Ab! Reverend Bishop, there is a higher law

Ab I Howevend Bishop, there is a higher law than mere legal enaments, which you wish, and the need to legal enaments, which you wish, and the county of Stavelay, says:

I must asy that although Bishop O'Connor's liter nature may have suggested something like a show of eats of incorporation, still it is wident these Asylums, Mercy Hospital and Cathedrial all are within the purview of the Episonic.

It is necessary in order to understand this quation of corporatorship of Bishop O'Connor, to refer to the eat as passed at the session of the Logislature of 1844:

The Washington Organ of the Order says:

"The American party in New York, it affords us great pleasure to state, is unineatly conservative and decidedly opposed to abolitionism.

We have the most positive assurances of this fact from undoubted authority.

The American party has recently been purged of its anti-Union elements in New York, and the same causes are working out the nationality of of our party throughout the North."

This is the food dispensed to Virginia palates. It is yet to be proved whether the Free Soil sentiments of the men who have been drawn into the Order are to be thus summarily "crushed

delphis and Pittsburgh sole corporators, we have also in 1849 a Roman Catholic Council speaking on this point. It may be asked, how was this movement of the Baltimore Council received at Rome, when the doings of that body were presented to the Holy Father? Who ever heard of a veto, instead of an approval of the acts of the Council on the part of the Vatican! With respect to the St. Louis Church, which the Bishop pect to the St. Louis Church, which the Bishop pect to the St. Louis Church, which the Bishop to the church was erected.) when the Trustees got into difficulties with Bishop Timon about the title to the property, actually went to Rome to bring the matter before the Pope for adjustment. This church of St. Louis was incorporated in the State of New York in 1838 and seven Trustices are elected in whom was vested the title to the property.

How was this pilgrimage to Rome on the part of Louis was sent to this country, but was it to adjust amicably the point of grievance. Certainly not; but to reiterate the claim of the Pope's Nuncio, was sent to this country.

This does not look much like a spirit "that was it to adjust amicably the point of grievance." Certainly not; but to reiterate the claim of the Bishop.

a disposition to keep the power in his own hands rather than to permit the people to control the property arrangements of the church, what does the Bishop mean by his pro-tempore holding property? This is too this a covering to hid his sele corporate powers.

Bishop O'Connor, if the act of 1844 is repealed making him sele corporate, desires a mode of incorporation different from that saked for by of ther denominations. Again, that the property of the durch should be controlled by him, either directly, which will be so if the act of 1844 is not repealed, or by Truitee uppointed by himself, in one word he calls upon the legislature to say that laymen, by election of the people of the church, shall not be eligible as Trustees in a Roman Catholic congregation. Acts of incorporation got up by the Bishops will not doubt be committed to the administration of persens, whater lay Breduction of Sisters, who will accord with Episcopal desires.
