earth in the dog-days?

But the clouds are gathering space. The horizon darkens. The bees are hurrying home. The house-flies gather in the parlor and bite worse than ever. The dry leaves and loose hay are whirling in the eddies. The sea-bird screams on the shore; the peacock does the same in the poultry-yard. The mimosa begins to close, and the cake of soap grows moist. The cat frisks round the yard and the cattle round the pasture. Universal stillness reigns, interrupted only by the occasional sighing of the winds as at the approach of some great event. The rain is coming; the rain is upon us! Stop, stop! Is that the sun, whose upper limb shines like gold just as it sinks below the western horizon? It is indeed that glorious luminary, and he promises distinctly a beautiful day to-morrow, in which no one need carry an umbrella—a promise often heretofore received with smiles and approbation, but now with a rueful countenance and open censure. Alas! All signs fail in dry weather excepting drought; they are pretty sure to hold good.

A kind of calenture is beginning to seize upon the imagination, and men, for the want of reality, fancy they are sea green men in their arid wastes and reviving icebergs in their rocks. In return for our waking disappointments we dream of the white cold surf upon the sounding beach; the white thread-like mountain cascade; the thundering cataract. But most of all perhaps one delights in this universal dryness of Nature, the brassy color of the sky reflecting the premature brown and yellow of the burnt-up earth, to recall soft pictures of green hill and valley under the weeping skies of May. The chattering brooks, like merry little children, were then running about everywhere among the trees and long wet grass. Water—the very word has a moist and joyous smell and sound—was gushing all around on the surface of the ground and below the surface. The leaf then glistened with a brilliant radiance as the sun struck it and glanced; that sun was then welcome. The tree, the grass, and delicate beautiful flower then had enough of it, and was not dying as now with fatal thirst.—Who does not wish the days of mud, good, deep, and plentifully supplied with water, would return to us once more? Is there a man, we will not say patriot, who would not be happy to go over his knees in water this blessed day; if thereby his country's crops could be secured? Happy people they whose lot is cast in the vicinity of the great or little lakes or rivers. Even a frog pond is a heritage in these days not to be despised, and a water privilege must be of indescribable value. —*Newark Daily Advertiser.*

THE MISERIES OF NEW YORK.—A number of hotels and restaurants make a practice of distributing the fragments of food collected from the tables, to the poor, at regular hours, every afternoon. By observing how this is done, any curious person can readily obtain some insight into the miseries of the city. By the same process, a partial cue may be had to the so-called "mysteries" of New York, which have always afforded a prolific theme for scribblers. The places where these bounties are to be dispensed, is indicated some time in advance by the throng of wretched looking people who eagerly crowd around, with baskets, aprons, &c., in which to bear away the expected gifts. The blonted inebriate, tottering creatures enfeebled by disease, as well as many young girls, acting as agents for others who remain in their own garrets and cellars—all are represented. On the first appearance of the provisions, which form a complete chowder of bread, meats, pastry, lobster, fish and vegetables, a general rush is made, which has often to be forcibly repelled. With a large scoop, broken plate, or something of the kind, a quantity of mixture is thrown into each vessel all possible rapidity—the crowd meanwhile pressing closer and closer, until again forced into the background. Every device is resorted to, in order to secure a double portion. A common trick is, to have a basket placed on one side, into which each fresh instalment is deposited, until no more can be procured. Another well have a capacious apron or bag suspended from the waist, secure from observation, while the contents of the extended basket or dish are slyly thrust into it unnoticed. Some, in this manner, obtain the lion's share, while the weak, sick or decrepid are turned off empty. The scene would bear to be transferred to canvass by an artist's pencil.—*N. Y. Journal of Com.*

STOLEN CHILD RECOVERED.—Some two years since a little girl about eight years of age was stolen from her parents in New York, and so effectually concealed were the arrangements of the abductors that all efforts to reclaim the missing child proved abortive. Recently, however, suspicion was excited that the girl had been stolen by parties in this city, who were bringing her up as their own; and accordingly, in company with a friend, the mother yesterday came hither, and commenced a search for the lost one, having first obtained the aid of a male friend, well acquainted with the circumstances. The first thing to be discovered was the residence of the kidnappers, and this after patient and protracted search and inquiry, being found out, the mother at once proceeded to the premises, and knocking at the door, it was opened by her own daughter, between whom and the mother there was a mutual recognition. The woman of the house, however, persisted in claiming the child as hers, and threatened summary vengeance upon all who should attempt to remove her. But the mother, strong in right, was not to be intimidated by threats, and accordingly, taking her daughter to the Market street depot, jumped in the cars, and a moment after was beyond pursuit.

The man and woman with whom the girl had been living reside in Prospect street, and the former has hitherto borne a fair reputation, being foreman in one of the largest manufacturing establishments of the city. Both are said to have been furious at the discovery of their villainy; the girl, however, was overjoyed at their discomfiture, and accompanied her mother with eager pleasure.—*Newark Mercury*, 23d.

COL. FREMONT.—We learn that this indefatigable explorer left Washington a few days ago to embark from New York in the steamer for California, with the view of landing at San Francisco and proceeding thence to the Sierra Nevada, to fix astronomically the position of the Pass which he discovered in that mountain during his expedition of last winter. The results of that expedition were published in this paper as drawn up by the explorer himself, and great stress was laid upon the discovery of this Pass, as being excellent in itself, and north of the Walker and Tejon Passes, and therefore more in the straight line from St. Louis to San Francisco, and opening directly into the rich San Joaquin Valley near the southern gold mines. Col. Fremont *judged* that Pass to be about latitude 37; but the importance which he attaches to it as a point in the Central route to the Pacific Ocean induces him to go to it again to fix its position with a precision which the exhausted condition of his party and resources did not admit of when he went through it. We also learn that this expedition, like his two last ones, has no connection with the Government surveys, and receives no aid from the survey appropriations.—*Nat. Intel.*

POLITICAL ARREST.—Commander Hollins has been arrested in New York, on a suit for damages by property owners at Greytown. This is, in effect, an arrest of the United States Government, is something decidedly new in the way of litigation. Only think of some one-legged Frenchman bringing an action against Wellington for shooting off his leg at Waterloo! Nicholas might be sued some ten years hence, by twenty thousand Turks, more or less, for damages sustained by them in the present war. If this doctrine prevails, the Government will have to give bond and security to its naval officers to guarantee them against the lawyers. Perhaps the Peace Congress may make something out of it. As to President Pierce, we doubt whether his power extends to quashing proceedings for throwing bombshells, though he did quash the one against Jeffards for throwing egg-shells.—*Phila. Register.*

NORTH CAROLINA ELECTION.—Complete returns give Bragg, (Democrat) for Governor, 48,512: Dockery, (Whig) 46,712. Bragg's majority 2070. To the State Senate, 20 Whigs and 30 Democrats are elected, and to the lower House 45 Whigs and 65 Democrats; making on joint ballot 75 Whigs and 95 Democrats; but since the election, Shillington, one of the Whig Senators, has died, and a new contest has been ordered.

THE DROUGHT.—The effects of the drought which has prevailed for several weeks, in almost every part of New England,—and indeed far more extensively, as reports from various distant quarters indicate,—are visible particularly in New Hampshire, in the neighborhood of Lake Winnipiseogee. The corn and potato crops are almost entirely destroyed; and other crops, with the exception of hay, which was quite as good as the average, will amount to little or nothing. The earth is parched, the pasturage affords no nourishment, and but for the crop of hay which was harvested before the dry weather commenced the cattle would suffer. As it is, the thoughts of farmers are already directed to reducing their stocks to prepare for the emergency of the famine which threatens them. Some are cutting up their corn for fodder. The wind for several days back has been high during some portion of the day, with such signs of rain as always fail in a dry time. The southwest winds have prevailed; but yesterday, there was a strong northwest wind, which on the Lake was almost a gale. It resembled a sirocco, however, more than a northwester, and while it lashed the waves into a foam, was not cold enough to render a thin coat uncomfortable.

The atmosphere is so hazy as to be a complete barrier to mountain prospects, and adventurers for pleasure of that sort, after toiling up a brilde path through a smothering cloud of dust, are destined to find themselves, upon reaching the summit of their ambition, in the midst of an impenetrable atmosphere of haze and smoke; for the woods in every direction are burning from accidental fires.

The roads have become extremely dusty and annoying to beast as well as man; and this is true of our own immediate vicinity, where the drought is much less severe, but where its desolating effects are begining to be seen.

The streams in the interior are generally reduced to a mere thread, and in some instances the factories have been stopped. This is the case, we understand, with the extensive works of the Salisbury Manufacturing Company.

The Lowell companies have drawn liberally upon their reserved means in Winnipiseogee Lake, and have been for two weeks or more, lowering that great body of water at the rate of an inch a day. They have recently purchased the whole of Squam Lake, in the vicinity of Centre Harbor, as a further security for emergencies like the present.

We learn from a gentleman from Vermont, that the drought prevails there to an extent unparalleled of late years. Potatoes in that region will be a failure, and the farmers are cutting down their corn for fodder for their cattle. —*Boston Trav.*

IOWA.—We have further advices from our correspondent at Burlington, Iowa, which seem to leave no doubt that the Anti-Douglass combination has carried everything it tried to carry. The following is the reported state of the Senate:

ANTI-NEBRASKA.	DOUGLASITES.
Hold over..... 7	Hold over..... 1
Cedar and Clinton..... 1	Des Moines..... 1
Dubuque, &c. 1	Davis, &c..... 1
Henry..... 2	Lee..... 2
Jasper, &c..... 1	Marion, Warren and Madison, *prob.*..... 1
Louisa & Washington 1	Wapello 1
Muscatine 1	Wayne, &c., *prob.*..... 1
Pottawatomie..... 1	
Van Buren..... 1	Total 14
Wapello and Monroe.. 1	Apparent Whig maj. 3
Total 17	

We do not consider these details entirely reliable, but think there can be little doubt of a determined anti-slavery-extension majority.

We need not reprint and extend our table of members elect to the House, since the completeness of the Republican triumph is undoubted. Our advices are in up Whig and Anti-Nebraska 40; Douglassites 22; Tie 1 (in Scotts;) to come in, 7. As the whole House consists of 70 members, there is a certain majority of *ten* against Douglass, Dodge & Co., which further returns will probably increase. The election of a Free Soil Whig U. S. Senator, for the next three Congresses in place of Augustus Cæsar Dodge, is a fixed fact. —*N. Y. Trib.*

SPECIAL NOTICES.

Derangement of the Liver, is one of the most common, as well as the most formidible of diseases known to American physicians. It had for years attract the closest attention of the medical faculty, in all parts of the United States, and yet up to the time of the discovery of Dr. M'Lane's great Specific, it was almost beyond the reach of medical skill. Thousands had perished without even a hope of relief, and although thousands may yet be destined to feel the direful effects of this most complicated disease, it is now, thanks to the research of Dr. M'Lane, most completely brought within the scope of medical control. The proprietors of the Liver Pills feel warranted in saying, that when every remedy which has been fully tested by time and which has never failed of success when fairly tried, has proved powerless, and the patient has been given up by the regular physician, as incurable, that a few boxes of these Pills will restore the patient to perfect health. Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED LIVER PILLS, and take none other. There are other Pills, purporting to be Liver Pills, now before the public; also, his Celebrated Vermifuge, can now be had at all respectable Drug Stores in the United States; also, for sale by the sole proprietors, FLEMING BROTHERS, Druggists, Pittsburgh.

A Reprieve.—We do not refer to a reprieve from Capital Punishment. There is a slow torture from which a respite is equally desirable. We refer to Dyspepsia, of which all the symptoms of indigestion are summed up. To the sufferers by this painful and harassing disease, we can hold out not only bright hopes, but the *certainty* of immediate relief and permanent cure. There is a tonic, cordial and alterative principle in Hoofland's German Bitters, which invariably arrests and changes the morbid action of the stomach and the secretive organs, removes the disease, and restores to health. Prepared by Dr. C. M. Jackson, Philadelphia.

Sold in Pittsburgh, at the FLEMING Bros. Druggists, 60 Wood st. Also, for sale by SIEO. H. KEYSER, 140 Wood street. au23:2w&w3

A Secret for the Ladies.—How to preserve beauty.—Don't use Chalk, Lily White, or any of the so-called cosmetics, to conceal a faded or sallow complexion.

If you would have the roses brought back to your cheek, a clear, healthy and transparent skin, and life and vigor infused through the system, get a bottle of Carter's Spanish Mixture, and take it according to directions. It does not taste quite as well as your sweetmeats; but if after a few doses you do not find your health and beauty reviving, your step elastic and vigorous, and the whole system refreshed and invigorated like a Spring morning, then your case is hopeless, and all the valuable cosmetics we possess, fit for naught. It is the greatest purifier of the blood known; is perfectly harmless, and at the same time powerfully efficacious. See advertisement. au18-1m&w7

L. G. GRAFF, (successor to J. S. Dilworth & Co.) Office 120 Second street, Pittsburgh, *Agent for Howard Fire Insurance Company.* All varieties of Powder, in any quantity, constantly on hand. Also, Safety Fuse. jy7

M. Bally's Antidot and Lotion, celebrated throughout the land as t only reliable preparations ever invented for the cure of

Diseases of the Urinary Organs, Piles, and Female Complaints.

The great success these extraordinary Medicines have always met with in curing the above complaints, has surprised even the Proprietors themselves, saying nothing or the thousands of individuals who have been permanently cured by their use. We would assure the public that they are not mere *patent humbugs*, compounded solely to sell, but are prepared by a thorough Chemist, with the most choice and rare ingredients which can be obtained, and are intended to do good. But one trial is required to convince all that such is the fact.

They are put up in bottles, with full directions accompanying them, the Antidote at $1, and the Lotion at 50 cts. per bottle. One bottle lasts ten days. Many have been entirely cured in two or three days.

Invented by M. BALLY, Physician to the Hospital o Paris, and prepared by DUBOY & CO., General Agents for the United States and Canada, to whom all orders must be addressed. Principal Depot, 418 Broadway, corner Grand st., New York.

Sold in Pittsburgh, wholesale and retail, by FLEMING BROS., (successors to J. Kidd & Co.) No. 60 Wood st.; Wheeling, J. H. PATTERSON & CO., and by Druggists' every where.
je23-3m&dfe.

Dr. Morse's Invigorating Elixir or CORDIAL.—It is inquired how this great restorative is accomplishing such extraordinary cures, we can only reply that in the Arabian herb that forms its cardinal ingredient have been blended by the omnipotent Physician, a large number of valuable curative properties unknown than he heretofore been supposed to exist in a hundred different ar Sales of the pharmacopœia. A whole medicine chest of remedies, so to speak, seems to have been combined in this one herb; and when it is known that we have this concentrated essence. It is the effect, however, not the cause with which we have to deal in the practical application of the medicine. The victims of dyspepsia are cured, the victims of debility and paralysis resume their activity, the sufferers from head-aches are tormented no more the weak become vigorous, the tint of jaundice leaves the complexion of the bilious, the depressed in spirits become buoyant, the sick in almost in every condition of disease derive immediate benefit from the use of Dr. Morse's Invigorating Elixir or Cordial. These facts, supported by irrefragable proof, are presented to the attention of Invalids, who can verify them by a single bottle of the medicine. The Cordial is put up highly concentrated, in pint bottles. Price three dollars per bottle, two for five dollars, six for twelve dollars.

C. H. RING, Proprietor,
192 Broadway, N. Y.

Sold by Druggists throughout the United States, Canada and West Indies.

General Agents in Pittsburgh—Fleming Bros., corner Wood street and Virgin alley. Also, by J. T. Fleming, Allegheny City.

More Proof in favor of Myer's Frost Wort or Rock Rose.

To the Rock Rose Company:

MESSRS.—A Medicine under the name of *Myers' Extract of Rock Rose*, has recently found its way into this country, and from the newspaper account (or rather commendatory advertisements) of its having been given in the case of my wife, who had for years been laboring under a disease known by the name of Scrofula. Its prominent symptoms were open ulcers in the stomach, paralysis, diseased bowels, and constitution in the mucous membranes of the head, and to that extent many times she could not breathe except when the mouth was open, there being no passage through the nostrils, and the most horrible Nasal Tympanic Catarrhal Throat Disease, together with Dyspepsia, and all the variable complaints necessary to fit her naught. It is the greatest purifier of the blood known; is perfectly harmless, and at the same time powerfully efficacious. See advertisement. au18-1m&w7

M'Clintock's Family Medicines.—We call the attention of heads of families, and others, to the advertisement on the fourth page of these valuable Family Medicines.

ARNOLD & WILLIAMS,
MANUFACTURERS OF

NEW ADVERTISEMENTS

A GRAND MASS CONVENTION

OF those of all parties opposed to the aggression and extension of Slavery, will be held in E. Hoops' Grove, at New Brighton, Beaver County, Pa., on

Wednesday, the 6th of September,

commencing at 10 o'clock, A. M.

The Committee of Arrangements take great pleasure in announcing that the following eminent speakers have been invited, and are expected to be present and address the meeting:

Hon. JAMES POLLOCK, Whig candidate for Governor,
" DAVID WILMOT, of Bradford county,
" THADDEUS STEVENS, of Lancaster,
" SAMUEL A. PURVIANCE, Butler,
" WM. H. SEWARD, Mayor,
" WILLIAM STEWART,
" A. B. BRADFORD, New Castle.

If the high purposes for which this government was formed are to be saved from *total* and disgraceful defeat, the manifestations of the Spirit of '76 must be aroused. Every man that no time should be lost. Let then, all who love liberty and the institutions we have received from our fathers, party, and who have a desire to make secure "the blessings of liberty to ourselves and our posterity," rally to the common standard, and protest against this giant wrong of the Slave power.

In addition to the rare intellectual entertainment provided, the Committee have the assurance that the *latch string is out*, the *door is open*, and the necessities of the *inner man* amply cared for.

Abundant and comfortable seats, in the pleasant and shaded grove, eleven speakers stands, and a large and powerful choir, should be sufficient, as it no doubt will be, to accommodate all that will be present from the Western Pennsylvania.

Archibald Robertson, Matthew Gillelard,
Edward Hoops, John R. Winans,
Silas Merrick, Thomas Bringhurst,
Wm. Robinson, Jr., Wm. Robinson,
John Cochran, Matthew T. Kennedy,
William Scott, Joseph Martin,
Joseph Britton, James Wilson,
Wm. Brown, John Cuthbertson,
Timothy H. White, Joseph Hutchinson,
Joseph Smith, E. G. Reynolds,
Wm. Stevens, Wm. Mayberry,
S. H. Darragh, H. Townsend,
Jacob Morris, Chairmen of Committees of Arrangements.
