The lecturer referred to two events in Pompadour's reign which had great influence in unset thing the nation and hastening the revolution.—First, the expulsion of the Jesuits. Second, the triumph of the philosophers. Pampadour did not like the Jesuits: not because they were the the privates of clusters in the perverters of education; not because they were the consistent friends of despoising in the because they were the consistent friends of despoising in the because they were the consistent friends of despoising disciples in the school of superstition, or pharisaical pretenders to piety: but because they disputed her claims as one of the powers of the age, because they interfered with her supremacy. Their strempted assassination of the King and the failure of the Jesuit Bank at Martinique, gave Pampadour, their archerony, the opportunity to use her power.—A decree of Louis confiscated their property, took away their charter and suppressed their offers, and it is a singular fact that the weak munded Pope Clement XIV himself was forced to hastic their downfall. He signed the edict that dispersed the best soldiers of absolutism in all Enterpore.

On the one hand, there existed a most execuable spirit of despotism—on the other a forment of distracting ideas. There was war between absolutism and unrestrained license, He referred to the literature of that period at more length than we have space to follow. Its mitimate influence was a mixture of good and evil and was a most efficient agent in overturning the throne. He thought Voltaire with his 200 volumes will appear to future ages only as a pamphleteer inveiging against all religion and all true principles. After Voltaire came the Encyclopedistsopen ly declaring what he had only hinted. Then followed Rosseau, the infamous blasphemer, the type of the modern socialist. Summing up all ly declaring what he had only hinted. Then fol-lowed Rosseau, the infamous blasphemer, the type of the modern socialist. Summing up all the causes to be found in the pages of history, the kecturer concluded with the inquiry, can we wonder that a revolution took place in France?
