Western Trade.—Some of the newspapers of the lake shore cities appear to be concerned about the effect produced upon the trade of the Northern Lakes by the competition of the rival Eastern and Western railroad lines. The Sandualy Register, in an article upon this subject says:

ways:

"We recently remarked upon the fact that the
trade of Lake Eric was suffering a gradual diminution by the opening of various thoroughfares
to the East and North. A few years since almost the whole tide of East and West travel, duing the gradual of the stand of the most the whole tide of East and West travel, during the season of navigation, swept up and down the Lake—now the passanger trade alone is a precarious business; the Canada route, the Lake Shore road, the Pennsylvesta and Ohio road, the Baltimore and Ohio road, all comes into direct competition for that trade, and great distraction has ensued—instead of one we have five great through routes, all competing for the same business. Under such a system of competition it would not be a matter of wonder if the old and long-travelet thoroughfars; abould suffer, if not positive loss, at least most of their profits." RESOLVES CONCERNING THE FUGITIVE SLAVE

Law.—In the Massachusetts House of Representative, Mr. Knowles, of Eastham presented a series of resolutions on this subject, from the Committee on Federal Relations, as follows, which were read and placed in order for future which were read and placed in order for future action:

which were read and placed in order for future action:

Resolved, Inasmuch as there is neither any power granted to the General Government in the Constitution of the United States for the enactment of any law by Congress for the return of alleged Fugitive Slaves, nor any prohibition therein to the States against the passage of laws upon that subject, that the Fugitive Slave Bill is a direct violation of the tenth article of amendment to the Constitution of the United States, which declares that "The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserred to the Resolved, That our Senators and Representatives in Congress be requested to use all honorable means to secure the unconditional repeal of the Figitive Slave Bill of 1850, which is hostile alike to the provisions of the National Constitution and the precision of the Fagitive Slave Bill of 1850, which is hostile alike to the provisions of the National Constitutions. tion, freshness and purity, can be taken without disrelish iton, freshness and purity, can be taken without disrelish by the most delicate.

It is unnecessary to advert to the peculiar effect of this very valuable and scientific remedy. Its success in the curse of thronic Bheumatism, Scrotils, and Lung Discesses, when skillfully applied and persevered in; is no longer a matter of conjecture it is now acknowledged to possess healing wirtuss almost incomparable to any other possess healing wirtuss almost incomparable to any other specific. Dr. Gronz H. Kreun-Dear Sir. In reply to yours of the listh inst. requesting my opinion of your Shoulds Braces, I would say that I consider it one of the best even devised, and would add that I have myself been long in the habit of employing a somewhat similar Brace with the greatest advantage in cases of contraction of the cheast by stooping, whether from habit, occupation or debility, more especially where there is weakness or irritation about the lungs, and more or less prediposition to consumption—yith the philosophy of its effects in these cases, you are of course equainted. In some forms of heart disease, or sympethesis excitement of that organ, I have also found the Shoulder Braces of advantage.
