### REVIVAL OF THE ERIE TROUBLES.

The only account we have received of the renewal of the troubles at Erie, is contained in the *Cleveland Leader*, and tinged with the peculiar Cleveland feeling toward Erie. As near as we can get at the facts, the Harbor Creek people met on the morning of the 8th, tore up a mile of the railroad track and destroyed the bridge. On the same morning meetings were held in Erie, and in the afternoon the crowd tore up the rails on the State Street bridge and set fire to the timbers.—Sheriff Vincent appeared on the ground and warned the rioters to desist, but the mob crowded round him and forced him into an adjoining house, which they surrounded. He was rescued from this place by two of the borough officers and Judge Miles, and escorted towards home, the mob attacking them with eggs, stones and other missiles, and compelling them to take refuge in a private house. Mayor King then appeared and dispersed the crowd. The mob then attacked and destroyed the French street railroad bridge.

A telegraphic despatch received from Erie last evening says:

"The bridges at Erie will be re-built by tomorrow morning and the new road at Harbor Creek in five or six days. The Supreme Court has appointed a Special Sheriff to see the road repaired and protect it when done."

AMERICAN OR KNOW NOTHING DOCTRINES.—So far as relates to foreigners and naturalization, these are pretty well understood; but when we come to inquire what their doctrines are as to the great and paramount national and internal questions of slavery, protection to American industry, the currency, *etc.*, we are left to grope our way as best we may. As to *slavery* there is no longer any reason to doubt. The new party is the ally of slavery, as much so as the old Democratic party has been under Polk, and is now under Pierce. We occasionally, however, have inklings of the course the party intends to pursue on the subjects mentioned. A few days ago a "Glorious Demonstration of the American Party" took place at Uniontown in this State, in which, among others, Hon. ANDREW STEWART, "Tariff Andy," took part. After the usual resolutions in regard to foreigners, some defining opinions on other subjects were appended.

On the subject of *slavery*, the following resolution was adopted:

"*Resolved*, That being emphatically a *national* party, knowing "no South, no North, no East, no West, under the Constitution," but professing and entertaining a sacred regard for the interests of the *whole* country, it behooves us to discountenance sectional bickerings and jealousies and every agitation, of whatever character, that may tend to disturb the harmony or threaten the perpetuity of the Union."

Considering this resolution in the light of existing circumstances—the late outrage committed by the South in repealing the Missouri Compromise, and the almost certain contingency that Kansas (and probably Nebraska,) will apply for admission as a slave State—it is such as the most bitter friend of slavery and of slavery extension can cordially endorse. Stephen A. Douglas and his slavery propaganding supporters will pronounce it a very proper and prudent resolution. It echoes the language and sentiments of Northern Dough-Faces and Union-Savers, and is such as is always resorted to by he pro-slavery party when a new outrage is contemplated. If there were no other cause, the pro-slavery tendencies—the base, groveling, contemptible bowing and truckling to slavery—by the new secret party—would be sufficient to excite our most earnest and determined opposition. In regard to slavery, we have adopted the sentiments of the immortal DANIEL WEBSTER, before he fell into temptation, when he spoke his whole heart as a great and glorious AMERICAN CITIZEN. His language suits us so well now, and is so applicable to the case in point, that we quote it. At Niblo's Garden in 1847, he said:

"My opposition to slavery in this country, or to the increase of slave representation in Congress, is general and universal. It has no reference to the lines of latitude or the points of the compass. I shall oppose all such extension, and all such increase, in all places, in all times, under all circumstances, even against all inducements, against all supposed limitation of great interests, against ALL COMBINATIONS, *against all compromises*.

*Aye*, against this secret combination will we oppose all extension of slavery, "*at all times, under all circumstances, and against all inducements.*"

The next resolution adopted by the Uniontown Know Nothings, is as follows:

"10. *Resolved*, That we are opposed to any reduction of the Tariff of 1846."

This is an indirect endorsement of a Tariff which has prostrated our manufactures, and brought the country to the verge of ruin. It is also skulking and cowardly. It does not say directly that it is for or against the Tariff of '46, or anything about protection as a principle. It is well known that a reduction of the Tariff of '46 on some articles would help our manufacturers, by introducing certain articles which we do not grow, and which are indispensable for their use; and yet we must have no reduction, and by implication no increase. We must suffer on—the Know Nothings will it.

The next resolution is a complete endorsement of the Sub-Treasury, and in opposition to Banks. The next is against a *National Bank*,—a kick at the poor old dead Monster. The rest is opposed to an "extravagant system of internal improvements," which means all internal improvements, as no exceptions are made. The next is another kick at the banks. The next is against corporations and monopolies.

Here is about the first attempt we have seen by the new party to adopt a creed in relation to general politics, and a beautiful specimen it is, being nothing but old fashioned Locofocoism boiled down! Speeches were made by several gentlemen, among others, by ANDREW STEWART, "Tariff Andy," the Old Whig War Horse of Fayette, who endorsed the resolutions in whole and in part. They had "his entire acquiescence"—that was for them as a whole; he was for them separately. The resolve on the Tariff of 1846 met his unqualified approbation!" Alas, alas! The reader can make his own comment.

A HOG WAR AT THE WEST.—The western part of Jersey county in Illinois, at the latest accounts was in a state of civil warfare, occasioned by the residents of the prarie driving their swine into the woods to feed upon the nuts and acorns which are there in great abundance, against the wishes of the residents in that section. The parties are designated by each other with the significant soubriquets of 'swamp dogs' and 'prairie wolves.' It appears that the hog raisers of the prairie, owing to the scarcity and high price of corn on the one hand, and the almost unlimited amount of 'mast' to be found in the woods, on the other, have thought it prudent, if not in many cases an absolute necessity, to avail themselves of a profusion spread out on every side by the God-of Nature. Many of the hog owners also own timber land, and though herdsmen are sent out to take care of the stock, the migratory habits of of the animal cannot well be restrained, and, as a consequence they trespass on the rights of others. Already hogs have been shot, duels reported, and the matter has been brought before the courts.

FROM JAPAN.—A circular from Hong Kong dated October 27, says that the two ports of Japan opened to the English by the treaty lately concluded, are supposed to be Nangaska and one to the southward of those granted to the United States. The same circular says that the Japanese declined to accede to a request of the English Admiral, that they would not furnish provisions, or supplies of any kind to the Russians should they visit Japan again.

As we expected and predicted, the vote for Mr. Morgan is claimed as the test of the Know Nothing strength in the city. Nothing is allowed for votes drawn in by personal considerations, nor for those obtained by the Temperance and anti-Huckster promises of the Know Nothing nominee; every vote is set down as a Know Nothing vote. "The K.-N.'s have increased their vote," says one of Mr. M.'s newspaper advocates, "from 1251 in October to 1936—again of fifty-five per cent." Those anti-Know-Nothings who have been betrayed into voting for Mr. Morgan will, of course, like to be counted along with those to whom they are opposed.

It is very cunning to take the lowest K. N. vote last fall and the highest now, and claim the difference as so much gain since then; but it is hardly honest. The vote for Baird, last fall, for Supreme Judge, was 1,251; but one of the three secret orders had his name omitted from their tickets. The vote for Smith, for legislature, who was on all the Know Nothing tickets, was 1,564, and that of the other county candidates who were in a similar position was in the same neighborhood: and it is much safer to assume *that* as the Know Nothing strength in October than the vote for Baird.

That Mr. Morgan, through the various outcries raised by himself and friends, got many outside votes, is beyond question. The returns from the Second, Fourth and Sixth wards abundantly prove this. In the 8 ond Ward where he resides, he has 33 votes more than the K. N. nominee for Select Council; in the Fourth, 75 more; and in the Sixth, 18 more. It is fairly presumable from the rigid discipline of the Order, that the nominees for Select Council, in these wards, received its entire vote; and the probability is that they, too, as well as the nominee for Mayor, received outside assistance. Here, then, we have 126 more votes for Morgan, in these three wards, than for the other candidates of the Order; and a scrutiny of the remaining wards will increase the number to 150. Deducting this from Mr. M.'s vote on Tuesday and we have 1786 as an approximate indication of the strength of the Order. This, we have no doubt, is over rather than under the mark; and shows that the increase since October is very slight, considering the industrious efforts used.

The analysis of the vote for Councils will afford much the best test of the relative strength of the two parties in the late contest; although even that is not conclusive. In the first, second, fourth, fifth, seventh and ninth wards the K. N. Council tickets were claimed as "Whig," having been nominated by the Order in meetings called as "Whig;" in the sixth and eighth wards they were dubbed "Citizens" tickets, although other Citizens' tickets were in nomination; while in the third ward, and there alone, their ticket was paraded under its true colors. It is not only probable, therefore, but certain, that there devices were successful in entrapping outside votes; and, among so many candidates, personal considerations and appeals were doubtless potent in securing others. Leaving these things out of view, however, the vote for Councils, taking those candidates which afford the fairest test, shows a total K. N. vote of 1760, and an opposition vote of 2529; and we think it fair to infer, from the premises before us, that there is a clear Anti-Know Nothing majority of 800 in the city.

AN EXPLANATION.—Mr. Morgan thinks himinjured by an article in our paper of Tuesday, referring to his course towards the Agent of the Young Men's Bible Society, inasmuch as he deems it calculated to affect his character in this community.

We had and have no desire to cast a single aspersion upon Mr. Morgan's character. The statement made by us came from the lips of Mr. Gabriel Barr, the Agent of the Bible Society, and we were careful to put it upon his authority alone. He was directed to us by citizens in whose probity we repose entire confidence, and his credentials as Agent of an important association were regular and well endorsed. We were justifiable, therefore, in supposing that he was a man of veracity, and one in whose allegations we could trust.

Mr. Morgan, however, denies Mr. Barr's statement. He admits that Mr. Barr called on him for a contribution to the Bible Society, and that he declined giving one, (which he had an unquestionable right to do;) but alleges that his declination was based on reasons satisfactory to himself, and that he neither laughed at the application, nor derided the Agent, nor encouraged any one to mock and sneer at him: and furthermore alleges that the Agent was treated with perfect gentility and propriety.

We give this denial of Mr. Morgan as a matter properly due to him. We have mentioned our authority for the original statement, and how it came to us; and while we are satisfied that, if true, is furnished a legitimate weapon of warfare in such a contest as we have just passed through, we have no disposition to withhold his denial of it, and therefore cheerfully give him the benefit of this explanation.

We wish to add, as a further explanation, that the article to which allusion is made was published by us on Tuesday only because we had not an opportunity to give it sooner. We were not made acquainted with the circumstance until Monday afternoon. Had it come to our knowledge sooner it would not have been withheld for publication until the last hour, as we have no faith in "last cards" and such contrivances. We opposed Mr. Morgan from the start, honestly and fairly as we thought, presenting promptly whatever facts and arguments came to hand, so that he and his friends should have no lack of time to meet them; and it was the mere fortune of war that this one came when it did.

A LECTURE BY JOHN MITCHELL.—We have been requested to state that the celebrated Irish Refugee, JOHN MITCHELL, intends to deliver a lecture in this city shortly, on the subject of Protection to American Industry. We understand that Mr. Mitchell takes the affirmative side of the question—that it is right to protect American Industry. As this is the sort of Americanism we like, we recommend the lecture and the Locturer to the attention of our citizens. Although we differ greatly and widely from Mr. Mitchell on some subjects, yet no one can deny that he is a gentleman of undoubted ability, and when he proposes to talk to us on a subject in which we have a deep interest, we trust he may have a large and appreciative audience. We take an extract or two from a late number of the CITIZEN, to show the drift of Mr. Mitchell's views:

"Many a poor man in the United States is now reaping the famishing fruit of a mistaken commercial system.

To begin with one important branch of industry. On Saturday week, says the Evening Post, the last American factory engaged in fabrication of Broadcloth *stopped*: and the Broadcloth manufacture, is therefore for the present at an end in the United States." But what signifies this, will say some stupid but erudite and "enlightened" political economist,—so long as we can get good English broadcloth at a cheaper rate than we could make it at home. Thousands of workers in iron, as well as in wool have been turned out of employment about the beginning of this winter; and we may take comfort if we can in the reflection that people in Birmingham and in Merthyr Tydvil are quite ready and willing to make us whatever we want of that kind, and actually pour it into the market cheaper than American operatives working up the produce of Pennsylvania mines. The imports of manufactured goods of all sorts from England have been rapidly increasing these late years; and even now, when people in New York are making large contributions to maintain idle artizans and their wives and children, *as mendicants*, every Liverpool steamer brings several million dollar's worth of British goods very cheap and neat.

It seems, then, that the artizans who make those things in England, can be maintained by their own labor and without alms.

But just in the proportion that working men are reduced from wages to alms, that is, transformed from independent men to paupers,—just in that very same proportion the remainder of the people are less able to bestow alms. Pauperism breeds pauperism; and when this sliding scale begins to slide downwards its progress is still in an accelerated ratio.

Our prudent Anglo-Saxon kinsmen of England drive a prosperous trade with us just now,—they import our raw material for their manufactures, and our California gold,—they export their manufactured goods and their paupers. * * *

These things are beginning to cause some reflection and discussion amongst working men, who are not yet so enlightened as to accept phrases of political economy instead of bread; and cannot see the advantage or beauty of that liberal and progressive policy which arranges matters so that American artificers who are willing enough to work are actually paying the wages of Englishmen working for them. * *

Now, we are told that when we begin to speak against "Free Trade" and "Reciprocity" and to advocate a high protective tariff for manufactures, we are talking *Whig*—that the Democratic party thinks it liberal and "progressive" to have low duties, to abjure protection, and to hold out to all nations the open hand of "reciprocity."—We make no account of this at all. There is nothing democratic in low duties nor aristocratic in high ones. The question of democracy, that is the most absolute popular sovereignty, does not enter into the present subject; and it matters not a jot to us what parties, or what men may have been heretofore identified with the Tariff measures of '42 or of '46. To call the one a Whig Tariff and the other a Democratic Tariff we hold to be simple nonsense. Enough for us that under the Tariff of '42 a high duty was imposed on woollen goods (to take one example,) that *therefore* the woollen manufacture of the United States flourished:—that under the Tariff of '46 several descriptions of woollens were admitted at a reduced duty;—and that now, after eight years of the working of this latter Tariff the last Broadcloth factory in the United States closed a few days ago.

We are for high protective duties on all manufactures that Americans can make.

KANSAS.—This is a free country; at least the slaveholders up the Missouri seem to think so, from the exceeding freeness of the course they are adopting. The *Louisville Journal* brings us the proceedings of what it calls "a meeting of the most respectable citizens of Lafayette county, Mo.," held at Lexington, on the 25th of December, to consider the present condition and prospects of Kansas Territory. They resolved as follows:

"That slavery now exists in the Territory of Kansas by the free will and choice of the citizens thereof, and that we will use all lawful means to aid and sustain the people of said territory in protecting themselves and their property from any encroachments of their rights by abolition societies or their emissaries."

As a means of carrying out the purpose herein declared, they resolve again:

That we, the shippers, merchants, planters, and citizens generally of Lafayette county deem it an act of injustice that steamboats on the Missouri river should give their aid or countenance to the base attempt to abolitionize the territory of Kansas, by selling or forwarding any persons who may be sent by abolition societies thereto, or in giving aid or assistance to any such object, and that in our trading, shipping, and traveling we will give preference to such boats as will refuse their aid and comfort to such emigration as may be forwarded by any abolition society for the purpose aforesaid, and recommend to the citizens of all the counties contiguous to the Missouri river to unite with us, in our purpose as above expressed to meet and pass resolutions to that effect, in their respective counties.

A convention to unite the counties of western Missouri on this subject was to be held at Liberty, Clay county, on the 8th of this month, and delegates were appointed to attend by the Lafayette meeting.

Comment upon such language as this ought to be unnecessary, in the North. Even the *Louisville Journal* is indignant at it. It says:

We see that the citizens of Lafayette county, Mo., have held a meeting and called upon the proprietors and captains of steamboats on the Missouri river not to receive on board any persons going to Kansas under the auspices of Abolition societies, and invoked the citizens of all the counties contiguous to that river to discountenance any boats that may receive such persons. We regard this as infamous. Any steamboat that should refuse to receive respectable passengers without requiring them to show under what auspices they were traveling would deserve to be dragged or burned. The traveling world will never submit to any such assumption of inquisitorial and despotic power by the officers of steamboats, and it would be a fool if it did.

In the same connection it very pertinently adds:

Every pulmonic disease, Pulmonary Balsam, Pectoral Expectorant, Pulmonary Liniment, Depurative Syrup, Heart Corrector, Liver Corrector, pain and neuralgia Cod Liver Oil, Anti-Dyspeptic Mixture, Cough and Cathartic Pills, Nervine, Vermifuge, Female Pills, Female Specific, &c. &c., used by him constantly and with unprecedented success in the treatment of

## SPECIAL NOTICES.

**Dr. M'Lane's Liver Pills.**—This great medicine has supplanted all others for the cure of diseases of the Liver, Stomach and Bowels, and speedy, and at the same time so perfectly safe, that it is not surprising it should supersede all others. Invented by a very distinguished Physician of Virginia who practised in a region of country in which Hepatic, or Liver complaints, prevailed formidable and common, and who had spent years in discovering the ingredients and proportioning their quantities to each other, which are produced by one of the diseases, and never fail to alleviate the most obstinate case of that terrible complaint. They have justly become celebrated, and the researches of Dr. M'Lane have placed his name in the first rank of mankind. No one having a predisposition of this formidable complaint, should be without these invaluable Pills. Have you a pain in your right side, under the ribs, which increases with pressure—unable to lie with ease on the left side—with occasional, sometimes constant, pain under the shoulder blade, frequently extending to the top of the shoulder? help upon help is tried, and the latter makes no impression, but on the contrary, they all arise from disease of the Liver, and if you would have relief, go instantly and buy a box of Dr. M'Lane's Liver Pills.

Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED LIVER PILLS, and take none else. There are other Pills, purporting to be Liver Pills, now before the public also, his Celebrated Vermifuge, can now be had at all respectable Drug Stores in the United States also, for sale by the sole proprietors, FLEMING BROTHERS, Pittsburgh. Successors to J. Kidd & Co., 60 Wood st ja4-dawly

**A Special Bulletin for the Sick.**—Dr. *Morse's Invigorating Cordial* relieves with wonderful rapidity every disorder incident to the digestive apparatus; restores the appetite; renews the strength; hardens the muscles, increases the nerves, and elasticity to the step; recalls the mental energies, banishes despondency, imparts to the attenuated frame a more robust appearance; allays inflammation, calms the disturbed imagination, builds up the shattered constitution, and may be taken without fear by the feeblest maiden, wife or mother, as it is composed solely of the juices of rare Oriental herbs, potent only to cure, vitalize, invigorate and restore.

If the system has become enfeebled by improper indulgence, the Cordial will infuse a more vigorous vitality into every organ. The laxitude resulting from late hours or too close application to labor of any kind, is quickly removed by its action, and ladies engaged in sedentary occupations, and subject to inconvenience therefrom, will find it a safe and healthy stimulant. Where the circulation of the blood is sluggish, or the functions of the body are suspended or imperfectly performed, it will restore the natural action and communicate permanent energy to the secretive and digestive organs.

Those who are bowed down by physical debility, and so feeble as to despair of ever recovering the vigor and mien of manhood, are invited to give this wonderful invigorant a trial. Within the short space of a fortnight its effects will be plain to all. Before they have consumed the first bottle, they will be conscious that the recuperative principle is at work in every debilitated portion of their frames, and hope, soon to be realized in their thorough recovery, will spring up in their hearts.

The Cordial is put up, highly concentrated, in pint bottles. Price $1 per bottle, two for $1, viz for $12.

**M'Clintock's Family Medicines.**—We call the attention of heads of families, and others, to the advertisement on the fourth page of these valuable Family Medicines.

**Extract from a letter by the Rev. Mr. CHURCHILL**, of Boston, who is now traveling for his health in the East:

"It gives one an ever present idea of the expansive energies of his countrymen, to find the commodities of commerce continually in his path wherever he goes. I have not yet visited any considerable city of Turkey where I have not found some of my parishioners in all prosperity, by Ayer's Cherry Pectoral in Smyrna, Aleppo, Jerusalem, Constantinople, Athens, Malta, Gibraltar, etc. Ayer's *Cherry Pectoral for Coughs, Colds and Consumption, Sold Here!* Even on a shelf with the Arabian Physician, we have seen the Bottles with their English, Spanish and French and Italian turned to the crowd, and the inscription was are told that foreigners are not the only purchasers, but that true believers themselves wave their hands in his favor in the use of this product of American skill, when they find there is no other to be had.

I was told here yesterday that the *Cherry Pectoral* had been presented to the Sultan, and is now in constant use in his harem, and in the Hospitals of the Empire."

**Dailey's Magical Pain Extractor.**—There never has been a discovery made in Materia Medica whereby pain can be so quickly allayed, and where pain is a sure symptom of inflammation can be so rapidly reduced to their normal condition, as when Dailey's Extractor can be so thoroughly and rapidly applied; and deeper pain restored without either scar or defect, than with "DAILEY'S MAGICAL PAIN EXTRACTOR."

In Cuts, Wounds, Sprains, and Bruises—casualties to which children are constantly subject—the action of the genuine DAILEY'S PAIN EXTRACTOR, is ever the same! How much human suffering may not thus be prevented!—Moreover, Life itself is often dependent upon having at hand the Genuine DAILEY EXTRACTOR, and for particulars of which I respectfully refer to my printed pamphlets, for distribution by agents and by myself personally.

None are genuine and sold, no matter how severe has ever yet, in any one instance, resulted the all-powerful, life-sustaining, and healing qualities of the DAILEY'S PAIN EXTRACTOR.

**It Should be Universally Known**—for it is strictly true—that indigestion is the parent of a large proportion of the maladies to which we are subject. Dysentery, diarrhœa, cholera morbus, liver complaint, and many other diseases enumerated in the city inspector's weekly catalogue of deaths, are generated by indigestion alone. Think of that, dyspeptics! think of it all who suffer from disordered stomachs, and if you are willing to be guided by advice, founded upon experience, resort at once (don't delay a day) to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, which, as an alterative, carminative and purgative, stands alone and unapproached. General depot, 120 Arch street. We have tried these Bitters, and know that they are a sovereign remedy for the diseases specified above.—*Philadelphia City News.* See advertise ment. ja12-w-d&w7

**Great Cure of Rheumatism.**—The Editors of the Richmond Republican Dec. 21th, 1852, say that *Carter's Spanish Mixture* is no quack medicine!

They had a man in their press room who was afflicted with violent Mercurial Rheumatism, who was continually complaining of misery in the back, limbs and joints—his pains had become feverish and restless, and sweat swollen. Throat sore, and all the symptoms of Rheumatism, combined with Scrofula. Two bottles of Carter's Spanish Mixture cured him, and to an editorial notice as above, they bear testimony to its wonderful effects, and say their only regret is, that all suffering with disease of the blood are not aware of the existence of such a medicine. They cheerfully recommend it. See their certificate and notice in full around the bottle. de29-d&w1m*

FROM KANZAS.—We have been favored with the perusal of a Kanzas letter from Mr. Edwin Bond, of Watertown. Mr. Bond is the man who so bravely faced the Missourians at the time the latter threatened to drive the Yankees from their location at Lawrence city. The letter is dated at Lawrence, Dec. 15th. He says: "Our new city goes on bravely, buildings being erected at a rapid rate. Such is the demand for a location here, that members of our Association can easily sell out their interest for $500 as buyers are plenty. Mr. A. Lawrence, of Boston, has given notice that he will erect a college building here in the Spring, and a school building, to prepare young men to enter this College, is now going up. Proposals are now being received for the erection of a three story brick building, 80 feet by 50, to be occupied as a hotel. Three newspapers are about to start, the publishers boaing in the street erecting their offices. There are seven ministers, two doctors, and five lawyers in the city. We have now in operation a large saw mill, a grist mill, and a sash and blind and planing mill. The two storekeepers have as much as they can attend to, one of them employing fourteen teams to keep him supplyed with goods. There is a good prospect that Lawrence will be made the capital of the Territory, as emigrants are pressing into its vicinity from all quarters, and every claim within twenty miles is taken up."—*Boston Traveller.*

## SPECIAL NOTICES.

**Dr. M'Lane's Liver Pills.**—This great medicine has supplanted all others for the cure of diseases of the Liver, Stomach and Bowels, and speedy, and at the same time so perfectly safe, that it is not surprising it should supersede all others. Invented by a very distinguished Physician of Virginia who practised in a region of country in which Hepatic, or Liver complaints, prevailed formidable and common, and who had spent years in discovering the ingredients and proportioning their quantities to each other, which are produced by one of the diseases, and never fail to alleviate the most obstinate case of that terrible complaint. They have justly become celebrated, and the researches of Dr. M'Lane have placed his name in the first rank of mankind. No one having a predisposition of this formidable complaint, should be without these invaluable Pills. Have you a pain in your right side, under the ribs, which increases with pressure—unable to lie with ease on the left side—with occasional, sometimes constant, pain under the shoulder blade, frequently extending to the top of the shoulder? help upon help is tried, and the latter makes no impression, but on the contrary, they all arise from disease of the Liver, and if you would have relief, go instantly and buy a box of Dr. M'Lane's Liver Pills.

Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED LIVER PILLS, and take none else. There are other Pills, purporting to be Liver Pills, now before the public also, his Celebrated Vermifuge, can now be had at all respectable Drug Stores in the United States also, for sale by the sole proprietors, FLEMING BROTHERS, Pittsburgh. **A Special Bulletin for the Sick.**—Dr. *Morse's Invigorating Cordial* relieves with wonderful rapidity every disorder incident to the digestive apparatus; restores the appetite; renews the strength; hardens the muscles, increases the nerves, and elasticity to the step; recalls the mental energies, banishes despondency, imparts to the attenuated frame a more robust appearance; allays inflammation, calms the disturbed imagination, builds up the shattered constitution, and may be taken without fear by the feeblest maiden, wife or mother, as it is composed solely of the juices of rare Oriental herbs, potent only to cure, vitalize, invigorate and restore.

If the system has become enfeebled by improper indulgence, the Cordial will infuse a more vigorous vitality into every organ. The laxitude resulting from late hours or too close application to labor of any kind, is quickly removed by its action, and ladies engaged in sedentary occupations, and subject to inconvenience therefrom, will find it a safe and healthy stimulant. Where the circulation of the blood is sluggish, or the functions of the body are suspended or imperfectly performed, it will restore the natural action and communicate permanent energy to the secretive and digestive organs.

Those who are bowed down by physical debility, and so feeble as to despair of ever recovering the vigor and mien of manhood, are invited to give this wonderful invigorant a trial. Within the short space of a fortnight its effects will be plain to all. Before they have consumed the first bottle, they will be conscious that the recuperative principle is at work in every debilitated portion of their frames, and hope, soon to be realized in their thorough recovery, will spring up in their hearts.

The Cordial is put up, highly concentrated, in pint bottles. Price $1 per bottle, two for $1, viz for $12.

**M'Clintock's Family Medicines.**—We call the attention of heads of families, and others, to the advertisement on the fourth page of these valuable Family Medicines.

**Extract from a letter by the Rev. Mr. CHURCHILL**, of Boston, who is now traveling for his health in the East:

"It gives one an ever present idea of the expansive energies of his countrymen, to find the commodities of commerce continually in his path wherever he goes. I have not yet visited any considerable city of Turkey where I have not found some of my parishioners in all prosperity, by Ayer's Cherry Pectoral in Smyrna, Aleppo, Jerusalem, Constantinople, Athens, Malta, Gibraltar, etc. Ayer's *Cherry Pectoral for Coughs, Colds and Consumption, Sold Here!* Even on a shelf with the Arabian Physician, we have seen the Bottles with their English, Spanish, French and Italian turned to the crowd, and the inscription was are told that foreigners are not the only purchasers, but that true believers themselves wave their hands in his favor in the use of this product of American skill, when they find there is no other to be had.

I was told here yesterday that the *Cherry Pectoral* had been presented to the Sultan, and is now in constant use in his harem, and in the Hospitals of the Empire."

**Dailey's Magical Pain Extractor.**—There never has been a discovery made in Materia Medica whereby pain can be so quickly allayed, and where pain is a sure symptom of inflammation can be so rapidly reduced to their normal condition, as when Dailey's Extractor can be so thoroughly and rapidly applied; and deeper pain restored without either scar or defect, than with "DAILEY'S MAGICAL PAIN EXTRACTOR."

In Cuts, Wounds, Sprains, and Bruises—casualties to which children are constantly subject—the action of the genuine DAILEY'S PAIN EXTRACTOR, is ever the same! How much human suffering may not thus be prevented!—Moreover, Life itself is often dependent upon having at hand the Genuine DAILEY EXTRACTOR, and for particulars of which I respectfully refer to my printed pamphlets, for distribution by agents and by myself personally.

None are genuine and sold, no matter how severe has ever yet, in any one instance, resulted the all-powerful, life-sustaining, and healing qualities of the DAILEY'S PAIN EXTRACTOR.

**It Should be Universally Known**—for it is strictly true—that indigestion is the parent of a large proportion of the maladies to which we are subject. Dysentery, diarrhœa, cholera morbus, liver complaint, and many other diseases enumerated in the city inspector's weekly catalogue of deaths, are generated by indigestion alone. Think of that, dyspeptics! think of it all who suffer from disordered stomachs, and if you are willing to be guided by advice, founded upon experience, resort at once (don't delay a day) to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, which, as an alterative, carminative and purgative, stands alone and unapproached. General depot, 120 Arch street. We have tried these Bitters, and know that they are a sovereign remedy for the diseases specified above.—*Philadelphia City News.* See advertise ment. ja12-w-d&w7

**Great Cure of Rheumatism.**—The Editors of the Richmond Republican Dec. 21th, 1852, say that *Carter's Spanish Mixture* is no quack medicine!

They had a man in their press room who was afflicted with violent Mercurial Rheumatism, who was continually complaining of misery in the back, limbs and joints—his pains had become feverish and restless, and sweat swollen. Throat sore, and all the symptoms of Rheumatism, combined with Scrofula. Two bottles of Carter's Spanish Mixture cured him, and to an editorial notice as above, they bear testimony to its wonderful effects, and say their only regret is, that all suffering with disease of the blood are not aware of the existence of such a medicine. They cheerfully recommend it. See their certificate and notice in full around the bottle. de29-d&w1m*
