A rumbling sensation followed by two tree

legisiature which it

might have withheld. Each licence law proclaims the power to total problibition; each licence law is a law of prohi-bition, partial not total. No man ever had a natural and unalicables bition, partial not total. No man ever had a natural and unalicables wind carried away the cloud to the each great as and to deposit some of its particles even as far as to deposit some of its particles even as far as to deposit some of its particles even as far as to deposit some of its particles even as far as sand, over which bourborse were obliged to make and smock, from out of which becaus of timber prish to sell group to his neighbours. It is no-where to be found on the bill of rights. All will so, it can refuse permission. No man will deny the power of the Legislature to licence, wherever admit this yields at once its power to proble thor model and quarters with every ecouse for a cart of a powers are coexistent, it possesses with both or meither. Many honest and worthy persons don't like the

and the guise of license, There is more port wine drank in the United States in one year, thin passes through the Cui-ton House in ten years. There is more cham-paigue wine drank in the United States alone in one year, than the whole champaigne district of country produces. Cognac brandy cost four times as much in France where it is made, than it is retailed for in every grog shop in Pittsburgh.
