ending Matter on each page of this Paper An ADDRESS BY GOV. BIGLEB. -The Demo ratio leaders have been prolific of addresses during this campaign. To cap the climax of ah surdities and the betrayal of weakness, Gov. Broxur has issued an address pleading his own cause with the people of Pennsylvania. He seems to doubt the efficacy of the wordy and weak effusions of Mr. BORRAN, put forth as Chairman of the State Committee, which have fallen still-born on the public mind, and he es-mays what a personal effort may do to rally the scattered and frightened forces of the Pier and Bigler Democracy. His address is dated September 22d, at Waverly, New York, where he informs us he has been confined by okness for the last three weeks, during which he complains "the canvass has been actively rsued by his opponent !"

He commences somewhat in the style of an annual message by congratulating the people on the flourishing condition of the great inter-ests of the State, including the finances, and alls us the State debt would have been reduce if the money had not been all spent for other purposes. He admits his willingness to sell the and for them, which just means not to sell thism at all. The currency of the State he says is in a flourishing condition, and he is opposed to the expansion of the banking system. So are re. He is opposed to omnibus legislation and the granting of special privileges which can be ovided for by general laws. Very good ; who to the series it otherwise ? He is opposed to the policy f municipal subscriptions to unblick works all telligent men in the South are more anxious than of municipal subscriptions to public works. All right. We hope another one will never be made. He is in favor of our common school system, and is opposed to any division of the school funds for non school system, and any purpose. We subscribe to this sentiment most heartily. So far there does not seem to be much difference between Goy. Bigler and his opponent Judge Pollock, except in the matter of the rale of the public works.
