PITTSBURGH GAZETTE.

The Newburyport Herald says the factories on the Chicopee and Agawam rivers, have been able to run but a few hours for several weeks past.—The drought has checked the production of so large a number of mills that it has helped the market for manufactures.

A great rock in Connecticut river opposite West Springfield, has showed itself above the water only twice for more than half a century, once in 1801 and again in 1815, and last Saturday it was ten inches below the surface of the water.

An English writer says you can tell when you are surrounded by a dozen Americans, by the following unerring test—three will be found smoking cigars, and the remaining nine reading newspapers.

MEDICAL.

TO THE PUBLIC.

MOST IMPORTANT ANNOUNCEMENT,
RETIREMENT OF PROF. JAMES McCLINTOCK, M. D

From the Philadelphia Medical College.

A NEW ERA IN THE HISTORY OF MEDICINE!

Popular Medicine for the first time sanctioned by the
HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK M. D., of Philadelphia, known for more than a quarter of a century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of a series of FAMILY MEDICINES therefrom, which will be put up in a *cheap* and *popular* form, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the wid est research, and the almost unequaled experience of one of the first physicians of the age. Each remedy is especially adapted to some *particular form of disease*, in accordance with the *highest principles of modern medical science.* Each of these remedies have been tried, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has called him. Their reliability may be fully known and approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were on under his tuition, in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE:

This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my "Family Medicines," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students, and who are many of them now practising with distinguished success in all parts of the country. My inducements for this step are numerous, one of the most urgent is, that the demand for my remedies has become so large, (from the private rate report of their success,) as to make their preparation too great a draft upon my time; another is, the repeated solicitations of my friends and patients, in the West, for the the general introduction of my remedies would be in many respects a public benefit; and finally, in securing the co-operation of Mr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, whereby I am enabled to assure the public that they will be prepared in the BEST, PUREST and most perfect form, regularly for years to come.

JAMES McCLINTOCK, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery one of the Consulting Physicians of the Philadelphia Hospital, Block-ley Infirmary, member of the National Medical Association, member of the Philadelphia Medical Society, member of the Medico-Chirurgical College of Philadelphia, formerly President and Professor of Anatomy and Surgery in Castleton Medical College, Vermont, and also, late Professor of Anatomy and Physiology in Berkshire Medical Institution, Pittsfield, Mass., &c., &c., &c.

We need scarcely remind the intelligent public of the *great necessity* which exists for the introduction of a class of *good and reliable popular medicines* which may be confidently adopted into family use and *depended on at all times* in the absence of a physician, as being the legitimate productions of *Science, Study and Experience.* No argument is needed to prove the immense superiority of such a class of remedies over the dangerous compounds that are daily puffed into notice by ignorant and reckless men, solely for the purpose of enriching themselves at the expense of the lives and health of their fellow beings. For a short time evidently in the good sense of the community to support us in this effort to extirpate the great public evil of *Quackery* by giving a careful perusal to the following list, which embraces the first series of remedies now ready for sale. It comprises some of the most valuable specifics ever discovered for the several complaints enumerated. If you or any of your friends are sufferers, see no time in procuring the aid of the *first medical authority of the day*, by obtaining and giving a trial to such of these medicines as are adapted to the case. We call especial attention to the first o the list as being most generally demanded, at this season namely, the

The undersigned, in accepting the proprietorship of Dr James McClintock's Family Medicines, would respectfully state to the public, that in his profession as Dispensing Chemist, for nearly fifteen years past, during which time he has been actively connected with the best pharmaceutical establishments in this country, he has had constant occasion to see and prepare the prescriptions of the most eminent physicians, among whom he would name Dr. Mott Dr. Parker, Dr. Francis, Dr. Cheesman, Dr. Eccles, Dr Whittaker, Dr. Schmidt, Dr. Horsely, Dr. Hamm, Drs. Pratt and Young, Dr. Beale, Dr. Green, and many others in the city of New York.

The experience thus acquired enables him to discriminate with confidence between *legitimate medicines, combined scientifically*, so as to secure a harmonious combination in union with their highest therapeutical effects, and the inaccurate mixtures of quackery and ignorance, where, in the want of proper knowledge in combining them, the best ingredients may neutralize and destroy each other, and result in a substance highly injurious, and contrary to its intended design. It is with pleasure, therefore, that he confides that the prescriptions of Dr. James McClintock are not only composed of the most valuable remedies known to, and habitually employed by, our best practitioners in the treatment of the several diseases for which they are intended, but they are combined in such accurate proportions, in relation to their chemical and medicinal effects, as to secure the attainment of the utmost increase of their power and efficiency.

In conclusion, he will only add for himself, that he can refer with confidence to his past career, as his guarantee to the public that these *great remedies* in his hands will be *faithfully prepared* in strict accordance with the prescriptions of their distinguished originator.

SANDS' SARSAPARILLA
IN QUART BOTTLES,
For Purifying the Blood, and for the Cure
Of Scrofula, Rheumatism, Piles, Dyspepsia, Salt Rheum, Erysipelas, Ringworm, Pimples, Blotches, Mercurial Diseases, Intermittent Fevers, Liver Complaint, Broken-down Constitutions, Female Complaints, Loss of Appetite, General Debility, &c. &c.

IN this preparation all the restorative properties of the root are concentrated in their utmost strength and efficacy; but while Sarsaparilla Root forms an important part of its combination, it is at the same time compounded with other vegetable remedies of great power and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of diseases depends. Its acts simultaneously upon the stomach, the circulation of the bowels and thus three process are at once carried on at the same time, through its instrumentality of cure one remedial agent which stimulates the digestive powers, another the blood, and another the bowels all that is irritating, and at the same time restores the vigor and tone. Many other preparations imitate it in bearing the name of Sarsaparilla, and in that their resemblance ends, being often prepared from worthless and inert roots, and of course, possessing no healing or curative properties, and patients in making choice of which they will use should take no other test that one entitled to their confidence, from the long list of cures it has effected on living witnesses, whose names and residence has been published, and who are still bearing daily testimony to its worth.

ASTONISHING CURE.

PATTERSON, N. Y. Sept. 20th, 1851.

Messrs. A. B. & D. Sands—Gentlemen—Having witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to recommend it to the afflicted. In the Spring of 1848, he took a severe cold, and after 8 weeks of severe suffering the disease settled in his left leg and foot, which soon swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; after that no less than fifteen ulcers formed on the leg and foot at one time. We had two physicians but none relieved him much; and the last winter found him confined to his bed and house, unable to leave his bed, suffering the most excruciating pain. During this time the bone had become so much affected that pieces were taken out, of which he has more than twenty-five preserved in a bottle, varying from one-third of an inch to a half inch in length. We have spent up all hopes of his recovery, but at this time we were induced to try your Sarsaparilla, and he has taken five bottles and appetite began immediately to improve, and as rapid was the change that less than a dozen bottles effected a perfect cure. Yours, truly, JAMES HALLARD.

DARIUS HALLARD.

We, the undersigned, neighbors of Mr. Hallard, cheerfully subscribe to the facts of the above statement.

The undersigned, in accepting the proprietorship of Dr James McClintock's Family Medicines, would respectfully state to the public, that in his profession as Dispensing Chemist, for nearly fifteen years past, during which time he has been actively connected with the best pharmaceutical establishments in this country, he has had constant occasion to see and prepare the prescriptions of the most eminent physicians, among whom he would name Dr. Mott Dr. Parker, Dr. Francis, Dr. Cheesman, Dr. Eccles, Dr Whittaker, Dr. Schmidt, Dr. Horsely, Dr. Hamm, Drs. Pratt and Young, Dr. Beale, Dr. Green, and many others in the city of New York.

The experience thus acquired enables him to discriminate with confidence between *legitimate medicines, combined scientifically*, so as to secure a harmonious combination in union with their highest therapeutical effects, and the inaccurate mixtures of quackery and ignorance, where, in the want of proper knowledge in combining them, the best ingredients may neutralize and destroy each other, and result in a substance highly injurious, and contrary to its intended design. It is with pleasure, therefore, that he confides that the prescriptions of Dr. James McClintock are not only composed of the most valuable remedies known to, and habitually employed by, our best practitioners in the treatment of the several diseases for which they are intended, but they are combined in such accurate proportions, in relation to their chemical and medicinal effects, as to secure the attainment of the utmost increase of their power and efficiency.

In conclusion, he will only add for himself, that he can refer with confidence to his past career, as his guarantee to the public that these *great remedies* in his hands will be *faithfully prepared* in strict accordance with the prescriptions of their distinguished originator.
