New Countries.—A portion of our country friends are interesting themselves largely in promoting new county enterprises. So far as they may urge these schemes upon the plea of personal convenience, we have nothing to say, there was a minority report. We shall await ernment. The remedy is an extreme one, but it although we may think they take a very restrict ed visw of the matter: but when they come to pressing them because they think themselves litted to put in a few words by way of having the matter more fully understood.

We have seen two specious arguments used by those who are most active in this matter, and by none more assiduously than by parties out of this county, who are alarmingly impressed with the evils impending over the head of the innocent country falls of this balliwick. These arguments may briefly be stated thus:

First-The county has subscribed largely railroads, for the benefit of the city, in bond

to say that the railroads to which the county has subscribed are not exclusively for the benefit of the city. That they will add to our business convenience is truit but they traverse the county is its length and breadth, in different directions, directions, directions of the county and adding largely to the county and adding largely to the people of the county and adding largely to the people of the county and adding largely to the people of the county and adding largely to the people of the county and adding largely to the people of the county and adding largely to the people of the county and the business and prosperity of the county and the business and prosperity of the county and the Otto the county and the people of the county and the Otto the Children and Elembertills roads traverse, in two directions, the part of the county to the cast.
